## **Reflections Social Studies Textbook:**

The Status of Social Studies Jeff Passe, Paul G. Fitchett, 2013-10-01 A team of researchers from 35 states across the country developed a survey designed to create a snapshot of social studies teaching and learning in the United States With over 12 000 responses it is the largest survey of social studies teachers in over three decades We asked teachers about their curricular goals their methods of instruction their use of technology and the way they address the needs of English language learners and students with disabilities We gathered demographic data too along with inquiries about the teachers training their professional development experiences and even whether they serve as coaches The enormous data set from this project was analyzed by multiple research teams each with its own chapter This volume would be a valuable resource for any professor doctoral student or Master s student examining the field of social studies education It is hard to imagine a research study topical article or professional development session concerning social studies that would not quote findings from this book about the current status of social studies With chapters on such key issues as the teaching of history how teachers address religion social studies teachers use of technology and how teachers adapt their instruction for students with disabilities or for English language learners the book s content will immediately be relevant and useful The New Politics of the Textbook Heather Hickman, Brad J. Porfilio, 2012-10-29 In an era when corporate and political leaders are using their power to control every aspect of the schooling process in North America there has been surprisingly little research on the impact of textbook content on students The contributors of this volume and its partner The New Politics of the Textbook Problematizing the Portrayal of Marginalized Groups in Textbooks guide educators school administrators academics and other concerned citizens to unpack the political social and cultural influences inherent in the textbooks of core content areas such as math science English and social science They urge readers to reconsider the role textbooks play in the creation of students political social and moral development and in perpetuating asymmetrical social and economic relationships where social actors are bestowed unearned privileges and entitlements based upon their race gender sexuality class religion and linguistic background Finally they suggest ways to resist the hegemony of those texts through critical analyses critical questioning and critical pedagogies Social Studies and Diversity Education Elizabeth E. Heilman, Ramona Fruja Amthor, Matthew T. Missias, 2010 The preparation of social studies teachers is crucial not only to the project of good education but even more broadly to the cultivation of a healthy democracy and the growth of a nation e tm s citizens This one of a kind resource features ideas from over 100 of the field s most thoughtful teacher educators reflecting on their best practices and offering specific strategies through which future teachers can learn to teach thus illuminating the careful planning and deep thinking that go into the preparation of the social studies teachers While concentrating on daily teaching realities such as lesson planning and meeting national state or provincial standards each contributor also wrestles with the most important current issues on educating teachers for today e tm s increasingly diverse complex and global society
