Slow Burn R. Jisung Park, 2025-07-29 How the subtle but significant consequences of a hotter planet have already begun from lower test scores to higher crime rates and how we might tackle them today It's hard not to feel anxious about the problem of climate change especially if we think of it as an impending planetary catastrophe In *Slow Burn* R. Jisung Park encourages us to view climate change through a different lens one that focuses less on the possibility of mass climate extinction in a theoretical future and more on the everyday implications of climate change here and now Drawing on a wealth of new data and cutting edge economics Park shows how climate change headlines often miss some of the most important costs When wildfires blaze what happens to people downwind of the smoke When natural disasters destroy buildings and bridges what happens to educational outcomes Park explains how climate change operates as the silent accumulation of a thousand tiny conflagrations imperceptibly elevated health risks spread across billions of people pennies off the dollar of productivity fewer opportunities for upward mobility By investigating how the physical phenomenon of climate change interacts with social and economic institutions Park illustrates how climate change already affects everyone and may act as an amplifier of inequality Wealthier households and corporations may adapt quickly but without targeted interventions less advantaged communities may not Viewing climate change as a slow and unequal burn comes with an important silver lining It puts dollars and cents behind the case for aggressive emissions cuts and helps identify concrete steps that can be taken to better manage its adverse effects We can begin to overcome our climate anxiety Park shows us when we begin to tackle these problems locally

Before the age of 28 Prachurya Bharadwaj,2022-12-31 The name Prachurya means Goddess of wealth in ancient Sanskrit True to that meaning Prachurya Bharadwaj the author has accumulated herself an ocean of experiences that very few 28 year olds would fathom She didn t just stop at one post graduate degree in engineering but pursued another one then some more professional courses after that At 21 when she went abroad to study she found internship opportunities in one country created a start up in another followed by full time positions then again in another country where she bought her first house This book is a story of her defeating all odds taking proactive measures rising above those who thought too little of her healing herself of continuous traumas stacked over the ones from her childhood Today she works in the Netherlands as a technical lead for development of unique technology that should ascertain the leadership of ASML in the semiconductor industry This exciting read is only a part of her story going from the age of around 7 until 28 when she perceived that this was the pinnacle of her success Her upcoming books will contain the story of what happens after that epitome of success You guessed it right She keeps achieving more

The State of the System Paul W. Bennett,2020-09-23 Over the last fifty years Canada s public schools have been absorbed into a modern education system that functions much like Max Weber s infamous iron cage Crying out for democratic school level reform the system is now a centralized bureaucratic fortress that every year becomes softer on standards for students less accessible to parents further out of touch with communities and surprisingly unresponsive to classroom teachers Exploring the nature of the Canadian education order in all its dimensions The State of the System explains how public schools came to be so bureaucratic confronts the critical issues facing kindergarten to grade 12 public schools in all ten provinces and addresses the need for systemic reform Going beyond a diagnosis of the stresses strains and ills present in the system Paul Bennett proposes a bold plan to re engineer schools on a more human scale as the first step in truly reforming public education In place of school consolidation and managerialism one size fits all uniformity limited school choice and the success for all curriculum Bennett
