Reimagining God The Faith Journey Of A Modern Heretic:

Reimagining God Lloyd Geering, 2014-11 Honest To Goodness Martin Prozesky, 2019-03-12 Honest to Goodness proposes a new Christian presence that is free of dogmatism exclusivism and biblicism It charts a way back to the spiritual and ethical revolution begun by Jesus of Nazareth one that can make a vital difference to needless evils such as bigotry environmental destruction poverty and violence The book reveals the author s experience of living under against and after apartheid insisting that a faith that does not confront this world s evils is no faith at all but a dangerous betrayal of all that is good beautiful and true Honest to Goodness unflinchingly identifies the grave moral shortcomings that are embedded in traditional Christian beliefs and practices and proposes ways of transforming them into harmony with the divine goodness that the author discerns everywhere Embracing a world of religious diversity science and creative philosophy the book describes a new way of experiencing and expressing the divine It defends faith by moving beyond both theism and atheism

The Shift Colby Martin, 2020-04-21 When Christians are kicked out of their conservative churches or leave because they no longer feel at home they embark on a journey of freedom and fear love and loneliness empowerment and pain The movement from conservative to progressive Christianity is a serious shift Colby Martin has traversed this treacherous territory survived its hardships and is now turning around to share what he s learned This book is a friendly survival guide to help followers of Jesus navigate the strange and confusing landscape when shifting from conservative to progressive Christianity This book will prepare progressive Christians from long time progressives to those just starting out for the pitfalls awaiting them as they shift out of their conservative world and it will equip them for a more abundant thriving and peace filled spiritual life The Genesis Hypothesis Louis Perry, The Genesis Hypothesis is simple nature created the heavens the earth and man and his gods Many maybe most people may ask What about a god being the creator To seek an answer we will examine both what scientists have uncovered on creation and what religious narratives tell us about creation Scientific discoveries have given insights into the creation of the universe the earth and biological life And from these studies we have learned about the evolution of Homo sapiens s ability to conceive of god narratives that describe the creation of the universe And from the narrative we have learned about creation stories by gods Thus we have two creation stories to consider nature and God Nature s story is based on observations and experiments and religious stories are based on interpretations of supernatural religious narratives written by man As would be expected when comparing the two creation stories based on two different authorities there are conflicts Using the Christian narrative as a reference we can identify the conflicts study and outline possible ways for lessening the conflicts Nature s information on the universe and religious concepts on creation will be around for many years so it is important to learn about each their conflicts and possible ways to live with both *A False Kind of Christianity* Dan Jensen, 2017-06-15 In this work Dan Jensen offers the conservative Evangelical community a no nonsense assessment of the growing and aggressive progressive Christian movement Jensen

provides two chapters of personal testimony a short overview of the history behind the progressive Christian movement a brief summary of the teachings of the movement and then he clearly elucidates the fact that the progressive Christian possesses absolutely no biblical foundation Jensen makes it clear why this movement must be countered by conservative Evangelicals

The Promise and Peril of AI and IA Ted Peters, 2023-12-31 How should public theologians and social ethicists assess anticipate and amend the projected path taken by Artificial Intelligence and Intelligence Amplification With the advent of generative AI along with large language models suddenly our techie whiz kids are sounding the fire alarm Will a Frankenstein monster escape its creator's design Will more highly evolved superintelligence render today's human race extinct Is this generation morally obligated to give birth to a tomorrow in which we outdated humans can no longer participate This book collects foresighted analyses and recommendations from computer scientists neuroscientists AI ethicists along with Christian and Muslim theologians

AI and IA Ted Peters, 2019-09-01 Will advances in AI Artificial Intelligence or IA Intelligence Amplification lead to the extinction of the human race as we know it Or will superintelligence lead to utopia In this collection of thoughtful essays we must first get clear on the question is artificial intelligence actually intelligent or not Only with an affirmative answer could our techies proceed toward their goal the creation of a superintelligence that leads through transhumanism to a posthuman entity that would replace today's human Should today's moderately intelligent human species voluntarily go extinct to make way for a more intelligent species to succeed us in evolutionary history These scientific questions are addressed in this volume in light of their theological ethical and social implications

A Heretic's Guide to Eternity Spencer Burke, Barry Taylor, 2007-06-15 Distinguishing between religion and spirituality Burke offers what he calls a new way of looking at God one centered on the idea of grace He emphasizes a God who is looking to save the world not a God who seems more intent on condemning certain practices For Burke God is to be questioned not simply obeyed His challenging thesis will appeal to many people today who have given up on organized religion but still seek some connection to spirituality

Reimagining God Tamara Hartzell, 2013-03-22 Reimagining God Turning the Light off to Look for Truth in the Corner of a Dark Round Room has been printed as two books Volume 1 consisting of Parts 1 5 and Volume 2 consisting of Part 6 which present an in depth look at the emerging new way of thinking From Christianity to the New Age to science and everything in between the new way of thinking is merging it all into a whole new faith of a whole new God of a whole new humanity and world Everything is changing for a reason Many in today s Christianity are succumbing to the darkness of this new way of thinking Many in today s Christianity are succumbing to the emerging faith of the Antichrist Many in today s Christianity will bow down to the image of the beast and take his mark That s right in today s Christianity Satan s emerging kingdom of his Antichrist is ready to burst forth in all its darkness in global opposition to God s coming Kingdom of His Son Where do you stand This emerging kingdom of darkness will go down in bitter defeat taking far too many souls with it in today s Christianity Is your soul going to be one of them How scriptural is your faith Does your faith come from inside or outside the box of the Word of God The mission is Oneness The path is darkness And the door to it all is Yea hath God said Yea God hath said And it is these words that are being dispensed with that are the only thing that stands between us and the hordes of hell that are on a soul destroying mission The subject presented in this book is as eternally grave and serious as it gets

