The Process of Research in Psychology Dawn M. McBride, 2019-01-02. The Process of Research in Psychology employs the pedagogical approach of spaced repetition to present a student-friendly introduction to conducting research in psychology. Drawing on more than 17 years of teaching experience, best-selling author Dawn M. McBride covers topics with step-by-step explanations to help students understand the full process of designing, conducting, and presenting a research study. Early chapters introduce important concepts for developing research ideas, subject sampling, ethics, and data collection; more detailed coverage of these topics is included in More About chapters to provide instructors with flexibility in their teaching. Concepts and skills relevant to more than one stage of the research process are covered in multiple contexts, providing repeated exposure to the topics students often struggle with but that are the most important in gaining research skills.
