Name:
School:
Year:
Date of Plan:

Step 1: Self-Assessment

Instructional Strategy	Level/Score	Current Student Behavior/Learning	Changes in Students Behavior/Learning
Identifying Critical Information	1, Beginning	Students do not focus in on critical information being taught in a lesson.	I would like to see my students focus in on the critical information being taught throughout a lesson.

Step 2: Identify Focus Strategies

Instructional Strategy	Baseline Level/Score and Date	Anticipated Midpoint Growth Level/Score and Date	Anticipated Final Growth Level/Score Goal and Date
Identifying Critical Information	Score: 1, Beginning Date: May 2, 2012	Score: 3, Developing Date: January 2013	Score: 4, Applying Date: May 2013

Step 3: Write Measurable Goals

Goal(s)
By the end of the year, I will raise my score on identifying critical information from a 2 to a 4, and I expect to see students describing the level of importance of the information addressed in class, students explaining why the content is important to pay attention to, and students visibly adjusting their level of engagement when critical information is share.

Step 4: Identify Specific Action Steps and Resources

Teacher/Classroom Action Steps	Resources and Professional Development
-Begin the lesson by explaining why upcoming content is important -Tell students to get ready for some important information -Cue the importance of upcoming information by my tone of voice, body position, level of excitement	-<i>Handbook for the Art and Science of Teaching</i> -School-based professional development offerings on Design Question #2

Step 5: Reflection

Goal #1	Reflection	Date
What am I learning about the strategy?	I realized that I was not pointing out the importance of critical information within my lesson at the beginning of the class period. I did not begin with an activator that helped my students focus in on important vocabulary words. Today in my lesson, I started with key vocabulary and I think it allowed students the opportunity to see what words/phrases would be important for their learning.	11/29/2012
How do I need to prepare my lesson?		
When I am using the strategy, what do I feel is working well for me in terms of evidences of improvement in student

Wilhelm, Jackie Miller, Christopher Butts, Adam Fachler, 2020-03-18 Are you ready to plan your best lessons ever With so many demands and so much content available for teachers we need to put a higher value on an often overlooked skill planning learning experiences that will both engage and inspire our students by design over time Planning Powerful Instruction is your go to guide for transforming student outcomes through stellar instructional planning Its seven step framework the EMPOWER model gives you techniques proven to help students develop true insight and understanding You'll have at your fingertips the real reasons why students engage and what you must do to ensure they do a framework to help you create plan and teach the most effective units and lessons in any subject area more than 50 actionable strategies to incorporate right away suggestions for tailoring units for a wide range of learners downloadable ready to go tools for planning and teaching Whether you are a classroom teacher an instructional leader or a pre service teacher Planning Powerful Instruction will forever change the way you think about how you teach and the unique value you bring to your learners *A framework for a green infrastructure planning approach in the Gauteng City-Region* Christina Culwick, Kerry Bobbins, Anton Cartwright, Gregg Oelofse, Myles Mander, Stuart Dunsmore, 2016-09-01 As the population economy and urban built environment in the Gauteng City Region GCR expand government is increasingly under pressure to provide urban infrastructure to support growth It is increasingly important that this infrastructure is sustainable minimising the negative environmental impacts often associated with traditional forms of urban development Green Infrastructure GI is the interconnected set of natural and man made ecological systems green spaces and other landscape features that provide services and strategic functions in the same way as traditional infrastructure In harnessing the benefits of ecosystem services GI has emerged as a more efficient cost effective and sustainable alternative and sometimes accompanying approach to conventional forms of infrastructure Despite international evidence demonstrating how GI can be used as an alternative to or in tandem with traditional infrastructure the GI approach has so far gained only limited traction in the GCR In 2013 the GCRO published the State of Green Infrastructure in the GCR report The report established the principles that underpin GI used available data to map the extent of GI

