**Immigration Worldwide** Uma A. Segal, Doreen Elliott, Nazneen S. Mayadas, 2010-01-19 The ease of transportation the opening of international immigration policies the growing refugee movements and the increasing size of unauthorized immigrant populations suggest that immigration worldwide is a phenomenon of utmost importance to professionals who develop policies and programs for or provide services to immigrants Immigration occurs in both the wealthy nations of the global North and the poorer countries of the global South it involves individuals who arrive with substantial human capital and those with little It has far reaching implications for a nation s economy public policies social and health services and culture The purpose of this volume therefore is to explore current patterns and policies of immigration in key countries and regions across the globe and analyze the implications for these countries and their immigrant populations Each of its chapters written by an international and interdisciplinary group of experts explores how country conditions policies values politics and attitudes influence the process of immigration and subsequently affect immigrants migration and the nation itself No other volume explores the landscape of worldwide immigration as broadly as this does with sweeping coverage of countries and empirical research together with an analytic framework that sets the context of human migration against a wide backdrop of experiential factors that take shape long before an immigrant enters a host country At once a sourcebook and an applied model of immigration studies Immigration Worldwide is a valuable reference for scholars and students seeking a wide ranging yet nuanced survey of the key issues salient to debates about the programs and policies that best serve immigrant populations and their host countries **The UK Media Law Pocketbook** Tim Crook, 2013-03-12 As media law becomes more complicated and some of the leading textbooks thicker and larger this concise guide provides core information without patronizing those with existing knowledge or bamboozling those with little expertise Suitable for journalists media workers and anyone in the cultural or publishing industries the book engages and

addresses the Internet and blogging social networking instant messaging digital multi media publication and consumption as well as traditional print and broadcast Each chapter covers substantive black letter law and regulation ethics and kept in mind throughout will be the difference in duties and obligations between words and pictures print and broadcasting The focus is on the law relating to England Wales but with references to key differences to bear in mind in Scotland and Northern Ireland Chapters start with bullet points then flesh out the details and summarize pitfalls to avoid Readers are left in no doubt about liabilities and potential penalties Anticipating a dynamically changing arena the text is also backed up by downloadable sound podcasts videocasts Internet source links throughout the book text and a companion website so that any significant updates are immediately accessible direct from the ebook Visit <https://ukmedialawpocketbook.wordpress.com>

**Counting the population** Great Britain: Parliament: House of Commons: Treasury Committee, 2008-01-15 Counting the Population Vol 2 Written Evidence **House of Commons - Home Affairs Committee: The Work of the UK Border Agency (January-March 2013) - HC 616** Great Britain: Parliament: House of Commons: Home Affairs Committee, 2013-11-08 The Border Agency backlogs by the time it was wound up had fallen to 432 000 However most of the 70 400 reduction was achieved by simply loading pending cases onto the computer and in some categories such as those applying for further leave to remain on the basis of marriage or civil partnership the backlog had actually grown The Committee has no objection in principle to the introduction of a charge for access to the National Health Service for those who are in the UK only temporarily However it expresses concerns about the possible application of the scheme to vulnerable people who have been trafficked into the country and recommends that the Government should pilot an alternative option for visa applicants to take out private health insurance instead This has been a chaotic summer for immigration policy First we had the controversial AdVans which were rightly ridiculed and then it was revealed that Capita had botched the contract to clear the migration refusal pool by asking British citizens to leave their own country Finally we saw a u turn on visa bonds however the uncertainty has already done damage A more effective and less menacing message would be that the Government is willing and able to support those who are here illegally to return home if they want to Tough enforcement action should be taken against those who are determined to remain here illegally but for the target audience of potential voluntary returners the effectiveness of the carrot is potentially undermined by the ostentatious brandishing of the stick

*Privatising Border Control*, 2022-11-07 In recent years many breaches of immigration law have been criminalised Foreign nationals are now routinely identified in court and in prison as subjects for deportation Police at the border and within the territory refer foreign suspects to immigration authorities for expulsion Within the immigration system new institutions and practices rely on criminal justice logic and methods In these examples it is not the state that controls the national border instead it is often privately contracted companies This collection of essays explores the growing use of the private sector and private actors in border control and its implications for our understanding of state sovereignty and citizenship Privatising

Border Control is an important empirical and theoretical contribution to the growing interdisciplinary body of scholarship on border control. It also contributes to the academic inquiry into the growing privatisation of policing and punishment. These domains once regarded as central to the state's police power and its monopoly on violence are increasingly outsourced to private providers. With contributions from scholars across a range of jurisdictions and disciplines including Criminology, Law and Political Science, *Privatising Border Control* provides a novel and comparative account of contemporary border control policy and practice. This is a must read for academics, practitioners and policymakers interested in immigration law and the growing use of the private sector and private actors in border control.

