The Prevention and Intervention of Genocide Samuel Totten, 2008 Over the last twenty years the world has witnessed four major genocides There was the genocide in Iraq 1988 in Rwanda 1994 in Srebrenica 1995 and in Darfur 2003 and continuing Most observers agree there is an urgent need to assess the international community's efforts to prevent genocide and to intervene once a genocide is under way in an effective and timely manner This volume the latest in a widely respected series on the subject of genocide provides an overview of a host of issues germane to this task The book begins with a cogent discussion of the issues of prevention and intervention during the Cold War years The second chapter discusses the abject failures and moderate though in some cases highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention The pros and cons of sanctions and the problems of enforcement and evaluation their effectiveness are then discussed Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking Later chapters treat the issue of intervention why and how it has met with only limited success Concentrating on Rwanda and Srebrenica chapter 8 discusses various peace operations that were abject failures and those that were moderately successful The concept of an anti genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it Chapters discuss key issues related to post genocidal periods those that need to be addressed in order to establish stability in a wounded land and populace as well as to prevent future genocides The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity ensuring deterrence and bringing about reconciliation The contributors to the volume are all noted scholars some of whom specialize in the study of genocide and others who specialize in such areas as early warning peacekeeping and sanctions

examinations of intervention in Bosnia Somalia Rwanda Haiti and Kosovo Back cover **International Organizations and Military Affairs** Hylke Dijkstra, 2016-02-05 From the UN Department of Peacekeeping Operations to the NATO International Staff and the European External Action Service international bureaucrats make decisions that affect life and death In carrying out their functions these officials not only facilitate the work of the member states but also pursue their own distinct agendas This book analyzes how states seek to control secretariats when it comes to military operations by international organizations It introduces an innovative theoretical framework that identifies different types of control mechanisms The book presents six empirical chapters on the UN NATO and EU secretariats It provides new data from a unique dataset and in depth interviews It shows that member states employ a wide range of control mechanisms to reduce the potential loss of influence They frequently forfeit the gains of delegation to avoid becoming dependent on the work of secretariats Yet while states invest heavily in control this book also argues that they cannot benefit from the services of secretariats and keep full control over outcomes in international organizations In their delegation and control decisions states face trade offs and have to weigh different cost categories the costs of policy administrative capacity and agency loss This book will be of interest to scholars postgraduates and officials in international organizations and national governments dealing with questions of international political economy security studies and military affairs **Developing a United Nations Emergency Peace Service** H. Peter Langille, 2016-07-14 This book makes the case for a standing UN Emergency Peace Service With this one development effectively a UN first responder for complex emergencies the organization would finally have a rapid reliable capacity to help fulfill its tougher assigned tasks To date the UNEPS initiative has encountered an unreceptive political fiscal and security environment Yet overlapping crises are now inevitable as are profound shifts This book presents an insightful review of the worrisome security challenges ahead and analysis of two recent high level UN reports It addresses the primary roles core principles and requirements of a UNEPS as well as the arguments for and against such a dedicated UN service Further it reveals that the primary impediments and lessons learned also help demonstrate what may work and equally important what won't With modest support the book shows the next steps are feasible although it's important to recall that ideas even good ideas don't work unless we do Disarmament, Demobilisation and Reintegration of Ex-Combatants in Africa Ibrahim Bangura, 2023-07-17 This book critically examines the approaches to Disarmament Demobilisation and Reintegration DDR of ex combatants programming in Africa Drawing on empirical evidence from across the continent the book investigates the different theories contextual realities and approaches that have informed the establishment and implementation of such programmes the opportunities they have provided for stability peace and security and the challenges with which they have contended The book combines broader theoretical analysis with country specific case studies including Nigeria the Central African Republic South Sudan Somalia Liberia Sierra Leone Burundi Zimbabwe South Africa and the Democratic Republic of Congo Overall the book asks how DDR programming has evolved in Africa what factors have

contributed to the success or failure of DDR processes and what we can expect for DDR in Africa in the future This book will be a useful guide for students and researchers across the fields of Peace and Conflict Studies Security Studies History Political Science Sociology and African Studies

International Peacekeeping Boris Kondoch, 2017-05-15 Peacekeeping has been the technique most frequently used by and associated with the United Nations to end conflicts and to preserve peace In addition international and regional organizations have also performed peacekeeping functions Since the establishment of the first UN peacekeeping mission UNEF I in 1956 international lawyers have raised questions about the legal aspects of these operations Traditionally they analyzed the constitutional basis for peacekeeping and tried to allocate the authority under the UN Charter for peacekeeping among the Security Council the General Assembly and the Secretary General They discussed the use of force by peacekeepers the applicability of international humanitarian law as well as the

responsibilities and liabilities of peacekeepers Since the end of the cold war peacekeeping operations have become more complex In the first forty years peacekeepers functioned mainly as buffer zones between warring parties and monitored cease fires Nowadays they are increasingly engaged in internal rather than international conflicts and perform a multitude of tasks Among others they act as civilian administrators oversee elections and monitor human rights These changes have raised new legal problems Which human rights obligations exist for peacekeepers Do peacekeepers have to intervene if they witness war crimes and acts of genocide How are they protected under international law What is the legal framework of UN administrations like in Kosovo and East Timor In order to enhance a better understanding of these legal issues arising from peacekeeping operations a collection of articles written by the leading experts in the field have been compiled in the volume *International Peacekeeping* **Peacebuilding** Rob Jenkins, 2013 The emergence of The United Nations Peacebuilding Commission PBC in 2005 was the culmination of a long and contentious process In this work Rob Jenkins provides a concise introduction that traces the origins and evolution of peacebuilding as a concept the creation and functioning of the PBC as an institution and the complicated relationship between these two processes Jenkins discusses how continued contestation over what exactly peacebuilding is and how its objectives can most effectively be achieved influenced the institutional design and de facto functioning of the PBC its structure mandate and origins He then moves on to examine the peacebuilding architecture in action and analyses the role that the PBC has carved out for itself reflecting on the future prospects for the organization The theory and practice of peacebuilding has assumed increasing importance over the last decade and this work is essential reading for all students of conflict resolution peace studies and international relations *New Challenges for International Peacekeeping Operations* United States. Committee on Foreign Affairs, 2009 **The Law of Armed Conflict and the Use of Force** Frauke Lachenmann, Rüdiger Wolfrum, 2017 This volume collects articles on the law of armed conflict and the use of force from the Max Planck Encyclopedia of Public International Law to facilitate easy access to content from the leading reference work in international law The United Nations Security Council and War Vaughan Lowe, 2008 The book brings together leading scholars and practitioners to provide the definitive analysis of the legal historical and political context in which the Security Council operates They explore the different functions that the Council has acquired over the last 60 years partly in response to the changing nature of war