networks in the region assessed to what extent municipalities were aware of and applying a GI approach and demonstrated a possible way to value GI in local government financial systems The conclusions of the State of Green Infrastructure report were used to guide the next phase of GCRO s research in support of the adoption of GI approach a phase focused on better understanding the opportunities for implementing GI in planning and infrastructure development programmes and on addressing some of the challenges associated with shifts towards this approach A framework for a green infrastructure planning approach in the Gauteng City Region GCRO s fourth Research Report builds on the foundations laid in the State of Green Infrastructure report It assembles expert inputs and reflections from collaborative stakeholder discussions in what was known as the Green Infrastructure CityLab to illustrate important considerations for the development of a GI planning approach in the Gauteng City Region GCR The report is divided into three broad sections Part A introduces the theoretical underpinnings of a GI approach and builds an argument for the importance of incorporating GI into planning and infrastructure development in the GCR Part B presents three pieces written by external experts They consider how GI and ecosystem services can be valued by municipalities and how so called grey green infrastructure design solutions can be implemented in the GCR Part C reflects on the stakeholder engagement process that has been undertaken primarily through the GI CityLab to deepen understanding of how GI can be embedded in municipal practice Based on these research findings this report concludes with a strategy for GCRO s next phase of work in its ongoing Green Assets and Infrastructure Project

A World Scientific Encyclopedia Of Business Storytelling, Set 2: Methodologies And Big Data Analysis Of Business Storytelling (In 5 Volumes) ,2023-10-13 This set of multi reference works is meant to be read together as the five volumes interlace one another like the laces of a shoe in the famous painting by Vincent van Gogh The question of who will wear the shoes is long debated in art history and philosophy If we take these five volumes from different points of view on the theory and practice of business storytelling then we have a crisscrossing a new and impressive dialogue for the reader This set is presented as a new way to lace up the laces of business storytelling Volume 1 aims to help and inspire leaders business owners and researchers in creating a commitment to ethical and sustainable changes and ideas and live in a world of high complexity without getting stressed but experiencing freedom instead The book combines tools case studies and theories about the ethical change management method of True Storytelling and other perspectives and views on ethics and storytelling It delves into important topics such as true storytelling sustainability and freedom storytelling and start ups in the health industry storytelling and diversity and culture storytelling and teams storytelling sustainability and the UN Goals storytelling and well being storytelling in higher education and storytelling and fundraising Book authors are experienced and successful researchers business owners leaders and consultants from Scandinavia the USA Africa and Europe Volume 2 is an endeavor into the creation of new concepts for engaging with sustainability It maintains that storytelling is important for our emplacement in nature and can be important for enacting another relationship between nature and the cultural artifice our social and material constructions of houses cities villages harbors streets and railways and our use of objects and artifacts to construct our lives Business storytelling communication is that space for social symbolic work that brings the symbolic objects of the organization the human and the natural environment into a dialogical relationship Volume 3 posits that organizations are arranged as social symbols that are arranged in institutions based on the needs of organics for example health food shelter mating leisure and labor Organics as a social symbolic object specifically humans have emotions language and culture to organize their institutions and organizations In this book readers will find that many of the authors attempt to understand the body s exclusion or attempt to bring the body back into the organization Business storytelling communication takes aim at the social symbolic work of making space to negotiate the social arrangement of organizations with its organic components Volume 4 covers a variety of methodological topics from a storytelling perspective Why a storytelling perspective Consider that a common business research goal is to convince others that what the researcher has to say matters If the researcher is a basic researcher who wishes to promote a theory the goal is to make a convincing case for the value of that theory If the researcher is an applied researcher who wishes to promote a particular application intervention or policy change the goal is likewise to make a convincing case Either way the researcher has a story to tell and

the onus is on the researcher to tell the best possible story storytelling failures likely will result in a failure to convince others of the value of one's theory or application Here is where methodological issues come into play Poor methodology whether in the form of less than optimal study designs or invalid statistical analyses harms story quality In contrast high quality methods and statistics enhance story quality Moreover the larger one's methodological and statistical toolbox the greater the opportunities for researchers to tell effective stories The chapters in this book come from a wide variety of perspectives and should enhance researchers storytelling in the following ways By opening many different methodological and statistical perspectives researchers should be more able to think of research stories that otherwise would remain unavailable or inaccessible Secondly the present chapters should aid researchers in better executing their research stories Therefore researchers and graduate students will find this book an invaluable resource Volume 5 opens a window into the world of quantum storytelling as an organizational research methodology providing numerous exemplars of work in this storytelling science that has disrupted qualitative inquiry only with the intention of providing expanded improved and generative ways of understanding and knowing the narratives that emerge from qualitative interviews and observations during organizational research studies
