The End of the Beginning W.J. Dumbrell, 2001-01-10 **A Commentary on the Holy Scriptures**

Johann Peter Lange, 1871 **The Sketch, the Tale, and the Beginnings of American Literature** Lydia G.

Fash, 2020-03-31 Accounts of the rise of American literature often start in the 1850s with a cluster of great American novels Hawthorne's *The Scarlet Letter* Melville's *Moby Dick* and Stowe's *Uncle Tom's Cabin* But these great works did not spring fully formed from the heads of their creators All three relied on conventions of short fiction built up during the culture of beginnings the three decades following the War of 1812 when public figures glorified the American past and called for a patriotic national literature Decentering the novel as the favored form of early nineteenth century national literature Lydia Fash repositions the sketch and the tale at the center of accounts of American literary history revealing how cultural forces shaped short fiction that was subsequently mined for these celebrated midcentury novels and for the first novel published by an African American In the shorter works of writers such as Washington Irving Catharine Sedgwick Edgar Allan Poe and Lydia Maria Child among others the aesthetic of brevity enabled the beginning idea of a story to take the outsized importance fitted to the culture of beginnings Fash argues that these short forms with their ethnic exclusions and narrative innovations coached readers on how to think about the United States past and the nature of narrative time itself Combining history print history and literary criticism this book treats short fiction as a vital site for debate over what it meant to be American thereby offering a new account of the birth of a self consciously national literary tradition

The Old Testament Between Theology and History Niels Peter Lemche, 2008-01-01 From its inception at the time of the Enlightenment until the mid twentieth century the historical critical method constituted the dominant paradigm in Old Testament studies In this magisterial overview Niels Peter Lemche surveys the development of the historical critical method and the way it changed the scholarly perception of the Old Testament In part 1 he describes the rise and influence of historical critical approaches while in part 2 he traces their decline and fall Then in part 3 he discusses the identity of the authors of the Old Testament based on the content of the literature they wrote demonstrating that the collapse of history does not preclude critical study

Part 4 investigates the theological consequences of this collapse and surveys Old Testament and biblical theology in its various manifestations in the twentieth century An appendix includes a history of Palestine from the Stone Age to modern times constructed without recourse to the Old Testament A Commentary on the Holy Scriptures: Critical, Doctrinal, and Homiletical: O.T. v.1. Genesis, or, The First Book of Moses ... by J.P. Lange. 1868 Johann Peter Lange,1870 German Literature of the Early Middle Ages Brian Murdoch,2004 A detailed contextualized picture of the very beginnings of writing in German from around 750 to 1100 This second volume of the set not only presents a detailed picture of the beginnings of writing in German from its first emergence as a literary language from around 750 to 1100 but also places those earliest writings into a context The first stages of German literature existed within a manuscript culture so careful consideration is given to what constitutes the actual texts but German literature also arose within a society that had recently been Christianized through the medium of Latin Therefore what we understand by literature in Germany at this early period must include a great amount of writing in Latin Thus the volume looks in detail at Latin works in prose and verse but with an eye upon the interaction between Latin and German writings Some of the material in the newly written German language is not literary in the modern sense of the word but makes clear the difficulties and indeed the triumphs of the establishing of a written literary language Individual chapters look first at the earliest translations and functional literature in German including charms and prayers next the examination of heroic material juxtaposes the Hildebrandlied with the Christian Ludwigslied and with Latin writings like Waltharius and the panegyrics Otfrid's work the Gospel poem in German is given its due prominence the smaller German texts and the later prose works are fully treated as is chronicle writing in German and Latin Old High German literature was a trickle compared to the flood of the Latin that surrounded and influenced it but its importance is undeniable that trickle became a river Contributors Linda Archibald Graeme Dunphy Stephen Penn Christopher Wells Jonathan West Brian Murdoch Brian Murdoch is Professor of German at the University of Stirling Scotland

Bede and Time Máirín MacCarron,2019-09-19 Awarded the Irish Historical Research Prize 2021 The Venerable Bede c 673-735 was the leading intellectual figure of the early Anglo Saxon Church and his extensive corpus of writings encompassed themes of exegesis computus dating of Easter and construction of calendars history and hagiography Rather than look at these works in isolation Máirín MacCarron argues that Bede's work in different genres needs to be read together to be properly understood This book provides the first integrated analysis of Bede's thought on time and demonstrates that such a comprehensive examination allows a greater understanding of Bede's writings on time and illuminates the place of time and chronology in his other works Bede was an outstanding intellect whose creativity and ingenuity were apparent in various genres of writing This book argues that in innovatively combining computus theology and history Bede transformed his contemporaries' understanding of time and chronology **The Old Testament** Rolf Rendtorff,1991-01-01 The Old Testament is a collection of writings which came into being over a period of more than a thousand years in the history of the

