Cahn, 2025-06-19 Philosopher Steven M Cahn the author of numerous works about higher education here offers his most recent thoughts about life in academia Among the issues he discusses are building a professorial career motivating one's students making strong faculty appointments choosing effective administrators and maintaining a commitment to academic ethics His approach is principled and practical his writing clear and concise his illustrations realistic and illuminating The book is at once a mirror of the academic world as it is and a map to what it should be **Diversity and Community in the**

Academy Celia Wolf-Devine,2000-01-01 In the wake of court rulings that have forced university administrators to reevaluate affirmative action policies this balanced thoughtful book examines three typical defenses of those policies that affirmative action compensates for past discrimination that it provides role models and ensures diversity and that it corrects for systemic bias against women and racial minorities Wolf Devine finds that none of these arguments justifies adopting affirmative action across the board and she argues contrary to most opponents of the policy that some circumstances make affirmative action appropriate Analyzing the cultural economic and political contexts in which affirmative action has been debated she suggests ways to get around the current impasse over the issue without abandoning a commitment to social justice The depth and balance of the book are enhanced by an appendix containing articles by noted legal expert George Rutherglen distinguished philosopher James Rachels and independent scholar Richard Rodriguez Israel Yearbook on Human Rights, Volume 48
