**Reading the Animal Text in the Landscape of the Damned** Les

Mitchell, 2019-10-22 Reading the animal text in the landscape of the damned looks at the diverse texts of our everyday world relating to nonhuman animals and examines the meanings we imbibe from them It describes ways in which we can explore such artefacts especially from the perspective of groups and individuals with little or no power This work understands the

oppression of nonhuman animals as being part of a spectrum incorporating sexism racism xenophobia economic exploitation and other forms of oppression The enquiry includes physical landscapes the law womens rights history slavery language use economic coercion farming animal experimentation and much more Reading the animal text in the landscape of the damned is an academic work but is accessible theoretically based but robustly practical and it encourages the reader to take this enquiry further for both themselves and for others

**Moral Authority in Seamus Heaney and Geoffrey Hill** Bridget Vincent, 2022-02-17 How do poems communicate moral ideas Can they express concepts in ways that are unique and impossible to replicate in other forms of writing This book explores these questions by turning to two of the late twentieth century s most important poets Seamus Heaney and Geoffrey Hill Their work shows that a poem can act as an example of a moral concept rather than simply a description or discussion of it Exploring these two poets via their shared preoccupation with poetry s moral exemplarity opens up new perspectives on their work The concept of exemplarity is shown to play an important role in these poets most significant preoccupations from moral complicity to the nature of lyric speech to literary influence to memorialisation responsibility and aesthetic autonomy Through this new analysis of poetry critical prose drama and archival materials this book offers a major new study of ethics in the later period of these two writers including recent underexplored posthumous works In turn the book also makes an important intervention in larger debates about literature and morality and about the field of ethical criticism itself this is the first book length study to expand ethical criticism beyond its customary narrative focus The ethical criticism of fiction is often an exercise in methodological advocacy urging the use of more literary examples in moral philosophy As this book shows including poetry among these examples introduces new lyric inflected caveats about the use of literature as a form of moral example caveats which remain invisible in narrative centred ethical criticism
