Democratic Reform in Africa Connie Park Rice, Marie Tedesco, 2015-03-15 Scholars of southern Appalachia have largely focused their research on men particularly white men While there have been a few important studies of Appalachian women no one book has offered a broad overview across time and place With this collection editors Connie Park Rice and Marie Tedesco redress this imbalance telling the stories of these women and calling attention to the varied backgrounds of those who call the mountains home The essays of Women of the Mountain South debunk the entrenched stereotype of Appalachian women as poor and

white and shine a long overdue spotlight on women too often neglected in the history of the region Each author focuses on a particular individual or group but together they illustrate the diversity of women who live in the region and the depth of their life experiences The Mountain South has been home to Native American African American Latina and white women both rich and poor Civil rights and gay rights advocates environmental and labor activists prostitutes and coal miners all have lived in the place called the Mountain South and enriched its history and culture **Queens of Academe** Karen W. Universities are unlikely venues for grading bodies beauty poise and style Nonetheless thousands of college women have sought not only college diplomas but campus beauty titles and tiaras throughout the twentieth century and the cultural power of beauty pageants continues into the twenty first In *Queens of Academe* Karen W Tice asks how and why does higher education remain in the beauty and body business and with what effects on student bodies and identities Drawing on archival research and interviews as well as hundreds of hours observing college pageants on predominantly black and white campuses Tice argues the pageants help to illuminate the shifting iterations of class race religion culture sexuality and gender braided into campus rituals and student life Moving beyond a binary of objectification versus empowerment Tice offers a nuanced analysis of the making of idealized collegiate masculinities and femininities and the stylization of higher education itself
