A. Elhiraika, A. Mukungu, W. Nyoike, 2016-01-26 The role of integration as a catalyst for economic growth development and insulation from global shocks has made the concept of regional integration even more attractive to states This books contains compelling arguments and empirical observations that detail some of the key opportunities governments in Africa are pursuing Region-Building in Africa Daniel H. Levine, Dawn Nagar, 2016-05-19 This landmark book is the first

of its kind to assess the challenges of African region building and regional integration across all five African sub regions and more than five decades of experience considering both political and economic aspects Leading scholars and practitioners come together to analyze a range of entwined topics including the theoretical underpinnings that have informed Africa s regional integration trajectory the political economy of integration including the sources of different waves of integration in pan Africanism and the reaction to neo liberal economic pressures the complexities of integration in a context of weak states and the informal regionalization that often occurs in borderlands the increasing salience of Africa s relationships with rising extra regional economic powers including China and India and comparative lessons from non African regional blocs including the EU ASEAN and the Southern Common Market A core argument of this book running through all chapters is that region building must be recognized as a political project as much as if not more than an economic one successful region building in Africa will need to include the complex political tasks of strengthening state capacity including states capacity as developmental states that can actively engage in economic planning resolving long standing conflicts over resources and political dominance improving democratic governance and developing trans national political structures that are legitimate and inclusive Regionalism, Security and Development in Africa Ernest Tooichi Aniche, Ikenna Mike Alumona, Innocent

Regional Integration in Africa Peter Anyang' Nyong'o, 1990      **Nation-states and the Challenges of Regional Integration in West Africa** Yomi Akinyeye, 2010 Since their independence African states in particular have felt a need for regional integration in order to solve their development problems Various aspects of Nigeria's experience in regional integration are there examined These include the advocacy of chambers of commerce for common currencies among members of the West African Monetary Zone security implications of defense pacts between some francophone member countries and France and grassroots participation to solve problems concerning borders and borderlands Finally facilitators and obstacles of regional integration are examined      **Regional Integration in Africa** Jaime De Melo, Yvonne M. Tsikata, 2015 Political motives geography and the uneven distribution of gains trumped the traditional efficiency gains across Africa's Regional Economic Communities RECs The small sparsely populated fragmented and often isolated economies across Africa make a compelling case for these economies to integrate regionally to reap efficiency gains exploit economies of scale and reduce the thickness of borders But lack of complementarities among partners and diminishing returns to the exploitation of resources has reduced supply response to market integration oriented regional policies Additionally a very uneven distribution of resources has sharpened the trade off between the benefits of common policies needed to tackle cross border externalities and their costs which are heightened by the sharp differences in policy preferences across members African RECs have pursued the linear model of integration with a stepwise integration of goods labour and capital markets as well as eventual monetary and fiscal integration With the exception of the franc zone the RECs have not yet completed goods markets integration the lack of adjustment funds to address the uneven distribution of benefits across partners contributing to the delay Estimates reported here reveal the shortcomings of the linear model of integration as behind the border measures aiming to reduce trade costs were largely ignored across African RECs until recently While this is probably due to the difficulty in gaining the confidence necessary to get collection action started many behind the border measures could still have been undertaken unilaterally      Pan Africanism, Regional Integration and Development in Africa Samuel Ojo Oloruntoba, 2020-03-10 This edited volume addresses the accomplishments prospects and challenges of regional integration processes on the African continent Since regional integration is a process that ebbs and flows according to a wide range of variables such as changing political and economic conditions implications and factors derived from the vagaries of migration and climate change it is crucial to be cognizant with how these variables impact regional integration initiatives The contributors discuss the debates on Pan Africanism and linking it with ongoing discourses and policies on regional integration in Africa Other aspects of the book contain some of the most important topic issues such as migration border

