Team Sports Marketing Kirk L. Wakefield, 2007 Some might argue that sports marketing is a mere subfield of marketing meaning that there are theoretical and practical dimensions that apply only to sports marketing and are only of interest to those involved in sports In Team Sports Marketing author Kirk Wakefield dispels this argument by demonstrating that effective sports marketing epitomizes the science and art of marketing across any context At the core of sports marketing is the creation and enhancement of fan identification where consumers are not just loyal customers but have become brand fanatics Team Sports Marketing shows that while many aspects of sports marketing are thought to be unique to the field other product and service sectors would do well to learn from teams in the NFL NBA MLB and NHL that have transformed customers into fans Moving beyond principles of marketing Team Sports Marketing is packed with examples of best practices and covering subjects as diverse as sponsorships season ticket sales venue management and all topics in between Team Sports Marketing is a must read text for students and managers in professional and collegiate sports Support materials for professors and students are available at

Relationship Marketing in Sports Andre Buhler, Gerd Nufer, 2012-07-26 Relationship marketing is an important issue in every business. Knowing the customers and establishing, maintaining and enhancing long term customer relationships is a key component of long term business success. Considering that sport is such a big business today it is surprising that this crucial approach to marketing has yet to be fully recognised either in literature or in the sports business itself. *Relationship Marketing in Sports* aims to fill this void by discussing and reformulating the principles of relationship marketing and by demonstrating how relationship marketing can be successfully applied in practice within a sports context. Written by a unique author team of academic and practitioner experience the book provides the reader with the first book to apply the principles of relationship marketing specifically to a sports context. Case studies from around the world to provide a uniquely global approach. Applicable worldwide. Strong pedagogical features including learning outcomes, overviews, discussion questions, glossary, guided reading and web links. Practical advice for professional, semi-professional and non-professional sporting organisations. A companion website providing web links, case studies and PowerPoint slides for lecturers. *Relationship Marketing in Sports* is crucial reading for both students and professionals alike and marks a turning point in the marketing of sports.
