Breaking the Thread of Life Robert Barry, 2017-07-28 Suicide and how civilized people should respond to it is an increasingly controversial topic in modern society In Holland suicide is the third leading cause of death of people between the ages of fifteen and forty In the United States it is the second leading cause of death among older teenagers Laws prohibiting assisted suicide are being directly and boldly confronted by activists in the United States most notably Jack Kevorkian Meanwhile the American Civil Liberties Union has publicly declared suicide a fundamental human right that should be protected under the Constitution The Hemlock Society has introduced referenda in California Washington and Oregon to legalize suicide and assisted suicide The most vocal opposition to these initiatives has come from the Roman Catholic church *Breaking the Thread of Life* marshalls philosophical moral medical historical and theological arguments in support of the Roman Catholic position against suicide In a comprehensive study of the history of suicide Barry shows that Christian civilization was one of only a few early societies that was able to bring suicide under control He counters claims that Catholicism and the Bible endorse rational suicide Barry also analyzes arguments in support of the rationality of suicide and illuminates their biases inadequacies and dangers Barry presents the rationale for the Roman Catholic church's strong extensive and articulate opposition to efforts to gain legal and social endorsement of suicide and assisted suicide His book represents the most complete study of the classical Roman Catholic view of rational suicide to date and it will be of significant interest to philosophers theologians physicians and lawyers *Curiosities of Literature and the Literary Character Illustrated* Isaac Disraeli, 1853 *Curiosities of Literature, and The Literary Character Illustrated ... Fictions of Containment in the Spanish Female Picaresque Emily Kuffner,2025-10-01 This study examines the interdependence of gender sexuality and space in the early modern period which saw the inception of architecture as a discipline and gave rise to the first custodial institutions for women including convents for reformed

prostitutes Meanwhile conduct manuals established prescriptive mandates for female use of space concentrating especially on the liminal spaces of the home This work traces literary prostitution in the Spanish Mediterranean through the sixteenth and seventeenth centuries from the rise of courtesan culture in several key areas through the shift from tolerance of prostitution toward repression Kuffner s analysis pairs canonical and noncanonical works of fiction with didactic writing architectural treatises and legal mandates tying the literary practice of prostitution to increasing control over female sexuality during the Counter Reformation By tracing erotic negotiations in the female picaresque novel from its origins through later manifestations she demonstrates that even as societal attitudes towards prostitution shifted dramatically a countervailing tendency to view prostitution as an essential part of the social fabric undergirds many representations of literary prostitutes Kuffner s analysis reveals that the semblance of domestic enclosure figures as a primary erotic strategy in female picaresque fiction allowing readers to assess the variety of strategies used by authors to comment on the relationship between unruly female sexuality and social order
