Intimate Friends Martha Vicinus,2004-06-30 The book gives an overview of lesbian love over a period of 150 years Drawing upon diaries letters and other archival sources the author gives biographical information on well known and historically less recognised women Semiotics of Exile in Contemporary Chinese Film H. Zeng,2012-09-25 Drawing on a variety of film semiotic theories this book sheds light on works by mainland Chinese directors Hong Kong New Wave directors Taiwan New Cinema directors and overseas Chinese directors Zeng examines the cultural historical implications of exile through the detailed analysis of film language and theoretical exploration Living in the Future Susan Nakley,2017-08-24 Nationalism like medieval romance literature recasts history as a mythologized and seamless image of reality Living in the Future analyzes how the anachronistic nationalist fantasies in Geoffrey Chaucer s Canterbury Tales create a false sense of England s historical continuity that in turn legitimized contemporary political ambitions This book spells out the legacy of the Tales that still resonates throughout English literature exploring the idea of England in the

medieval literary imagination as well as critiquing more recent centuries conceptions of Chaucer's nationalism Chaucer uses two extant national ideals sovereignty and domesticity to introduce the concept of an English nation into the contemporary popular imagination and reinvent an idealized England as a hallowed homeland For nationalist thinkers sovereignty governs communities with linguistic historical cultural and religious affinities Chaucerian sovereignty appears primarily in romantic and household contexts that function as microcosms of the nation reflecting a pseudo familial love between sovereign and subjects and relying on a sense of shared ownership and judgment This notion also has deep affinities with popular and political theories flourishing throughout Europe Chaucer's internationalism matched with his artistic use of the vernacular and skillful distortions of both time and space frames a discrete sovereign English nation within its diverse interconnected world As it opens up significant new points of resonance between postcolonial theories and medieval ideas of nationhood *Living in the Future* marks an important contribution to medieval literary studies It will be essential for scholars of Middle English literature literary history literary political and postcolonial theory and literary transnationalism [How to Reclaim Your Rebellious Teenager](#) James S. Kingsley, 1996 **The American Encyclopædic Dictionary** S. J. Herrtage, John A. Williams, Robert Hunter, 1897 *Sex and Death in Eighteenth-Century Literature* Jolene Zigarovich, 2013-05-02 This book discusses sex and death in the eighteenth century an era that among other forms produced the Gothic novel commencing the prolific examination of the century's shifting attitudes toward death and uncovering literary moments in which sexuality and death often conjoined By bringing together various viewpoints and historical relations the volume contributes to an emerging field of study and provides new perspectives on the ways in which the century approached an increasingly modern sense of sexuality and mortality It not only provides part of the needed discussion of the relationship between sex death history and eighteenth century culture but is a forum in which the ideas of several well respected critics converge producing a breadth of knowledge and a diversity of perspectives and methodologies previously unseen As the contributors demonstrate eighteenth century anxieties over mortality the body the soul and the corpse inspired many writers of the time to both implicitly and explicitly embed mortality and sexuality within their works By depicting the necrophilic tendencies of libertines and rapacious villains the fetishizing of death and mourning by virtuous heroines or the fantasy of preserving the body these authors demonstrate not only the tragic results of sexual play but the persistent fantasy of necro erotica This book shows that within the eighteenth century culture of profound modern change underworkings of death and mourning are often eroticized that sex is often equated with death as punishment or loss of the self and that the sex death dialectic lies at the discursive center of normative conceptions of gender desire and social power
