a new theory of prevention in counterterrorism contexts From the Foreword by Judge Bruno Simma International Court of Justice Even if one might disagree with the bases on which the author constructs his argument the execution of the argument is solid and thorough The coverage of the major policy arguments and the available legal source materials is equally impressive Moreover the author s positions are genuinely progressive and present a fairly innovative solution in the form of a strict liability mechanism It behoves all scholars and practitioners of international law with an interest in combating international terrorism to consider the proposals outlined in this book Transnational Terrorism and State Accountability by Vincent Joel Proulx has been awarded the 2014 Myres McDougal Prize for best book in Law Science and Policy from the Society of Policy Scientists

The International Arbitration of Territorial Disputes Asaf Siniver, 2024-06-05 Asaf Siniver provides a systematic and comparative analysis of the role of international arbitration in the settlement of interstate territorial disputes He engages with International Relations IR and International Law IL scholarships to locate the unique characteristics of arbitration as a legal method of dispute settlement distinct from the other legal method of adjudication judicial settlement and diplomatic methods such as negotiation and mediation A novel framework examines both political and legal dimensions to analyse i under what conditions states are more likely to pursue a legal settlement of their territorial dispute via arbitration as opposed to the more popular diplomatic method of mediation and ii what explains compliance with or defiance of international law in such cases In so doing the author sets to reclaim the sui generis nature of arbitration as a unique legal political method which enables the disputants to maintain the considerable flexibility and autonomy often found in mediation whilst providing the same final and legally binding solution that adjudication offers Exploring a wide range of primary sources including interviews archival research and official documents and employing qualitative research methods Siniver applies the analytical framework to four contemporary cases of international arbitration the arbitration over the Rann of Kutch between India and Pakistan 1966 68 the Beagle Channel arbitration between Chile and Argentina 1971 77 the Taba arbitration between Egypt and Israel 1986 88 and the South China Sea arbitration between The Philippines and China 2013

and treaty making Cambridge Compendium of International Commercial and Investment Arbitration Stefan Kröll, Andrea K. Bjorklund, Franco Ferrari, 2023-03-02 The Compendium like an encyclopedia contains entries for most of the foundational principles and concepts underlying arbitration Each entry takes a holistic view of international arbitration as they tackle core concepts from both a commercial and an investment arbitration perspective focusing on the fundamental issues underlying the various topics rather than on the solutions adopted in any particular jurisdiction thus making the Compendium a truly cross border transnational resource This innovative approach will allow readers to identify the commonalities as well as the differences between commercial and investment arbitration whether and where cross fertilization has taken place and what consequences it can have This approach allows the Compendium to be a tool in promoting the creation of a culture of international arbitration that considers commercial arbitration and investment arbitration as part of a whole but with certain distinct features particular to each **International Commercial Arbitration** Gary Born, 2009 International Commercial Arbitration Third Edition is an authoritative treatise providing the most complete available commentary and analysis on all aspects of the international commercial arbitration process This completely revised and expanded edition of Gary Born s authoritative work is divided into three main parts dealing with the International Arbitration Agreement International Arbitral Procedures and International Arbitral Awards The Third Edition provides a systematic framework for both current analysis and future developments as well as exhaustive citations from all leading legal systems INTERNATIONAL ARBITRATION AGREEMENTS Legal Framework for International Arbitration Agreements International Arbitration Agreements and the Separability Presumption Choice of Law Governing International Arbitration Agreements Formation Validity and Legality of International Arbitration Agreements International Arbitration Agreements and Competence Competence Effects and Enforcement of International Arbitration Agreements Interpretation of International Arbitration Agreements INTERNATIONAL ARBITRAL PROCEDURES AND PROCEEDINGS Legal Framework for International Arbitral Proceedings Selection Challenge and Replacement of Arbitrators in International Arbitration Rights and Duties of International Arbitrators Selection of Arbitral Seat in International Arbitration Procedures in International Arbitration Disclosure and Discovery in International Arbitration Provisional Measures in International Arbitration Consolidation Joinder and Intervention in International Arbitration Choice of Substantive Law in International Arbitration Confidentiality in International Arbitration Legal Representation and Professional Conduct in International Arbitration INTERNATIONAL ARBITRAL AWARDS Legal Framework for International Arbitral Awards Form and Content of International Arbitral Awards Correction Interpretation and Supplementation of International Arbitral Awards Annulment of International Arbitral Awards Recognition and Enforcement of International Arbitral Awards Preclusion Lis Pendens and Stare Decisis in International Arbitral Awards **Procedure and Evidence in International Arbitration** Jeffrey Waincymer, 2012-05-23 Central to the book s purpose is the procedural challenge facing arbitrators at each and every stage of the arbitral process when fairness

The Function of Public International Law Jan Anne Vos, 2013-02-26

This book addresses fundamental aspects of the concept of public international law in both theory and practice The argument developed by the author is that underlying the traditional horizontal structure of public international law a vertical structure of the concept of law may be discerned This vertical structure is seen unfolding into two mutually exclusive frameworks a framework of obligation accounting for obligations and a framework of authorization accounting for rights The problem then arising is that a concept of public international law which only admits either rights or obligations cannot be regarded as coherent The author however takes and substantiates the position that coherence can be achieved by suppressing the mutual exclusivity of both frameworks This move paves the way to formulating the function of public international law in terms of the constituting of international society Since in public international law the theoretical aspects profoundly affect practice this book is not only of interest to academics but also for practitioners such as officials of foreign offices and international institutions