Moving Millions Jeffrey Kaye, 2010-04-01

On the same day that reporter Jeffrey Kaye visited the Tondo hospital in northwest Manila, members of an employees association wearing hospital uniforms rallied in the outside courtyard demanding pay raises. The nurses at the hospital took home about 261 a month while in the United States nurses earn on average more than fifteen times that rate of pay. No wonder so many of them leave the Philippines. Between 2000 and 2007 nearly 78 000 qualified nurses left the Philippines to work abroad but there's more to it than the pull of better wages. Each year the Philippine president hands out Bagong Bayani modern day heroes awards to the country's outstanding and exemplary migrant workers. Migrant labor accounts for the Philippines second largest source of export revenue after electronics and they ship out nurses like another country might export textiles. In 2008 the Philippines was one of the top ranking destination countries for remittances alongside India 45 billion, China 34.5 billion and Mexico 26.2 billion. Nurses in the Philippines, farmers in Senegal, Dominican factory workers in rural Pennsylvania, even Indian software engineers working in California, all are pieces of a larger system. Kaye calls it coyote capitalism. Coyote capitalism is the idea practiced by many businesses and governments that people like other natural resources are supplies to be shifted around to meet demand. Workers are pushed out, pulled in and put on the line without consideration of the consequences for economies, communities or individuals. With a fresh take on a controversial topic, *Moving Millions* knocks down myth after myth about why immigrants come to America and what role they play in the economy. Challenges the view that immigrants themselves motivate immigration rather than the policies of businesses and governments in both rich and poor nations. Finds surprising connections between globalization, economic growth and the convoluted immigration debates taking place in America and other industrialized countries. Jeffrey Kaye is a freelance journalist and special correspondent for the PBS NewsHour for whom he has reported since 1984 covering immigration, housing, health care, urban politics and other issues. What does it all add up to? America's approach to importing workers looks from the outside like a patchwork of unnecessary laws and regulations but the machinery of immigration is actually part of a larger global system that satisfies the needs of businesses and governments often at the expense of workers in every nation. Drawing on Jeffrey Kaye's travels to places including Mexico, the U.K., the United Arab Emirates, the Philippines, Poland and Senegal, this book a healthy alternative to the obsession with migrants' legal status, exposes the dark side of globalization and the complicity of businesses and

governments to benefit from the migration of millions of workers      **The New Authoritarianism** Alan Waring,2019-03-30 This two volume book considers from a risk perspective the current phenomenon of the new Alt Right authoritarianism and whether it represents real democracy or an unacceptable hegemony potentially resulting in elected dictatorships and abuses as well as dysfunctional government Contributing authors represent an eclectic range of disciplines including cognitive organizational and political psychology sociology history political science international relations linguistics and discourse analysis and risk analysis The Alt Right threats and risk exposures whether to democracy human rights law and order social welfare racial harmony the economy national security the environment and international relations are identified and analysed across a number of selected countries While Vol 1 ISBN 978 3 8382 1153 4 focusses on the US Vol 2 illuminates the phenomenon in the UK Austria France Germany Netherlands Norway Italy Hungary and Russia Potential strategies to limit the Alt Right threat are proposed      Corpus-Based Analysis of Ideological Bias Anna Islentyeva,2020-10-26 Corpus Based Analysis of Ideological Bias presents research combining a range of corpus linguistic techniques which are employed to analyse how migration discourse is re constructed in the contemporary British press Two specialised corpora containing 1 000 news reports editorials and opinion pieces from five major national British newspapers were collected and annotated for this research The event separating these two corpora is the 2016 referendum on Britain s membership of the European Union EU In its analysis this book employs both quantitative and qualitative analytical methods with four case studies offering a broad perspective on how the topical socio political issues of migration and asylum seeking are represented by left and right wing British newspapers explores how newspapers reveal their political orientation and promote their political agenda by employing specific linguistic patterns and discursive strategies in this case in the representation of the key social actors within migration discourse provides case studies that place a particular focus on the discourses surrounding European migrants and migration within the EU which proved to be a very popular topic in the British press both before and after the 2016 EU membership referendum and offers a comparative corpus analysis that seeks to ascertain whether media discourse regarding EU migration has changed in the wake of the referendum This book is a useful source not only for students of English linguistics and media studies but also for researchers in the fields of applied corpus linguistics critical discourse studies contemporary media analysis and metaphor research      The Khat Controversy David Anderson,Susan Beckerleg,Degol Hailu,Axel Klein,2007-05-01 Khat A harmless natural stimulant or a lethal epidemic sweeping through the international drugs trade Khat is a natural substance that in the Middle East is as ubiquitous as coffee is in the West It is hugely popular in some African and Arab populations But critics contend that it is a seriously addictive stimulant that damages the cardiovascular system In a groundbreaking study the authors go behind the veil of the drug questioning its availability and its effect on its Red Sea producers Interwoven with case studies from Djibouti to Rome The Khat Controversy goes deeper to explore contemporary issues relating to globalization ethnicity and culture With its popularity escalating in