management and the sustainable development goals This content offers readers fresh and innovative perspectives on various aspects of sustainable development and regional growth in Africa      *Regional Integration and Trade in Africa* Mthuli Ncube,I. Faye,A. Verdier-Chouchane,2014-12-21 This book reviews the current trends and challenges of regional integration and trade in Africa It provides valuable policy recommendations aimed at stimulating the debate among the government private sector and development community on the ways to promote regional trade for Africa s economic development      The Performance of Africa's International Courts James Thuo Gathii,2020-11-26 The performance of international courts has traditionally been judged against criteria of compliance and effectiveness Whilst these are clearly desirable objectives for litigants before Africa s international courts this book shows that we must look beyond these criteria to fully appreciate the impact of these courts This book shows how litigants use their participation in international litigation to achieve other objectives to amplify political disputes with their governments to build their movement to educate the public about their cause and to challenge the status quo Chapters in this collection show how these courts act as coordination points for opposition political parties to name and shame dominant parties for violation of their organizational rights Others demonstrate how Africa s international courts serve as transitional justice mechanisms in which truth telling about ongoing conflict and authoritarian governance receives significant attention This attention serves as a platform to galvanize resistance against continued authoritarian rule especially from outside the conflict countries Ultimately the book shows that these courts must be judged against new and broader criteria and understood as increasingly important venues for waging political social environmental and legal struggles      **The Southern African Development Community Treaty-Nexus** Korwa Gombe Adar,Kebapetse Lotshwao,Thekiso Molokwane,Dorothy Mpabanga,Norbert Musekiwa,2023-03-27 Since its establishment in 1980 the Southern African Development Community SADC has largely been a state driven organization with the people of Southern Africa though enshrined in the treaty remaining observers in the SADC democratization and integration agenda The Southern African Development Community Treaty Nexus National Constitutions Citizen s Sovereignty Communication and Awareness edited by Korwa Gombe Adar Dorothy Mpabanga Kebapetse Lotshwao Thekiso Molokwane and Norbert Musekiwa brings in the people of Southern Africa the key beneficiaries of the integration agenda in the SADC democratization and integration epistemology Using the new concepts of sadcnness and sadcnization this book operationalizes from legal communication and awareness perspectives the nexus of the people of Southern Africa democratization and integration in the SADC region From legal and communications lenses the contributors argue that democratization and integration are about people citizens the sovereigns and not merely the abstract actors called nation states Using the case studies of Angola Botswana Madagascar Mozambique South Africa and Zimbabwe the contributors engage in this epistemology and assess among other things the peoples of Southern Africa the Southern Africa Development Community integration nexus      Advancing Refugee Protection in South Africa Jeff Handmaker, Lee Anne de la Hunt, Jonathan

Klaaren,2008-03-01 Divided into three thematic parts to guide the reader this important volume documents the development and implementation of refugee policy in South Africa over a 10 year period from 1996 until 2006 In doing so it addresses issues of detention gender children and health as well as welfare policies for refugees The contributions all written by academics and practitioners of refugee protection vividly illustrate the tangible shifts and concerns of a process that is not only aimed at establishing policies and legislation but also practices concerning refugees      **The Handbook of the Political Economy of Financial Crises** Martin H. Wolfson,Gerald A. Epstein,2013-02-21 The Great Financial Crisis that began in 2007 2008 reminds us with devastating force that financial instability and crises are endemic to capitalist economies This Handbook describes the theoretical institutional and historical factors that can help us understand the forces that create financial crises      **Prospects for Regional Integration in Africa** Andreas Freytag,Abena D. Oduro, African integration has had a long history dating back to the end of colonization in the 1960s It has generated enormous interest in recent years not least because the continent has recently taken some bold steps to integrate further such as the Tripartite Free Trade Area or the creation of the African Continental Free Trade Area AfCFTA With this book we offer an innovative perspective on African integration By inviting mostly young African scholars from different disciplines in the social sciences and humanities we make African voices audible and start a discussion of the African integration efforts from an African perspective using novel criteria to judge different African integration attempts In addition to the younger generation s representatives we also invited scholars from Europe and Latin America to bring other continents perspectives to the fore
