Ultimate passive income Markéta Fialová,2024-11-26 Earning a truly passive income is the end goal of the vast majority of internet marketers and you could very easily consider it to be an absolutely ideal situation in terms of finances and business What is passive income Simple it means that you earn money without having to work That doesnt mean you havent worked for it though it just means youve sewed your seeds so that you can profit long into the future In other words you invest some time and money into setting up a business model that is capable of running itself and from then on you reap the benefits You might even continue to work on the business model in your spare time to scale it further or to keep it going but the point is that you dont have to actively trade your time for money any more Once you have a passive business model you can literally continue to earn money while youre sleeping Working online increases your freedom to a great extent

because it allows you to choose how and when you work But if youre providing a service to a client then thats still not true freedom At the end of the day if you take time off you lose money And you can still upset your clients and end up losing your means of income But with passive income you really do get to experience true freedom Now you can choose to take the entire day off or to refrain from working for the next week even and there will be no repercussions 17 Ways to Grow Your Business at Zero Cost!