A Voluptuous God Robert V. Thompson, 2007 Voluptuous may not be a common word associated with God but the author speaks metaphorically of God in a way that calls us to laughter love and joy voluptuousness as full delight and invites us to worship a God of intimacy rather than a God of distance The light yet not trivial tone of this work supports the author s basic premise that we are meant to live our humanity joyfully thankfully and fully from our hearts The book is rooted in the Christian tradition but affirms that truth can also be found in other religions spirituality and secular practices

Taviano,2023-08-24 In unbelieve poems on the journey to becoming a heretic Marla Taviano welcomes you into a deconstruction space where you can let it all out let it all go and start heading in brave new directions **THE SPIRITUAL HERETIC** George Eisan,2023-07-04 This project is about my faith in God through Christ Yswah and how I came to this faith It has been a very long journey to get here Full of struggles pitfalls hurdles and a great deal of frustration To which I still have to this day But that is life wrapped up in a clay vessel We all have these issues How we deal them is determined by our faith in God And by how we decided to follow Yswah The One unique Son of God Do we step out in faith everyday and let Yswah lead us Or do we sit back and let someone else tell us their idea of how we should follow Christ Yswah and live for God If Christ is your Sheppard Why follow someone else **The God I Left Behind** Brian Holley,2020-08-17 Brian Holley offers an excellent contribution to the gradual evolution of Christianity from the restrictions imposed on it by the church tradition He writes with a personal touch starting with his own journey and always relating his theological insights back to his own life experiences This grounds the theology in practice presenting a fresh view of the Oneness of the divine reality we call God and the original goodness in which we are held His chapter on The Teachings of Jesus Revisited is particularly perceptive an insightful summary of the direction Christianity must take to rediscover itself as a wisdom tradition of transformational love I thoroughly recommend it Revd Don MacGregor BSc MA author of Blue Sky God The Evolution of Science and Christianity

The God We Never Knew Marcus J. Borg,1997 The God We Never Knew challenges readers to reclaim a stronger sense of God's presence and nearness by embracing an authentic contemporary faith that reconciles God with science critical thinking and religious pluralism How to Have Faith How to Even Think About God without having to stifle modern rationality is one of the most vital challenges facing many of us today Marcus Borg author of the bestselling Meeting Jesus Again for the First Time traces his spiritual journey to the discovery of an authentic yet fully contemporary understanding of God In a compelling readable way he leads us from the distant authoritative God of our childhood to an equally powerful dynamic adult understanding of God Arguing that the modern crisis of faith is rooted in the misinterpretation of biblical texts and God's true nature Borg offers a fresh yet deeply grounded understanding of God that is more intellectually and spiritually satisfying Writing clearly summarizing some of the best of contemporary theology in non technical language Borg continues to speak to and to challenge the widest possible audiences Publishers Weekly A breath of fresh air a liberating book for Jews

and Christians alike Rabbi Harold Kushner author of *When Bad Things Happen to Good People* Deconstructing God Ian Gurvitz, 2010-06-22 WINNER 2011 NEXT GENERATION INDIE BOOK AWARDS RELIGIOUS NON FICTION *Deconstructing God* makes a case for an understanding of religion that transcends the conventional categories in which one is either a believer an atheist or agnostic by focusing on mysticism as the experiential core of religion The book makes the case that this paradigm we've inherited in western culture has left us stuck in a series of false arguments about the subject of religion Whether there is or isn't a God the religion vs science debate the faith vs reason debate We bat these discussions back and forth under the illusion that we're engaged in a meaningful dialogue about religion when all the while there is a more subtle understanding of the phenomenon in the form of a very human earthly psychological experience that while generally referred to as mystical is really only a mystery in the sense that it has been obscured by our false understanding Per Meister Eckhart God is at home it's we who have gone out for a walk Although I don't agree 100% with Ian Gurvitz's analysis of religion who does on this subject I loved reading this insightful funny and illuminating book And we both think Pat Robertson is a douchebag Bill Maher *The Works of His Hands* Dr. Sy Garte, 2019-11-19 Raised in a militant atheist family Sy Garte fell in love with the factual world of science He became a respected research biochemist with an anti-theistic worldview to bolster his work and he had no intention of seeking a God he didn't believe in That is until the very science he loved led him to question the validity of an atheistic worldview His journey to answer the questions that confronted him drew him into becoming a fully committed Christian determined to show others the truth modern science doesn't contradict God at all but instead supports Christianity In the first half of the book Sy begins with how his experiences and quest for knowledge as a student and early in his career brought him to question his materialist assumptions He goes on to reveal how lessons from physics biology and human nature all presented for lay readers to easily understand actually argue for belief in God In the second half of the book Sy looks at the arguments often presented against God in academic and scientific settings and explains the false foundations on which they rest For those who have been told that the realities of science call for a rejection of God but can't quite get rid of the feeling that this shouldn't be true *The Works of His Hands* is an ideal reminder that the two don't have to be bitter enemies Instead this transformative book shares the beauty of the marriage between science and faith and how together they can bring even the most unlikely to salvation **Heretic Son** Donald A. Weir, 2013-05 Psychologists socialists and theologians have written about the dramatic changes in American culture during the last half of the twentieth century Chaplain Weir lived through those changes Viet Nam Woodstock Rock Roll Montgomery and Dallas Up close and personal Weir relates his own inner struggle to create a new model of Christianity for himself and the Navy men and at last make peace with his own parents
