Examining the Impact of Trauma Bradley D. Grammer,2016-06-16

Through twenty five years of walking alongside those in conflict with their sexuality Brad has come to understand what is at the heart of same sex attraction trauma Little is understood about the concept of trauma and only recently has the method of trauma informed care come to the forefront of helping others People often react negatively to the concept of trauma being at the heart of any kind of gender identity or sexual confusion Christians also struggle to understand and provide loving help to those who have sought to overcome attractions they do not desire Believers need to be equipped with a deeper understanding of the foundations of same sex attraction whether they face these desires themselves or have loved ones for whom they care An integral part of helping those with same sex attraction is learning what we all have in common in experiences with trauma and our reactions to it Brad draws from his own story as well as his ministry experience to add to the discussion in hopes of filling in the gaps that remain unfilled on the issue of same sex attraction Journal of Health, Physical Education, Recreation ,1969 **Children's Books in Print, 2007** ,2006 Research and Development in Progress U.S. Atomic Energy Commission.