London Rome Toronto and Copenhagen khat is fast becoming a problem in the West The first study of this contested drug The Khat Controversy provides a concise introduction to the issues surrounding khat usage and suggests how policymakers should address them The Khat Controversy Stimulating the Debate on Drugs has received an honorable mention for the African Studies Association s 2008 Melville J Herskovits Award The Practice of Critical Discourse Analysis: an Introduction Meriel Bloor, Thomas Bloor, 2013-11-26 This book provides an introduction to the aims theories and practices of critical discourse analysis CDA It is mainly concerned with the linguistic aspects of CDA It provides an introduction to the different types of language analysis that are employed in CDA frequency analysis conversation transitivity and reference and figurative language for example and seeks to provide readers with the skills to apply them in different contexts to various types of texts political speeches marketing pieces literary works advertising multimedia persuasive texts discourses on race gender and politics *Local Economic and Employment Development (LEED) From Immigration to Integration Local Solutions to a Global Challenge* OECD, 2006-11-13 This publication highlights principles and factors which are important in supporting integration locally It includes a comparison of local initiatives implemented in five OECD countries **Them and Us** Philippe Legrain, 2020-10-15 Winner of the Diversity Inclusion and Equality Award at the Business Book Awards 2021 Underpinned by scholarship entertaining Legrain s book fizzles with practical ideas The Economist The beauty of diversity is that innovation often comes about by serendipity As Scott Page observed one day in 1904 at the World Fair in St Louis the ice cream vendor ran out of cups Ernest Hami a Syrian waffle vendor in the booth next door rolled up some waffles to make cones and the rest is history Filled with data anecdotes and optimism Them and Us is an endorsement of cultural differences at a time of acute national introspection By every measure from productivity to new perspectives immigrants bring something beneficial to society If patriotism means wanting the best for your country we should be welcoming immigrants with open arms **Muslim Moroccan Migrants in Europe** M. Ennaji, 2014-11-19 Based on the author s fieldwork and readings of media government reports and historical and contemporary records this book explores how Muslim migrants in Europe contribute to a changing European landscape focusing on Muslim Moroccan migrants *Everyday Border Struggles* Thom Tyerman, 2021-07-29 This book examines everyday borders in the UK and Calais as sites of ethical political struggle between segregation and solidarity In an age of mobility borders appear to be everywhere Encountered more and more in our everyday lives borders locally enact global divisions and inequalities of power wealth and identity Critically examining everyday borders in the UK and Calais Tyerman shows them to be sites of ethical political struggle From the Calais jungle to the UK s hostile environment it shows how borders are carried out through practices of everyday segregation that make life for some but not others unliveable At the same time it reveals the practices of everyday solidarity with which people on the move confront these segregating borders This book sheds light on the complex ways borders entrench themselves in our lives the complicity of ordinary people in their enactment and the seductive power they continue to assert over our political

imaginations Of general interest to scholars and students working on issues of migration borders citizenship and security in international politics sociology and philosophy this book will also appeal to practitioners in areas of migrant rights asylum advocacy anti detention or deportation campaigning human rights direct democracy and community organising

