Population and Ecology

What are the factors that influence the growth of a population? How do these factors interact to determine the population's growth rate? (10 marks)

10/10 (100%) (1 mark)

1. The **population dynamics** of a species is the study of how the population of that species changes over time. This includes factors such as birth rate, death rate, immigration, and emigration. The population dynamics of a species are influenced by a variety of factors, including environmental factors, genetic factors, and human factors. The population dynamics of a species can be studied using a variety of methods, including field studies, laboratory studies, and mathematical models.

2. The **population dynamics** of a species is the study of how the population of that species changes over time.

Population Dynamics and Laboratory Ecology Robert Desharnais, 2005-08-04 Population Dynamics and Laboratory Ecology highlights the contributions laboratory studies are making to our understanding of the dynamics of ecological and evolutionary systems Chapters address the scientific rationale for laboratory ecology its historical role within the broader discipline and recent advances in research The book presents results from a wide range of laboratory systems including insects mites plankton protists and microbes A common theme throughout the book is the value of microcosm studies in advancing our knowledge of ecological and evolutionary principles Each chapter is authored by scientists who are leading experts in their fields The book addresses fundamental questions that are of interest to biologists whether they work in the laboratory or field or whether they are primarily empiricists or theorists Details a scientific rationale for laboratory systems in ecological and evolutionary studies Offers a view on historical role of laboratory studies Includes examples of recent research advances in ecology and evolution using laboratory systems ranging from insects to microbes Integrates mathematics statistics and experimental studies Statistical Computation for Environmental Sciences in R James S. Clark, 2007-06-03 The environmental sciences are undergoing a revolution in the use of models and data Facing ecological data sets of unprecedented size and complexity environmental scientists are struggling to understand and exploit powerful new statistical tools for making sense of ecological processes In Models for Ecological Data James Clark introduces ecologists to these modern methods in modeling and computation Assuming only basic courses in calculus and statistics the text introduces readers to basic maximum likelihood and then works up to more advanced topics in Bayesian modeling and computation Clark covers both classical statistical approaches and powerful new computational tools and describes how complexity can motivate a shift from classical to Bayesian methods Through an available lab manual the book introduces readers to the practical work of data modeling and computation in the language R Based on a successful course at Duke University and National Science Foundation funded institutes on hierarchical modeling Models for Ecological Data will enable ecologists and other environmental scientists to develop useful models that make sense of ecological data Consistent treatment from classical to modern Bayes Underlying distribution theory to algorithm development Many examples and applications Does not assume statistical background Extensive supporting appendixes Accompanying lab manual in R AP Biology Premium, 2024: Comprehensive Review With 5 Practice Tests + an Online Timed Test Option Mary Wuerth, 2023-07-04 Always study with the most up to date prep Look for AP Biology Premium 2025 Prep Book with 6 Practice Tests Comprehensive Review Online Practice ISBN 9781506291673 on sale July 2 2024 Publisher's Note Products purchased from third party sellers are not guaranteed by the publisher for quality authenticity or access to any online entities included with the product *Computer Simulation Model for the Colorado Potato Beetle (Leptinotarsa Decemlineata) Population Dynamics* Mingyan Cheng, 1990 **AP Biology Premium, 2022-2023: Comprehensive Review with 5 Practice Tests +**
