

## How to Write an Autobiography

### **Tips to write an autobiography:**

Like the examples of autobiographies discussed above, any autobiography needs to deal with a few aspects:

**Introduction:** One needs to give an introduction about themselves in the autobiography. This introduction needs to contain basic aspects like name, where you live, when and where were you born, what conditions were you born in, etc.

**You in totality:** This part of the autobiography deals with a general point of view, that you hold about yourself. It also needs to let the reader be able to visualize you in the current day. You need to include your current situations, habits, lifestyle etc.

**Life, in general:** This part of the autobiography deals with your view about life, on a general note. You need to include your understanding of life and its implications. This part is your route to propound your belief. So, make it descriptive.

**View and aims:** Here, you talk about where do you see yourself in the future or what you expect to happen in the future. This part, mostly, should be in compatibility with the previous aspect, else your reader could get confused and lose interest in the book.

**Conclusion:** Like all stories, an autobiography also needs to have an apt conclusion. You can leave a lasting impression on the reader with the help of your conclusion. Remember, you do not need to have a "moral of the story". You can simply end it with hope, if you like.

Always remember, it is your autobiography, not an example of an autobiography, you can write it the way you like. So, experiment and enjoy. As they say, "if you find it interesting while writing it, the reader will find it interesting while reading it". This is where I sign off. Hope to find your autobiography on the stands soon!!

Victorian period as evidenced by the brass band movement and immigrant music teachers in small towns affected fiddling. The contributions of music publishing as well as the surprising importance of ragtime and early jazz also had profound effects. Much of the old time fiddlers' repertory arises not from the inherited reels, jigs and hornpipes from the British Isles nor from the waltzes, schottisches and polkas from the Continent but from the prolific pens of Tin Pan Alley. Marshall also examines regional styles in Missouri fiddling and comments on the future of this time honored and changing tradition. Documentary in nature, this social history draws on various academic disciplines and oral histories recorded in Marshall's forty some years of research and field experience. Historians, music aficionados and lay people interested in Missouri folk heritage as well as fiddlers of course will find *Play Me Something Quick and Devilish* an entertaining and enlightening read. With 39 tunes, the enclosed Voyager Records companion CD includes a historic sampler of Missouri fiddlers and styles from 1955 to 2012. Taking into account the popularity and variety of the genre, this collaborative volume considers a wide range of English Romantic autobiographical writers and modes including working class autobiography, the familiar essay and the staged presence. In the wake of Rousseau's *Confessions*, autobiography became an increasingly popular as well as a literary mode of writing. By the early nineteenth century, this hybrid and metamorphic genre is found everywhere in English letters in prose and poetry by men and women of all classes. As such, it resists attempts to provide a coherent historical account or establish a neat theoretical paradigm. The contributors to *Romantic Autobiography in England* embrace the

challenge focusing not only on major writers such as William Wordsworth De Quincey and Mary Shelley but on more recent additions to the canon such as Mary Robinson Dorothy Wordsworth and Mary Hays There are also essays on the scandalous Memoirs of Mrs Billington and on Joseph Severn s autobiographical scripting of himself as the friend of Keats The result is an exploratory and provisional mapping of the field provocative rather than exhaustive intended to inspire future scholarship and teaching

**Labyrinths of Exemplarity** Irene E. Harvey, 2012-02-01 Labyrinths of Exemplarity presents the first comprehensive in depth study of the problem of exemplarity or how we move between the general and the particular in order to try to understand our world The author s focus ranges from the most basic and fundamental issues of what examples are and where they come from to the complex key issues of how examples function in the discourses they inhabit and what this functioning tells us about the nature of examples or exemplarity itself The problem is treated especially in connection to Rousseau and Aristotle with reference to deconstruction especially Derrida and the range of Western metaphysics Ultimately a new theory of examples is offered one not drawn from the assumptions made by earlier philosophers but rather from the usage and functioning of examples in philosophical discourse