people of Israel and which reflect the life of the people in this period Therefore there is a reciprocal relationship between the writings or books of the Old Testament and the life of Israel in its history The understanding of the texts presupposes insights into the historical context and the development of the life of Israelite society while at the same time the texts themselves are the most important indeed for the most part the only source for it This Introduction attempts to take account of this reciprocal relationship The first part deals with the history of Israel However its approach differs from most accounts of this history It takes the Old Testament texts themselves as a starting point and first of all outlines the picture of historical developments and associations which the texts present An attempt is then made on this basis to reconstruct historical developments by introducing material from outside the Bible This method of working leads to close connections between the second and third parts because it has to take account of the nature and original purpose of the texts and their function within the biblical books as they are now The second part attempts to present the texts collected in the Old Testament as expressions of the life of Israel The third part discusses the books of the Old Testament in their present form

Epic, Epitome, and the Early Modern Historical Imagination Chloe Wheatley, 2011 Analyzing popular texts such as chronicle summaries abridgements of sacred epic and abstracts of civil war debate Wheatley charts the efflorescence of early modern epitome culture and demonstrates its impact upon Edmund Spenser's *The Faerie Queene* Abraham Cowley's *Davideis* and John Milton's *Paradise Lost* **Gender and Emotions in Medieval and Early Modern Europe: Destroying Order, Structuring Disorder** Susan Broomhall, 2016-03-03 States of emotion were vital as a foundation to society in the premodern period employed as a force of order to structure diplomatic transactions shape dynastic and familial relationships and align religious beliefs practices and communities At the same time societies understood that affective states had the potential to destroy order creating undesirable disorder and instability that had both individual and communal consequences These had to be actively managed through social mechanisms such as children's education acculturation and training and also through religious intellectual and textual practices that were both socio cultural and individual Presenting the latest research from an international team of scholars this volume argues that the ways in which emotions created states of order and disorder in medieval and early modern Europe were deeply informed by contemporary gender ideologies Together the essays reveal the critical roles that gender ideologies and lived structured and desired emotional states played in producing both stability and instability

Travel, Time, and Space in the Middle Ages and Early Modern Time Albrecht Classen, 2018-10-22 Research on medieval and early modern travel literature has made great progress which now allows us to take the next step and to analyze the correlations between the individual and space throughout time which contributed essentially to identity formation in many different settings The contributors to this volume engage with a variety of pre modern texts images and other documents related to travel and the individual's self orientation in foreign lands and make an effort to determine the concept of identity within a spatial framework often determined by the meeting of various cultures Moreover objects images

and words can also travel and connect people from different worlds through books The volume thus brings together new scholarship focused on the interrelationship of travel space time and individuality which also includes of course women s movement through the larger world whether in concrete terms or through proxy travel via readings Travel here is also examined with respect to craftsmen s activities at various sites artists employment for many different projects all over Europe and elsewhere and in terms of metaphysical experiences catabasis

Genesis, Or The First Book of Moses Johann Peter Lange,1873 **Christianities in the Early Modern Celtic World** T. O' Hannrachain,R. Examining Identity Linda Clark,2018 This series pushes the boundaries of knowledge and develops new trends in approach and understanding **ENGLISH HISTORICAL REVIEW** *Early Jewish Messianism in the New Testament* Serge Ruzer,2020-07-13 In *Early Jewish Messianism in the New Testament* Serge Ruzer takes a new tack on the investigation of early Christian polemical strategies against the backdrop of Second Temple Judaism Complementing traditional inquiry on the subject Ruzer focuses on those elements of Messiah and Christ centered ideas that bear witness to patterns of broader circulation namely the Jewish messianic ideas that provided the underpinning for the identity making moves of Jesus early followers The volume suggests that such attempts can be expected to reflect eschatological ideas of the Jewish Other Exploring cases where the New Testament shows itself an early witness for belief patterns found in contemporaneous or only later rabbinic sources this volume reveals a fuller picture of Second Temple Jewish messianism

historical unreliability and lack of originality Now however they are increasingly appreciated for the insights they provide into Byzantine ideology and the complex interaction of reading and writing in Byzantium This volume highlights and contributes to the radical re evaluation of this long neglected genre of medieval literature Contributors are Raimondo Tocci William Adler Thomas M Banchich Albrecht Berger Richard W Burgess John Burke R ka Forrai Christian Gastgeber Martin Hinterberger Marek Jankowiak Ralph Johannes Lilie Athanasios Markopoulos Mischa Meier Federico Montinaro Diether Roderich Reinsch Fabian Schulz Roger Scott Paul Tuffin Staffan Wahlgren and Varvara Zharkaya
