**The Little Prince** Antoine Saint-Exupéry, 2017-08-31 The narrator an airplane pilot crashes in the Sahara desert The crash badly damages his airplane and leaves the narrator with very little food or water As he is worrying over his predicament he is approached by the little prince a very serious little blond boy who asks the narrator to draw him a sheep The narrator obliges and the two become friends The pilot learns that the little prince comes from a small planet that the little prince calls Asteroid 325 but that people on Earth call Asteroid B 612 The little prince took great care of this planet preventing any bad seeds from growing and making sure it was never overrun by baobab trees One day a mysterious rose sprouted on the planet and the little prince fell in love with it But when he caught the rose in a lie one day he decided that he could not trust her anymore He grew lonely and decided to leave Despite a last minute reconciliation with the rose the prince set out to explore other planets and cure his loneliness

**The Little Prince** Antoine Saint-Exupéry, 2016-10-14 The Little Prince recounts the relationship between an adult and a child The adult is an aviator who has crash landed in the Sahara desert The child is a golden haired prince who has arrived on Earth after taking a circuitous route from his home on a distant asteroid The prince's tales of sheep and baobab trees and roses and the inhabitants of miniscule planets reveal many truths about the absurdness of the adult world Caroline Gourmand's beautiful new illustrations enhance a text which oscillates between narrative and dialogue and between the language of an adult and the language of a child It is truly unfortunate that we can never know how Antoine de Saint Exupéry would have wanted his book to be interpreted but he has graciously bequeathed us with the simplest of means to reflect on life love and mortality For children aged 8 and upwards

whose plane is forced down in the Sahara Desert encounters a little prince from a small planet who relates his adventures in seeking the secret of what is important in life

**On Comitatives and Related Categories** Thomas Stolz, Cornelia Stroh, Aina Urdze, 2008-08-22 This is the first book length functional typologically inspired crosslinguistic study of comitatives and related categories such as the instrumental On the basis of data drawn from 400 languages world wide covering all major phyla and areas the authors test and revise a variety of general linguistic hypotheses about the grammar and cognitive foundations of comitatives Three types of languages are identified according to the morphological treatment of the comitative and its syncretistic association with other concepts It is shown that the structural behaviour of comitatives is areally biased and that the languages of Europe tend to diverge from the majority of the world's languages This has important repercussions for a language independent definition of the comitative The supposed conceptual closeness of comitative and instrumental is discussed in some detail and a semantic map of the comitative is put forward Markedness is the crucial concept for the evaluation of the relation that ties comitatives and instrumentals to each other In a separate chapter the diachrony of comitatives is looked into from the perspective of grammaticalisation research Throughout the book the argumentation is richly documented by empirical data The book contains three case studies of the comitative in Icelandic Latvian and Maltese each of which represents one of the three language types identified earlier in the text For the purpose of comparing the languages of Europe a chapter is devoted to the analysis of a large parallel literary corpus covering 64 languages which reveals that the parameters of genetic affiliation areal location and typological classification interact in intricate ways when it comes to predicting whether or not two languages of the sample behave similarly as to the use to which they put their comitative morphemes With a view to determining the degree of similarity between the languages of the European sub sample methods of quantitative typology are employed General linguists with an interest in case functional typologists grammaticalisation researchers and experts of markedness issues will value this book as an important contribution to their respective fields of interest We regret that due to a PDF problem the figure on page 111 is partly shown in black Please find the correct table here

**Le petit prince** Antoine de Saint-Exupéry, 1946 J'ai ainsi vu seul sans personne avec qui parler véritablement jusqu'une panne dans le désert du Sahara il y a six ans Quelque chose se tait cassé dans mon moteur Et comme je n'avais avec moi ni mécanicien ni passagers je me préparai à essayer de résister tout seul une réparation difficile C'était pour moi une question de vie ou de mort J'avais peine de l'eau boire pour huit jours Le premier soir je me suis donc endormi sur le sable mille milles de toute terre habitée J'étais bien plus isolé qu'un naufragé sur un radeau au milieu de l'océan Alors vous imaginez ma surprise au lever du jour quand une drôle de petite voix m'a réveillé Elle disait Si tu veux je te dessine un mouton
