Ethics and climate change , 2015-07-27 Climate change is the most significant moral and environmental issue of our time This project seeks to help deepen explicit ethical reflection around the world on national responses to climate change by developing a publicly available record on national compliance with ethical obligations for climate change similar to the reports that are now available on national compliance with human rights obligations *Arctic Ice Shelves and Ice Islands*

Luke Copland, Derek Mueller, 2017-05-30 This book provides an overview of the current state of knowledge of Arctic ice shelves ice islands and related features Ice shelves are permanent areas of ice which float on the ocean surface while attached to the coast and typically occur in very cold environments where perennial sea ice builds up to great thickness and or where glaciers flow off the land and are preserved on the ocean surface These landscape features are relatively poorly studied in the Arctic yet they are potentially highly sensitive indicators of climate change because they respond to changes in atmospheric oceanic and glaciological conditions Recent fracturing and breakup events of ice shelves in the Canadian High Arctic have attracted significant scientific and public attention and produced large ice islands which may pose a risk to Arctic shipping and offshore infrastructure Much has been published about Antarctic ice shelves but to date there has not been a dedicated book about Arctic ice shelves or ice islands This book fills that gap *Common Wealth Dividends* Brent Ranalli, 2021-04-22 Common wealth dividends are universal cash payments funded by fees on the private use of common resources like land minerals and the atmosphere as a carbon sink Thomas Paine s 1797 pamphlet Agrarian Justice and Alaska s Permanent Fund Dividend are staples in the literature on Basic Income but there is much more to common wealth

dividends beyond these highlights and common wealth dividends have a distinctive ethical justification and distinctive policy implications that merit discussion This monograph the most comprehensive study of common wealth dividends to date will be of interest to students teachers and advocates of Basic Income and those in the field of environmental studies including sustainable development natural resource management and climate policy *China's Way to Carbon Emissions Reduction* Ying Shen,2015-08-18 Now that the most recent scientific estimates have shown that China has become the world s largest source of greenhouse gas emissions China s influence on the world s environment and sustainable development highlights the importance of tailoring Chinese climate change law to conform with the requirements of international conventions and agreements on climate change This thorough analysis based on an examination of climate status legal background and current regulatory systems in China examines the potential role of different policy instruments in reducing carbon emissions in order to find an appropriate choice for China and recommends approaches to key issues for relevant authorities The author conducts a comprehensive and in depth study on the three mainstream environmental policy instruments used to control carbon emissions the cap and trade system the carbon tax and command and control regulations in a Chinese context She reviews China s current policies and elucidates how the issues of climate change and global warming call for social environmental economic and legal reforms in China especially in the areas of administrative law and property rights law Among the issues and topics covered are the following key issues on designing and implementing each of the three policy instruments the choice of regulatory instruments for carbon emissions reduction in a socialist market economy based on the discussion of market failure and government failure theories legal challenges from China s current administrative legislation and the definition of carbon emissions entitlements practical effect of China s climate change policy at the national provincial and local levels effectiveness of China s implementation of its international obligations lessons learned from schemes implemented in the United States and Australia comparison of China s seven regional pilot emissions trading scheme ETS programmes with the well established EU ETS linkage between China s ETS and other ETSs from a global perspective and future direction of an emerging carbon market in China The analysis assesses the critical costs and benefits of each approach in the context of selected case studies taking legal literature in the field fully into account Given that the Chinese government is taking steps to reduce emissions by altering energy production and usage and is signalling a willingness to make similar commitments in a multilateral treaty it is very timely and important for lawmakers and scholars within and outside China to think about new and appropriate regulatory measures to respond to the crisis and plan for a sustainable future This study provides not only a useful benchmark for both China and other countries in formulating initiatives on enhancing climate protection but also details the global implications for governments and for international organizations concerned with the understanding between China and the rest of the world in the context of climate change mitigation *The United States of Excess* Robert Paarlberg,2015-03-02 Is it possible that America is hard wired to consume too much food and fuel