**The Borders of "Europe"** Nicholas De Genova, 2017-08-26 In recent years the borders of Europe have been perceived as being besieged by a staggering refugee and migration crisis The contributors to *The Borders of Europe* see this crisis less as an incursion into Europe by external conflicts than as the result of migrants exercising their freedom of movement Addressing the new technologies and technical forms European states use to curb control and constrain what contributors to the volume call the autonomy of migration this book shows how the continent's amorphous borders present a premier site for the enactment and disputation of the very idea of Europe They also outline how from Istanbul to London Sweden to Mali and Tunisia to Latvia migrants are finding ways to subvert visa policies and asylum procedures while negotiating increasingly militarized and surveilled borders Situating the migration crisis within a global frame and attending to migrant and refugee supporters as well as those who stoke nativist fears this timely volume demonstrates how the enforcement of Europe's borders is an important element of the worldwide regulation of human mobility Contributors Ruben Andersson Nicholas De Genova Dace Dzenovska Evelina Gambino Glenda Garelli Charles Heller Clara Lecadet Souad Osseiran Lorenzo Pezzani Fiorenza Picozza Stephan Scheel Maurice Stierl Laia Soto Bermant Martina Tazzioli

*Irregular Migration in Europe* Anna Triandafyllidou, 2016-05-06 *Irregular Migration in Europe* contributes to our knowledge of the scale and nature of the much discussed but under researched phenomenon of irregular migration in Europe whilst improving our understanding of the dynamics of irregular migration and its relation to European societies and economies Presenting a comparative analysis of the experiences and policies of different EU member states this book draws on an extensive range of sources many of which have so far been absent from English language analyses to offer an overall picture of irregular migration in twelve EU member states This volume will be of interest to policy makers and researchers within the fields of migration sociology and social anthropology political science European integration and European studies political science and public administration

*Evictions in the UK* Joe Crawford, 2020-10-01 *Evictions in the UK* examines the relationships between tenants landlords housing providers and government agencies and the tensions and conflicts that characterise these relations The book shows how power dynamics are being reconfigured in the post welfare context of the first quarter of the 21st century as evictions for rent arrears are becoming one of the most significant threats to both the wellbeing of the social housing sector and the welfare of its tenants Embracing both practical and critical approaches this book offers a comprehensive understanding of the contradictory and thus controversial issue of evictions It explores the range of perspectives involved in the practice landlords carrying out evictions those agencies providing legal assistance to evictees as well as academics and institutions charged with researching and regulating the process Drawing on three case studies relating to evictions across Scotland and

England this book provides a comprehensive look at the punitive consequences of poverty evictions for rent arrears and status evictions under immigration law that are applicable to social housing systems worldwide Based on original primary source data this book will be a key resource for academics and students as well as policy makers and practitioners in the fields of housing studies planning social welfare and political sociology Migrants at Work Cathryn Costello, Mark Freedland, 2014-10-30 There is a highly significant and under considered intersection and interaction between migration law and labour law Labour lawyers have tended to regard migration law as generally speaking outside their purview and migration lawyers have somewhat similarly tended to neglect labour law The culmination of a collaborative project on Migrants at Work funded by the John Fell Fund the Society of Legal Scholars and the Research Centre at St John's College Oxford this volume brings together distinguished legal and migration scholars to examine the impact of migration law on labour rights and how the regulation of migration increasingly impacts upon employment and labour relations Examining and clarifying the interactions between migration migration law and labour law contributors to the volume identify the many ways that migration law as currently designed divides the objectives of labour law privileging concerns about the labour supply and demand over worker protective concerns In addition migration law creates particular forms of status which affect employment relations thereby dividing the subjects of labour law Chapters cover the labour laws of the UK Australia Ireland Israel Italy Germany Sweden and the US References are also made to discrete practices in Brazil France Greece New Zealand Mexico Poland and South Africa These countries all host migrants and have developed systems of migration law reflecting very different trajectories Some are traditional countries of immigration and settlement migration while others have traditionally been countries of emigration but now import many workers There are nonetheless common features in their immigration law which have a profound impact on labour law for instance in their shared contemporary shift to using temporary labour migration programmes Further chapters examine EU and international law on migration labour rights human rights and human trafficking and smuggling developing cross jurisdictional and multi level perspectives Written by leading scholars of labour law migration law and migration studies this book provides a diverse and multidisciplinary approach to this field of legal interaction of interest to academics policymakers legal practitioners trade unions and migrants groups alike
