The Clint Eastwood Westerns James L. Neibaur, 2015-03-12 While the western was a staple of cinema for many decades the form began to fade as its greatest star John Wayne made fewer films of distinction toward the end of his career In the mid 1960s the genre was redefined by a handful of directors including Don Siegel and Italian filmmaker Sergio Leone who offered something edgier bloodier and more violent Working with both directors was an actor who had made a name for himself on the small screen in the hit western Rawhide While Clint Eastwood would also star in and direct a number of successes with contemporary settings his work in westerns represents the most significant part of his film career In *The Clint Eastwood Westerns* James L. Climate Trauma E. Ann Kaplan, 2015-12-04 Each month brings new scientific findings that demonstrate the ways in which human activities from resource extraction to carbon emissions are doing unprecedented perhaps irreparable damage to our world As we hear these climate change reports and their predictions for the future of Earth many of us feel a sickening sense of déjà vu as though we have already seen the sad outcome to this story Drawing from recent scholarship that analyzes climate change as a form of slow violence that humans are inflicting on the environment Climate Trauma theorizes that such violence is accompanied by its own psychological condition what its author terms Pretraumatic Stress Disorder Examining a variety of films that imagine a dystopian future renowned media scholar E Ann Kaplan considers how the increasing ubiquity of these works has exacerbated our sense of impending dread But she also explores ways these films might help us productively engage with our anxieties giving us a seemingly prophetic glimpse of the terrifying future selves we might still work to avoid becoming Examining dystopian classics like Soylent Green alongside more recent examples like The Book of Eli Climate Trauma also stretches the limits of the genre to include features such as Blindness The Happening Take Shelter and a number of documentaries on climate change These eclectic texts allow Kaplan to outline the typical blind spots of the genre which rarely depicts climate catastrophe from the vantage point of women or minorities Lucidly synthesizing cutting edge research in media studies psychoanalytic theory and environmental science Climate Trauma provides us with the tools we need to extract something useful from our nightmares of a catastrophic future

Patterns of Bias in Hollywood Movies John W. Cones, 2012 It is pretty broadly recognized that Hollywood movies contain patterns of bias but it is not just people of color or women who are hurt by this Many groups within America's multicultural society have complained over the years about negative and stereotypical portrayals of their own group members in motion pictures produced or released through the Hollywood based studios Yet as an expert on the U S film industry points out such complaints have had little impact on consistent patterns of bias in movies This book takes a broader look at the nature of negative and stereotypical movie portrayals and tracks patterns of such one sided depictions over a longer period time As a result the patterns of bias and the source the problem become more clear The problem appears to be that most of the people who have green light authority in the U S film industry for either the production and or distribution of a motion picture share a common ethnic religious cultural background Thus the stories of their cohort and those of all other ethnic religious and or cultural groups whose members seldom achieve positions of power Hollywood are being filtered through the cultural sensibilities of a single group John Cones suggests that the solution could lie in increasing diversity at the highest levels in the U S film industry This work grew out of the observed frustration of film industry critics who have pointed out examples of bias and stereotyping in specific movies over the years

only to be rebuffed by the simplistic studio arguments that such films reflect the real world and that moviegoers vote with their pocket books It can be shown that there is a consistent pattern to the choices Hollywood studio executives make with respect to the movies produced and released and the specific content of those movies and it becomes obvious that Hollywood is selectively portraying reality Movie goers only have limited options among all of the possibilities that could be portrayed on the silver screen This book differs from other studies touching on bias in motion pictures Most such books focus on the treatment of a single ethnic religious cultural racial or other readily identifiable interest group but this study attempts to provide an overview and to identify patterns over time When the patterns of bias in motion picture content are sufficiently demonstrated and documented it becomes easier to identify the source of the bias and to explain why such bias exists

Scott Poole,2022-10-04 The panoramic story of how the horror genre transformed into one of the most incisive critiques of unchecked American imperial power The American empire emerged from the shadows of World War II As the nation s influence swept the globe with near impunity a host of evil forces followed from racism exploitation and military invasion to killer clowns flying saucers and monsters borne of a fear of the other By viewing American imperial history through the prism of the horror genre Dark Carnivals lays bare how the genre shaped us distracted us and gave form to a violence as American as apple pie A carnival ride that connects the mushroom clouds of 1945 to the beaches of Amity Island Charles Manson to the massacre at My Lai and John Wayne to John Wayne Gacy the new book by acclaimed historian W Scott Poole reveals how horror films and fictions have followed the course of America s military and cultural empire and explores how the shadow of our national sins can take on the form of mass entertainment
