Cory Doctorow's article on *BoingBoing* is an older review of the iPad, one of Apple's most famous products. The purpose of the article is to convince consumers that the iPad is not a worthwhile thing to buy because it has very limited uses outside of the set content, as well as technological problems and the potential to quickly become obsolete. Cory Doctorow wrote this article stating his negative opinion of the iPad in the wake of enormous media hype over the iPad's release. Apple has proclaimed the iPad as a technological revolution, but Doctorow disagrees. He made
