Climate Change 2014 - Impacts, Adaptation and Vulnerability: Part B: Regional Aspects: Volume 2, Regional Aspects Intergovernmental Panel on Climate Change (IPCC),2014-12-29 This latest Fifth Assessment Report of the Intergovernmental Panel on Climate Change IPCC will again form the standard reference for all those concerned with climate change and its consequences including students researchers and policy makers in environmental science meteorology climatology biology ecology atmospheric chemistry and environmental policy **Climate Change 2014 -**

Impacts, Adaptation and Vulnerability: Regional Aspects Christopher B. Field,Vicente R. Barros,2014-12-29 This latest Fifth Assessment Report of the Intergovernmental Panel on Climate Change IPCC will again form the standard reference for all those concerned with climate change and its consequences including students researchers and policy makers in environmental science meteorology climatology biology ecology atmospheric chemistry and environmental policy *Flood*

Risk Management Theodore V Hromadka II,Prasada Rao,2017-08-30 In this book contributions from several experts specializing in the area of flood risk management are assembled into a single volume Application and testing of numerical and statistical models that can simulate the complex reality along with effective flood management strategies that are being implemented in various nations are presented This collection of topics will provide an update to the reader as to the state of the art in this important technical field **Climate Change in Deserts** Martin Williams,2014-08-11 A synthesis of the environmental and climatic history of every major desert and desert margin for researchers and advanced students

Rethinking Development Challenges for Public Policy K. Hanson,G. Kararach,T. Shaw,2012-04-05 Covers topical issues for Africa s development economics and politics of climate change water management public service delivery and delivering aid The authors argue that these issues should be included in the post MDG paradigm and add an important voice to recent moves by academics and practitioners to engage with each other **Nature** Anonymous,2023-10-21 Reprint of the original first published in 1875 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost Community-based adaptation Hannah Reid,2017-10-02 Community based adaptation CBA to climate change is based on local priorities needs knowledge and capacities Early CBA initiatives were generally implemented by non government organisations NGOs and operated primarily at the local level Many used bottom up participatory processes to identify the climate change problem and appropriate responses Small localised stand alone initiatives are insufficient to address the scale of challenges climate change will bring however The causes of vulnerability such as market or service access or good governance also often operate beyond the project level Larger organisations and national governments have therefore started to implement broader CBA programmes which provide opportunities to scale up responses and integrate CBA into higher levels of policy and planning This book shows that it is possible for CBA to remain

centred on local priorities but not necessarily limited to work implemented at the local level Some chapters address the issue of mainstreaming CBA into government policy and planning processes or into city or sectoral level plans e g on agriculture Others look at how gender and children s issues should be mainstreamed into adaptation planning itself and others describe how tools can be applied and finance delivered for effective mainstreaming This book was published as a special issue of Climate and Development

Socio-Economic Issues of Climate Change Luni Piya,Keshav Lall Maharjan,Niraj Prakash Joshi,2019-02-21 This book conducts a holistic analysis of climate change perceptions vulnerabilities impacts and adaptation based on the primary household data collected from the Chepang community residing in the rural Mid Hills of Nepal Socio economic and demographic data from the household survey is integrated with meteorological and spatial data to conduct an integrated analysis Quantitative analysis is also supplemented by qualitative information Given the context of ongoing climate change the livelihoods issues of a highly marginalized Chepang community form the center point of analysis The book demonstrates that balanced assets possession is a prerequisite to strengthen the adaptive capacity of the households Furthermore the ability of translating adaptive capacity into adaptation actions is determined by the households ability to correctly perceive the changes and their access to various assets The book recommends to ensure the availability of non farm livelihood opportunities along with access to formal vocational education and skill development training as these are the key factors contributing to reduce the vulnerability The book concludes that mainstreaming of climate change into development efforts is a must for sustainable development

Nature ,1881 *Working with indigenous knowledge* Fhumulani M. Mulaudzi,Rachel T. Lebesse,2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research

Selected Water Resources Abstracts ,1978 **Identifying Potential for Equitable Access to Tertiary Level Science** Marissa Rollnick,2010-07-20 Higher education internationally is in a state of transition and

transformation leading to an increase in the level of participation and a consequent increase in number of non traditional and underprepared students The appearance of these students provides a particular challenge in the sciences where adequate grounding is crucial One response to this challenge has been the provision of access foundation or second chance programmes which operate on different models internationally In South Africa where the push for equity is strong in the wake of the apartheid era programmes have generally been established at all tertiary institutions with some of the most successful of these programmes based at universities characterised by a high research output Consequently in the last decade there has been a great deal of research into the effectiveness of these programmes both at a micro and macro level Similar research in other countries exists but is patchy and often based on small groups of students This book provides valuable information on what research has to say about disadvantaged and under prepared science students and how they learn what works and what does not work It provides an examination of issues related to the programmes their structure student selection and adjustment Issues such the learning of these students their communicative ability and laboratory work come under the spotlight Although examining the issue internationally the book draws heavily on lessons from South Africa where there has been considerably experience of such programmes

Report of the ... Meeting British Association for the Advancement of Science,1873 **Nature** ,1881 **Handbook of Research on Geospatial Science and Technologies** Maphanyane, Joyce Gosata,Mapeo, Read Brown Mthanganyika,Akinola, Modupe O.,2017-08-10 The impacts of climate change are beginning to be felt throughout the world yet there is no clear explanation as to how these changes will alter our future The research being conducted within the geospatial science field is pivotal to understanding the effects the global environment is experiencing The Handbook of Research on Geospatial Science and Technologies is an essential scholarly reference source that evaluates the current methodologies and trends in geospatial science and how these insights provide society with more efficient and effective ways to manage natural resources Featuring discussions on relevant topics such as cartography geographical information systems remotely sensed data and sustainability management this publication is an informative resource for all academicians students scientists and researchers that are interested in emerging developments within geospatial science

Report of the Forty-Second Meeting of the British Association for the Advancement of Science Anonymous,2023-10-21 Reprint of the original first published in 1873 *The Practical Mechanic's Journal* ,1865 *Global Degradation of Soil and Water Resources* Rui Li,Ted L.
