The Future of Policing Jennifer M. Brown,2013-10-08 The police service in England and Wales is facing

major challenges in its financing political oversight and reorganisation of its structures Current economic conditions have created a wholly new environment whereby cost saving is permitting hitherto unthinkable changes in the style and means of delivery of policing services In the context of these proposed changes Lord Stevens formerly Commissioner of the Metropolitan Police Service was asked to chair an Independent Commission looking into the future of policing The Commission has a wide ranging remit and the papers in this book offer up to date analysis of contemporary problems from the novel perspective of developing a reform agenda to assist the Commission Bringing together contributions from both key academic thinkers and police professionals this book discusses new policing paradigms lays out a case for an evidence based practice approach and draws attention to developing areas such as terrorism public order and hate crime Policing is too important to be left to politicians as the health of a democracy may be judged by the relationship between the police and the public The aim of this book is to question and present analyses of problems offer new ideas and propose realistically achievable solutions without being so timid as to preserve the status quo It will be of interest to both academics and students in the fields of criminology and policing studies as well as professionals in the policing service NGOs and local authority organisations

The Evolution of Policing Melchor C. de Guzman, Aideo Mintie Das, Dilip K. Das, 2013-11-25 Drawn from recent proceedings of the International Police Executive Symposium IPES this volume explores major policing initiatives and evolutions across the globe and presents practical insights on how police are retooling their profession The book discusses the trends in evolving police roles among democratic and democratizing states the impact of community oriented policing innovations occurring in police training and management and issues relating to ethics technology investigations and handling public relations The book also examines challenges to police practices such as terrorism decentralization and the policing of indigenous and special population groups

Innovative Possibilities: Global Policing Research and Practice Les Johnston, Clifford Shearing, 2013-12-16 *Innovative Possibilities Global Policing Research and Practice* brings together observations that reflect upon the state of police and policing across the globe and associated forms of policing scholarship with inputs from Africa Australia South and Central America China Europe and the USA Following the introduction the book begins with a review of the nature of the relationship between policing research and practice with the Victoria Police in Australia and moves on to Britain where the focus is on how the National Improvement Strategy for Policing NISP is developing and how research is being used to design define monitor and develop its strategic interventions using a series of case studies In the United States the complex American terrain of the police is examined in particular this chapter examines how crime statistics are used to rationalize justify and account for their actions In Latin America a comprehensive review of research on police reform in Latin America during the last two decades is given Africa provides a complex and diverse social terrain which needs to be understood in relation to its plural policing landscape Police scholarship in China looks at the historical development and current status of police scholarship in China together with the emerging issues arising from it

The overarching concern of all these reflections is with bridging the deep seated tensions that exist between scholarship and practice within policing across the globe and the call for a new relationship of mutual respect that is committed to exploring better ways of governing security This book was published as a special issue of Police Practice and Research **Police Responses to People with Mental Illnesses** Duncan Chappell,2014-07-16 According to the World Health Organisation during their lifetime more than one quarter of all individuals will develop one or more mental or behavioural disorders Given prevalence data like this it is not surprising that wherever they reside on the planet many persons suffering from a mental disorder or as is more commonly termed in popular parlance a mental illness are likely to come into contact with police at some stage in their lives Indeed research conducted in a number of countries suggests that about 10 per cent of all community police work involves some form of interaction with a person with a mental illness From a police perspective these encounters are not only frequent but also often sensitive and challenging Despite the difficulties associated with this important aspect of community policing surprisingly scant attention has been given to the development of empirically tested and established best practice approaches to managing police interactions with persons with mental illnesses The literature that does exist is principally derived from North American sources although more recent and interesting developments have been reported in Australia and the United Kingdom The principal aim of Police Responses to People with Mental Illnesses is to seek to reduce this gap in the literature by providing an international overview of some of the latest research and policy developments in the field and the challenges still to be confronted in many places in overcoming cultural and associated barriers to protecting the rights of the mentally ill This book was originally published as a special issue of Police Practice and Research An International Journal **Policing Organized Crime** Petter Gottschalk,2009-08-26 When criminal activity is as straightforward as a child's game of cops and robbers the role of the police is obvious but today's bad guys don't always wear black In fact the most difficult criminals to cope with are those who straddle the gray divide between licit and illicit activity Many of these nefarious sorts operate on the fringe of society *Community Policing and Peacekeeping* Peter Grabosky,2009-06-25 In modern industrial societies the demand for policing services frequently exceeds the current and foreseeable availability of public policing resources Conversely developing nations often suffer from an inability to provide a basic level of security for their citizens Community Policing and Peacekeeping offers a fresh overview of the challenge

The New Khaki Arvind Verma,2010-12-14 In a democratic society police are expected to be accountable to the people they serve upholding the rights of citizens and following due process In India however political pressure in the competitive electoral arena forces the police to adopt questionable means and dubious strategies As a hierarchical bureaucratic organization disciplined in a military tradition and schooled in colonial traditions of deference to authority figures India's police personnel have effectively alienated the very people they are supposed to serve and protect In response to the overwhelmingly bleak pessimism of researchers and analysts scrutinizing India's police force The New Khaki The Evolving

Nature of Policing in India highlights those unobtrusive and indirect paths toward effective transformation in spite of politicians and bureaucrats Analyzing the obstacles to reform the book argues forcefully and systematically to present areas of potential innovation and successful case studies Focusing on practical and actionable options the book examines how the use of new technology the judiciary and other creative administrative mechanisms can give determined police leaders the methods to change the policing system and its practices It also provides strong evidence for the role of research and scholarship in transforming the police organization offering illustrative examples and creative responses to endemic problems The case studies presented here suggest that even when the powerful sections of society and those who control the police are not ready to bring changes imaginative police leadership can find creative means to transform their organization to serve the people The New Khaki The Evolving Nature of Policing in India is a must read for all those who are concerned about policing and interested in its improvement for a better world

Developing and Maintaining Police-Researcher Partnerships to Facilitate Research Use Jeff Rojek, Peter Martin, Geoffrey P. Alpert, 2014-09-15 This Brief discusses methods to develop and maintain police researcher partnerships First the authors provide information that will be useful to police managers and researchers who are interested in creating and maintaining partnerships to conduct research work together to improve policing and help others understand the linkages between the two groups Then more specifically they describe how police managers consider and utilize research in policing and criminal justice and its findings from a management perspective in both the United States and Australia While both countries experience similar issues of trust acceptance utility and accountability between researchers and practitioners the experiences in the countries differ In the United States with 17 000 agencies the use of research findings by police agencies requires understanding diffusion and acceptance In Australia with a small number of larger agencies the problems of research practitioner partnerships have different translational issues including acceptance and application As long as police practitioners and academic researchers hold distinct and different impressions of each other the likelihood of positive cooperative and sustainable agreements between them will suffer *Police Without Borders* Cliff Roberson, Dilip K.
