Engineering Contract has rapidly overtaken traditional building and civil engineering contracts to become the UK's leading standard form for major construction projects. Additionally, under the generic title NEC 3, there is now a family of New Engineering Contract standard forms. This book provides a detailed commentary on the latest edition of the main form NEC 3 Engineering and Construction Contract. It explains how the contract is intended to operate and examines each clause to consider its application and legal interpretation. It draws upon the author's successful book on the second edition of the Engineering and Construction Contract ECC 2 and identifies and comments on the changes between ECC 2 and NEC 3. Particular attention is given to the revised compensation event procedures in NEC3, with five chapters of the book devoted to this subject. In-depth analysis is also given to the role of the project manager, the obligations of the parties, the liabilities of the parties, the revised dispute resolution procedures.

Cadence Bob Rusch, 1991 **Small Antenna Design** Douglas B. Miron, 2006-03-22 As wireless devices and systems get both smaller and more ubiquitous, the demand for effective but small antennas is rapidly increasing. Small Antenna Design describes the theory behind effective small antenna design and gives design techniques and examples for small antennas for different operating frequencies. Design techniques are given for the entire radio spectrum from a very low frequency of a few hundred kilohertz to the gigahertz range. Unlike other antenna books, which are heavily mathematical and theoretical, Douglas Miron keeps mathematics to the absolute minimum required to explain design techniques. Ground planes, essential for operation of many antenna designs, are extensively discussed. The author's extensive experience as a practicing antenna design engineer gives the book a strong hands-on emphasis. Covers antenna design techniques from very low frequency below 300 kHz to microwave above 1

GHz ranges Special attention is given to antenna design for mobile portable applications such as cell phones WiFi etc
