features Outlines the key distinctions between police style reports and crime scene style reports and writing Explains how to clearly and accurately provide an accounting and description of a variety of evidence recovered from a scene Details how to best organize the report in a logical manner and sequence including the various components of the crime scene report Presents an explanation of the information that should be included in the report and the rationale behind its importance for testimonial purposes Report Writing for Crime Scene Investigators provides to the reader the fundamentals of effective report writing for the active field Crime Scene Investigator Coverage includes the necessary steps to thoroughly document scenes and evidence from the time the CSI receives the call until the time the CSI testifies in court In addition to the student market the book will be a welcome resource for professional crime scene investigators attorneys and as a reference and standard for professional training programs
