Criminal-Inquisitorial Trials in English Church Trials Henry Ansgar Kelly, 2023-09-22 After inquisitorial procedure was introduced at the Fourth Lateran Council in Rome in 1215 the same year as England's first Magna Carta virtually all court trials initiated by bishops and their subordinates were inquisitions That meant that accusers were no longer needed Rather the judges themselves leveled charges against persons when they were publicly suspected of specific offenses like fornication or witchcraft or simony Secret crimes were off limits including sins of thought like holding a heretical belief Defendants were allowed full defenses if they denied charges These canonical rules were systematically violated by heresy inquisitors in France and elsewhere especially by forcing self incrimination But in England due process was generally honored and the rights of defendants preserved though with notable exceptions In this book Henry Ansgar Kelly a noted forensic historian describes the reception and application of inquisition in England from the thirteenth century onwards and analyzes all levels of trial proceedings both minor and major from accusations of sexual offenses and cheating on tithes to matters of religious dissent He covers the trials of the Knights Templar early in the fourteenth century and the prosecutions of followers of John Wyclif at the end of the century He details how the alleged crimes of criminous clerics were handled and demonstrates that the judicial actions concerning Henry VIII's marriages were inquisitions in which the king himself and his queens were defendants Trials of Alice Kyteler Margery Kempe Eleanor Cobham and Anne Askew are explained as are the unjust trials condemning Bishop Reginald Pecock of error and heresy 1457-59 and Richard Hunne for defending English Bibles 1514 He deals with the trials of Lutheran dissidents at the time of Thomas More's chancellorship and trials of bishops under Edward VI and Queen Mary including those against Stephen Gardiner and Thomas Cranmer Under Queen Elizabeth Kelly shows there was a return to the letter of papal canon law which was not true of the papal curia In his conclusion he responds to the strictures of Sir John Baker against inquisitorial procedure and argues that it compares favorably to the common law trial by jury

The Status of Religion and the Public Benefit in Charity Law Barry W. Bussey, 2020-02-29 The Status of Religion and the Public Benefit in Charity Law is an apologetic for maintaining the presumption of public benefit for the charitable category advancement of religion in democratic countries within the English common law tradition In response to growing academic and political pressure to reform charity law including recurring calls to remove tax exemptions granted to religious charities the scholars in this volume analyse the implications of legislative and legal developments in Canada the UK Australia New Zealand and South Africa In the process they also confront more fundamental sociological or philosophical questions on the very nature and role of religion in a secular society that would deny any space for religious communities outside their houses of worship In other words this book is concerned with the place of religion and religious institutions in contemporary society It represents a series of concerns about the proper role of the state in relation to the differing beliefs of citizens some of

which will quite rightly manifest in actions to benefit the wider society This debate then naturally engages with broader issues related to secularism civic engagement and liberal democratic freedoms Official Gazette of the United States

Proceedings Of The Pacific Symposium Russ B Altman, A Keith Dunker, Lawrence Hunter, Marylyn D Ritchie, Tiffany A

Murray, Teri E Klein, 2020-11-24 The Pacific Symposium on Biocomputing PSB 2021 is an international multidisciplinary conference for the presentation and discussion of current research in the theory and application of computational methods in problems of biological significance. Presentations are rigorously peer reviewed and are published in an archival proceedings volume. PSB 2021 will be held on a virtual platform at psb.stanford.edu on January 5-7, 2021. Tutorials and workshops will be offered prior to the start of the conference. PSB 2021 will bring together top researchers from the US, the Asian Pacific nations, and around the world to exchange research results and address open issues in all aspects of computational biology. It is a forum for the presentation of work in databases, algorithms, interfaces, visualization, modeling, and other computational methods as applied to biological problems, with emphasis on applications in data-rich areas of molecular biology. The PSB has been designed to be responsive to the need for critical mass in sub-disciplines within biocomputing. For that reason, it is the only meeting whose sessions are defined dynamically each year in response to specific proposals. PSB sessions are organized by leaders of research in biocomputing's hot topics. In this way, the meeting provides an early forum for serious examination of emerging methods and approaches in this rapidly changing field.

Classification Methods for Remotely Sensed Data

Paul Mather, Brandt Tso, 2016-04-19 Since the publishing of the first edition of Classification Methods for Remotely Sensed Data in 2001, the field of pattern recognition has expanded in many new directions that make use of new technologies to capture data and more powerful computers to mine and process it. What seemed visionary but a decade ago is now being put to use and refined in.

Double Threat Ellin Bessner, 2019-01-24 He died so Jewry should suffer no more. These words on a Canadian Jewish soldier's tombstone in Normandy inspired the author to explore the role of Canadian Jews in the war effort. As PM Mackenzie King wrote in 1947, Jewish servicemen faced a double threat: they were not only fighting against Fascism but for Jewish survival. At the same time, they encountered widespread antisemitism and the danger of being identified as Jews if captured. Bessner conducted hundreds of interviews and extensive archival research to paint a complex picture of the 17,000 Canadian Jews, about 10 per cent of the Jewish population in wartime Canada, who chose to enlist, including future Cabinet minister Barney Danson, future game show host Monty Hall, and comedians Wayne and Shuster. Added to this fascinating account are Jews who were among the so-called "Zombies": Canadians who were drafted but chose to serve at home. The various perspectives of the Jewish community and the participation of Canadian Jewish women.