Unfortunately yes says Robert Paarlberg in *The United States of Excess* America's excess is driven in each case by its distinct endowment of material and demographic resources its unusually weak national political institutions and a unique political culture that celebrates both individual freedoms over social responsibility and free markets over governmental authority America's over consumption is shown to be over determined *Navigating the Changing Landscape of Formal and Informal Science Learning Opportunities* Deborah Corrigan, Cathy Buntting, Alister Jones, John Loughran, 2018-06-27 This book presents research involving learning opportunities that are afforded to learners of science when the focus is on linking the formal and informal science education sectors It uses the metaphor of a landscape as it emphasises how the authors see the possible movement within a landscape that is inclusive of formal informal and free choice opportunities The book explores opportunities to change formal school science education via perspectives and achievements from the informal and free choice science education sector within the wider lifelong life wide education landscape Additionally it explores how science learning that occurs in a more inclusive landscape can demonstrate the potential power of these opportunities to address issues of relevance and engagement that currently plague the learning of science in school settings Combining specific contexts case studies and more general examples the book examines the science learning landscapes by means of the lens of an ecosystem and the case of the Synergies longitudinal research project It explores the relationships between school and museum and relates the lessons learned through encounters with a narwhal It discusses science communication school community partnerships socioscientific issues outreach education digital platforms and the notion of a learning ecology **Advancing Big Data Benchmarks** Tilmann Rabl, Nambiar Raghunath, Meikel Poess, Milind Bhandarkar, Hans-Arno Jacobsen, Chaitanya Baru, 2014-10-08 This book constitutes the thoroughly refereed joint proceedings of the Third and Fourth Workshop on Big Data Benchmarking The third WBDB was held in Xi an China in July 2013 and the Fourth WBDB was held in San Jos CA USA in October 2013 The 15 papers presented in this book were carefully reviewed and selected from 33 presentations They focus on big data benchmarks applications and scenarios tools systems and surveys Federal Register ,2013-06 **Formal Techniques for Distributed Systems** Dirk Beyer, Michele Boreale, 2013-05-29 This book constitutes the refereed proceedings of the 15th IFIP WG 6.1 International Conference on Formal Methods for Open Object Based Distributed Systems FMOODS 2013 and the 33rd IFIP WG 6.1 International Conference on Formal Techniques for Networked and Distributed Systems FORTE 2013 held in Florence Italy in June 2013 as part of the 8th International Federated Conference on Distributed Computing Techniques DisCoTec 2013 The 20 revised full papers presented were carefully reviewed and selected from 39 submissions The papers present a wide range of topics combining theory and practice They cover distributed computing models and formal specification testing and verification methods as well as application domains such as application level distributed systems telecommunication services Internet embedded and real time systems and networking and communication security and reliability *Drawing for Science Education* Phyllis Katz, 2017-03-23 This book

argues for the essential use of drawing as a tool for science teaching and learning The authors are working in schools universities and continual science learning CSL settings around the world They have written of their experiences using a variety of prompts to encourage people to take pen to paper and draw their thinking sometimes direct observation and in other instances their memories The result is a collection of research and essays that offer theory techniques outcomes and models for the reader Young children have provided evidence of the perceptions that they have accumulated from families and the media before they reach classrooms Secondary students describe their ideas of chemistry and physics Teacher educators use drawings to consider the progress of their undergraduates understanding of science teaching and even their moral ethical responses to teaching about climate change Museum visitors have drawn their understanding of the physics of how exhibit sounds are transmitted A physician explains how the history of drawing has been a critical tool to medical education and doctor patient communications Each chapter contains samples insights and where applicable analysis techniques The chapters in this book should be helpful to researchers and teachers alike across the teaching and learning continuum The sections are divided by the kinds of activities for which drawing has historically been used in science education An instance of observation Audubon Linnaeus A process how plants grow over time what happens when chemicals combine Conceptions of what science is and who does it Images of identity development in science teaching and learning
