Bartley, 2014-10-03 This study the first of its kind in English examines Russian responses to the independence movement in Latin America during the early nineteenth century From a strictly presentist perspective the investigation of this subject contributes to the historiography of colonialism and of Latin America's relations with the major world powers In addition it rounds out the story of foreign interests in the emancipation of Spanish and Portuguese America while at the same time shedding new light on the history of Russian overseas expansion The study probes the major determinants of Russian responses to the struggle for independence of colonial Latin America and evaluates from a European perspective the actual impact of tsarist policy on the course of those historic events Drawing on a wide range of printed materials and on hitherto unused manuscript sources from the archives and libraries of Spain Portugal Brazil and the USSR it isolates Russian New World objectives during the first decades of the nineteenth century and relates those objectives to the formulation of tsarist policy toward the insurgent Iberian colonies *The Monroe Doctrine, 1823-1826* Dexter Perkins, 1927 The Hispanic

American Historical Review James Alexander Robertson, 1918 Includes Bibliographical section *The Diaries of Sir Ernest Satow, 1921-1926 - Volume Two (1924-1926)* Ian Ruxton (ed.), 2018-10-12 The distinguished diplomat Sir Ernest Satow's retirement began in 1906 and continued until his death in August 1929. From 1907 he settled in the small town of Ottery St Mary in rural East Devon, England. He was very active, serving as a British delegate at the Second Hague Peace Conference in 1907 and on various committees related to church missionary and other more local affairs. He was a magistrate and chairman of the Urban District Council. He had a very wide social circle of family friends and former colleagues with frequent distinguished visitors. He produced two seminal books: *A Guide to Diplomatic Practice* (1917, now in its seventh revised edition) and *As Satow and A Diplomat in Japan* (1921). The latter is highly evaluated as a rare foreigner's view of the years leading to the Meiji Restoration of 1868. This book in two volumes is the last in a series of Satow's diaries edited by Ian Ruxton. This is the first ever publication.

Getting it Wrong in Spain Susana Belenguer, 2017-10-02 This book brings together different and interdisciplinary perspectives on the Spanish Civil War: its victims, its contentious ending, and its aftermath. In exploring the slow demise of republican ideals, contributors range over many diverse historical and cultural topics, discussing for instance the attitudes of both Left and Right to the poet Federico García Lorca and to his assassination, examining the documentary evidence offered in surviving memoirs of the Civil War, and assessing the major characteristics of the new order in Spain under Franco. Cinematic and literary depictions of the Civil War and its consequences are also studied. Other topics investigated include contemporary French reactions to the Spanish conflict, Stalinist policies towards Spain, the activities and motives of the anarcho-syndicalists, and the role of the International Brigades. This collection of essays, published on the 75th anniversary of the end of the Civil War, not only places the events and experiences studied within the context of the new state of Franco's Spain but also offers timely, fresh insights into wider European and international issues during what was a period of seismic change in world history. This book was originally published as a special issue of *Bulletin of Spanish Studies*.

AMERICA FROM CONQUEST TO INDEPENDENCE Ruben Ygua, 2025-04-09 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests, which subordinated the historical fact to the System point of view. The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about. After so many years of studying History, I came to the conclusion that the best study system is through an impartial, objective Chronology that just put each event in its exact place in time, revealing History without manipulation. This Chronology contains not only purely political facts such as the foundation of cities, the birth of kingdoms and empires, scientific and geographical discoveries, natural disasters, and epidemics; it also includes information on the most different fields of human activity: chemistry, astronomy, geography, mathematics, and so on. In parallel, the chronology is complemented by data that do not belong to a specific date but to an entire epoch: they are each society's generalities, curiosities, customs, the religion of each civilization, inventions, or discoveries.

that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day this for now covers from 1789 to 1946 divided into five collections

Hispanic-American History William Whatley Pierson (Jr.), 1926 *The Woodbine Parish Report on the Revolutions in South America (1822)* Mariano Martín Schlez, 2022-09-15 This book presents the unpublished intelligence report South America written in 1822 by

Woodbine Parish clerk at the Foreign Office Castlereagh's private secretary and later the first British Consul to Buenos Aires The document is transcribed analysed and fully contextualised in order to foreground its decisive historical significance The aim of Parish's report was to outline British foreign policy and political strategy towards the South American revolutions at the final Congress of the Holy Alliance held in Verona Its publication contributes to the ongoing debates on Informal Empire providing new empirical evidence that will enable us to better understand the social content of the political economic and cultural relationships established between Britain and Latin America in the first half of the 19th century The history of the document and of its author introduce the reader to the early stages of British intelligence and diplomacy with respect to an Independent Latin America revealing the Foreign Office's powers and limitations Likewise they offer an overview of the information about the South American revolutions circulating in London at the time as well as the mechanisms used by the British government to obtain classify and publicize this intelligence for political purposes In this sense the report makes evident the importance for the British government of knowing a specific historical and geographical reality in order to develop a foreign policy and political strategy The book reflects on how this knowledge was mediated by class antagonisms and social relations on a national and international scale and was shaped by the stages of development of the productive forces in the regions involved In this sense studying the Parish family will allow us to more fully understand the role played by the increasingly influential social classes in particular the merchants and manufacturers in the development and implementation of a British foreign policy for Latin America
