At some point in your study of psychology, you may be required to write a case study. These are often used in clinical cases or in situations when lab research is not possible or practical. In undergraduate courses, these are often based on a real individual, an imagined individual, or a character from a television show, film, or book.

The specific format for a case study can vary greatly. In some instances, your case study will focus solely on the individual of interest. Other possible requirements include citing relevant research and background information on a particular topic. Always consult with your instructor for a detailed outline of your assignment.

What Is a Case Study?

A Writer's Reference with Writing in the Disciplines Diana Hacker, Nancy Sommers, 2011-04-08 With Writing in the Disciplines Cover

Handbook of Psychology: Educational psychology Irving B. Weiner, Donald K. Freedheim, 2003 Includes established theories and cutting edge developments Presents the work of an international group of experts Presents the nature origin implications an future course of major unresolved issues in the area

A Handbook of Research Methods for Clinical and Health Psychology Jeremy Miles, Paul Gilbert, 2005 Though psychology as a discipline has grown enormously in popularity in recent years compulsory courses in research methods and statistics are seldom embarked upon with any great enthusiasm within the undergraduate and postgraduate communities Many postgraduate and PhD students start their research ill equipped to design effective experiments and to properly analyse their results This lack of knowledge also limits their ability to critically assess and evaluate research done by others This book is a practical guide to carrying out research in health psychology and clinical psychology It bridges the gap between undergraduate and postgraduate study As well as describing the various techniques and methods available to students it provides them with a proper understanding of what a specific technique does going beyond the introductory descriptions typical of most undergraduate methods books The book describes both quantitative and qualitative approaches to data collection providing valuable advice on methods ranging from psychometric testing to discourse analysis For both undergraduate and postgraduate students the book will be essential in making them aware of the full range of techniques available helping them to design scientifically rigorous experiments and effectively analyse their results

Resources in Education, 2001-04 Research in Education, 1974 **Handbook of Psychology, Research Methods in Psychology** Irving B. Weiner, John A. Schinka, Wayne F. Velicer, 2012-10-23 Psychology is of interest to academics from many fields as well as to the thousands of academic and clinical psychologists and general public who can't help but be interested in learning more about why humans think and behave as they do This award winning twelve volume reference covers every aspect of the

ever fascinating discipline of psychology and represents the most current knowledge in the field This ten year revision now covers discoveries based in neuroscience clinical psychology s new interest in evidence based practice and mindfulness and new findings in social developmental and forensic psychology **Quarterly Review of Distance Education** Michael Simonson, Anymir Orellana, 2021-12-01 The Quarterly Review of Distance Education is a rigorously refereed journal publishing articles research briefs reviews and editorials dealing with the theories research and practices of distance education The Quarterly Review publishes articles that utilize various methodologies that permit generalizable results which help guide the practice of the field of distance education in the public and private sectors The Quarterly Review publishes full length manuscripts as well as research briefs editorials reviews of programs and scholarly works and columns The Quarterly Review defines distance education as institutionally based formal education in which the learning group is separated and interactive technologies are used to unite the learning group **Making the Case** Heidi Grasswick, Nancy Arden

McHugh, 2021-04-01 Making the Case brings together established and emerging philosophers who use case studies to address a variety of contemporary social justice causes The contributors show both the depth and breadth of work in this area and highlight the distinctive approaches that feminist and critical race theorists in particular have pursued For these theorists the choice of the kinds of cases analyzed matters not only pushing philosophy as a field to foreground the challenges facing marginalized groups but also affecting the kind of philosophy that results This ensures that their theories do not reproduce the conceptual frameworks of dominant groups By using thickly described cases as opposed to the thinly described or hypothetical situations that have been the historic mainstay of philosophy the contributors strive to create philosophy that never strays too far from the complexities of people s lives on the ground The book provides philosophers with a host of methodologies theories and practical examples for use in social justice case work with topics ranging from census design and gender bias in science to incarceration and the spate of recent police killings of black men and women

XXX International Congress of Psychology: Abstracts Michele Robert, 2017-10-03 The abstracts of the XXX International Congress of Psychology July 2012 Cape Town are published as a supplement to Volume 47 of the International Journal of Psychology The published volume includes the abstracts of the invited addresses symposia oral and poster presentations numbering over 5 000 separate contributions and creating an invaluable overview of the discipline of psychological science around the world today

web this book offers help in making changes and in getting people to notice them changing is hard work one part of that
 work is the change itself you must decide to change and then make the change happen that in itself is a big accomplishment
 but what if you re doing all that work and making significant changes and no one notices
