Congress. House. Committee on Ways and Means. Subcommittee on Oversight,1980 **Creditocracy** Andrew Ross,2014-02-20 It seems like pretty much everybody homeowners students those who are ill and without health insurance and of course credit card holders is up to their neck in debt that can never be repaid 77% of US households are seriously indebted and one in seven Americans has been pursued by debt collectors The major banks are bigger and more profitable than before the 2008 crash and legislators are all but powerless to bring them to heel In this forceful eye opening survey Andrew Ross contends that we are in the cruel grip of a creditocracy where the finance industry commandeers our elected governments and where the citizenry have to take out loans to meet their basic needs The implications of mass indebtedness for any democracy are profound and history shows that whenever a creditor class becomes as powerful as Wall Street the result has been debt bondage for the bulk of the population Following in the ancient tradition of the jubilee activists have had some success in repudiating the debts of developing countries The time is ripe Ross argues for a debtors movement to use the same kinds of moral and legal arguments to bring relief to household debtors in the North After examining the varieties of lending that have contributed to the crisis Ross suggests ways of lifting the burden of illegitimate debts from our backs Just as important Creditocracy outlines the kind of alternative economy we need to replace a predatory debt money system that only benefits the 1% *Requirements for Recurring Reports to the Congress* ,1982 Describes reports required of executive branch agencies by the Congress on a recurring basis Requirements for Recurring Reports to the Congress United States. General Accounting Office,1977 The Student Loan Scam Alan Collinge,2009 In this in depth exploration and expos of the predatory nature of the student loan industry Collinge argues that student loans have become the most uncompetitive and oppressive type of debt in American history In this clarion call for social action the author offers pragmatic solutions **Oversight on Truth-in-lending Provisions of Student Financial Assistance Technical Amendments Act of 1982** United States. Subcommittee on Oversight,1991 Breaking Point Kevin W. Connell,2016-09-20 In recent decades the crisis of college affordability has emerged as one of the defining challenges of our era Since 1978 college tuition and fees have soared by 1 120 percent growing at three times the rate of housing prices and four times the rate of the increase in the hourly wage The inevitable consequence has resulted in a national student debt that surpassed 1 3 trillion in 2015 crushing the average household under 35 000 in student debt Breaking Point explains flaws in the structure of higher education that have caused college prices to soar over our lifetime including prestige maximization a perpetual amenities war and a predatory lending industry that has not only fostered but encouraged the explosion of college costs To counter this trend Kevin Connell proposes several bold solutions that are intended to induce colleges and lenders alike to redefine the structure price and ultimate purpose of higher education in America *Report of the Secretary of the Treasury on Government Sponsored Enterprises* United States.
