Patrick Minford, Sakshi Gupta, Vo Phuong Mai Le, Vidya Mahambare, Yongdeng Xu, 2015-12-18 Placed in the context of the upcoming referendum this

second edition brings up to date a thorough review of all economic aspects of the UK's membership of the EU. It notes the intention of the EU to move to ever closer union and the nature of the regulatory and general economic philosophy of its dominant members whose position is enforced by qualified majority voting. The book highlights the UK's dilemma that while extending free markets to its local region is attractive, this European philosophy and closer union are substantially at odds with the UK's traditions of free markets and freedom under the common law. This comprehensive examination of the economic costs and benefits of membership uses state of the art modeling methods and includes estimates of its net costs as a percentage of GDP. The book explains how the decision to leave would follow from a judgement on the political economy of the EU as compared with that of the UK. It details the misconceptions involved in much of the debate about trade with the EU and argues that the key issue is not access to markets but rather the prices at which trade takes place. Covered in careful detail is the economics of the UK's trade with the EU in the key sectors of agriculture, manufacturing and services.

Frontiers of Gender Equality Rebecca J. Cook, 2023-05-30 In *Frontiers of Gender Equality* editor Rebecca Cook enlarges the chorus of voices to introduce new and different discourses about the wrongs of gender discrimination and to explain the multiple dimensions of gender equality. This volume demonstrates that the wrongs of discrimination can best be understood from the perspective of the discriminated and that gender discrimination persists and grows in new and different contexts, widening the gap between the principle of gender equality and its realization, particularly for subgroups of women and LGBTQ peoples. *Frontiers of Gender Equality* provides retrospective views of the struggles to eliminate gender discrimination in national courts and international human rights treaties. Focusing on gender equality enables comparisons and contrasts among these regimes to better understand how they reinforce gender equality norms. Different regional and international treaties are examined: those in the forefront of advancing gender equality, those that are promising but little known, and those whose focus includes economic, social and cultural rights to explore why some struggles were successful and others less so. The book illustrates how gender discrimination continues to be normalized and camouflaged and how it intersects with other axes of subordination such as indigeneity, religion and poverty to create new forms of intersectional discrimination. With the benefit of hindsight, the book's contributors reconstruct gender equalities in concrete situations. Given the increasingly porous exchanges between domestic and international law, various national, regional and international decisions and texts are examined to determine how better to breathe life into equality from the perspectives of, for instance, Indigenous and Muslim women, those who were violated sexually and physically, and those needing access to necessary health care including abortion. The conclusion suggests areas of future research including how to translate the concept of intersectionality into normative and institutional settings which will assist in promoting the goals of gender equality.
