Reporters And Reporting :

In Other News Stephanie Forshee, Rosellen Downey, 2016-03-01 You've read an incredible article. You're thinking how did the reporter do that? In *Other News: Reporters on Reporting*, digs into the stories of 12 journalists who have worked for leading news outlets including The Washington Post, BuzzFeed, NPR, TIME, ABC, the Los Angeles Times, and more. Finally, the reporter is the subject of the story.

Newspaper Reporting and Correspondence Grant Milnor Hyde, 2019-12-10 In *Newspaper Reporting and Correspondence*, Grant Milnor Hyde presents a comprehensive exploration of journalistic practices at the turn of the 20th century, focusing on the burgeoning field of newspaper reporting. The text deftly balances theoretical insights with practical guidance, employing a clear, instructive style that invites both novice journalists and seasoned professionals to reconsider the ethics and techniques of their craft. Hyde adeptly situates his work within a post-Industrial America, capturing the vibrant evolution of media in an era marked by rapidly shifting societal values and technological advancements. Grant Milnor Hyde, an accomplished journalist and educator, drew from his extensive experience in the field to craft this seminal work. His firsthand encounters with the challenges and triumphs of reporting not only enriched his understanding of the profession but also inspired his passion for journalism education. Hyde's pedagogical background and commitment to integrity and accuracy in reporting shaped his approach, making this text a vital resource for aspiring journalists. I highly recommend *Newspaper Reporting and Correspondence* to anyone interested in the foundations of modern journalism and the ethical considerations it entails. Whether you're a student of media studies or a practitioner aiming to refine your skills, Hyde's insights will provide invaluable guidance and foster a deeper appreciation for the responsible craft of reporting.

A Journalist's Guide to the Internet Christopher Callahan, 2003 *A Journalist's Guide to the Internet* is a guide for students and professional journalists to learn how to use the Internet effectively in their daily reporting.

Reporting Processes and Practices Everette E. Dennis, Arnold H. Ismach, 1981

An Introduction to News Reporting Jan Johnson Yopp, Beth A. Haller, 2005 *An Introduction to News Reporting* gives beginning reporters the tools to succeed by introducing them to news beats and the people, issues, sources, and stories associated with them. The text begins by reviewing the basics of reporting, including conducting interviews, developing sources, finding documents, and gathering information ethically and legally. It continues with a detailed look at the beats students are most likely to cover as beginning reporters: local, government, education, business, police, and fire courts, and others. Features: Covers the major beats in any news organization and lists sources for each beat, giving students the tools to begin reporting their stories. Includes the basics of newswriting so instructors can use the text in courses that combine newswriting and reporting. Provides activities at the end of every chapter, giving students a starting point for reporting the beat and guiding instructors in how to teach reporting skills. Provides a list of resources and Web sites in every chapter to give students and instructors additional information on a particular beat and a starting point for researching stories.

Izard, Hugh M. Culbertson, Donald A. Lambert, 1990 Advanced Reporting Miles Maguire, 2014-07-25 News gathering is a large complicated and often messy task that has traditionally been viewed by journalists as irretrievably idiosyncratic best learned through trial and error Advanced Reporting takes the opposite approach focusing on reporting as a process of triangulation based on three essential activities analyzing documents making observations and conducting interviews In this readable book veteran journalism professor Miles Maguire shows how the best reporters use these three tools in a way that allows them to cross-check and authenticate facts to reduce or eliminate unsupportable allegations and to take readers and viewers to a deeper level of insight and understanding This book will help to prepare students for a profession marked by increasing

complexity and competition To succeed in this environment journalists must learn to make the most of digital media to intensify the impact of their work At the same time reporters must contend with a host of sophisticated public relations techniques while engaging with news audiences that no longer just consume journalism but also collaborate in its creation

Discussion questions and exercises help students put theory into practice **Reporting of Social Science in the National**

Media Carol Weiss,Eleanor Singer,1988-08-04 Policy makers as well as the general public are often unaware of social science research until a story about it appears in the national media Even in official Washington a staffer s report on social research may go unnoticed while a report in the Washington Post receives immediate attention This study takes a systematic and revealing look at social science reporting How do journalists hear about social science and why do they select certain stories to cover and not others How do journalistic standards for selection compare with social scientists own judgments of merit How do reporters attempt to ensure accuracy and how freely do they introduce their own interpretations of social science findings How satisfied are social scientists with the selection and accuracy of social science news In Part I Carol H Weiss addresses these questions on the basis of personal interviews with social scientists and the journalists who wrote about their work Part II by Eleanor Singer is based on an analysis of media content itself and compares social science reporting over time between 1970 and 1982 and across media newspapers newsmagazines television These two complementary perspectives combine to produce a thorough realistic assessment of the way social science moves out of the academy and into the world of news **American Journalists in the Great War** Chris Dubbs (Military historian),2017 When war

erupted in Europe in 1914 American journalists hurried across the Atlantic ready to cover it the same way they had covered so many other wars However very little about this war was like any other Its scale brutality and duration forced journalists to write their own rules for reporting and keeping the American public informed American Journalists in the Great War tells the dramatic stories of the journalists who covered World War I for the American public Chris Dubbs draws on personal accounts from contemporary newspaper and magazine articles and books to convey the experiences of the journalists of World War I from the western front to the Balkans to the Paris Peace Conference Their accounts reveal the challenges of finding the war news transmitting a story and getting it past the censors Over the course of the war reporters found that getting their scoop increasingly meant breaking the rules or redefining the very meaning of war news Dubbs shares the courageous harrowing and sometimes humorous stories of the American reporters who risked their lives in war zones to record their experiences and send the news to the people back home *The Crop Reporting System of the United States* United States. Bureau of

Agricultural Economics. Division of crop and live stock estimates,1923 *Writing and Reporting the News* Gerald Lanson,Jerry Lanson,Mitchell Stephens,1994 Writing and Reporting the News Second Edition by Gerald Lanson and Mitchell Stephens provides thorough instructions on writing and reporting and extensive opportunities to apply those instructions Based on the authors careers as journalists and on the experience of dozens of otherfirst rate reporters this unique textbook

The Shorthand Reporter ,1907 **Reporting World War II** G. Kurt Piehler,Ingo Trauschweizer,2023-04-25 This set of essays offers new insights into the journalistic process and the pressures American front line reporters experienced covering World War II Transmitting stories through cable or couriers remained expensive and often required the cooperation of foreign governments and the American armed forces Initially reporters from a neutral America documented the early victories by Nazi Germany and the Soviet invasion of Finland Not all journalists strove for objectivity During her time reporting from Ireland Helen Kirkpatrick remained a fierce critic of that country s neutrality Once the United States joined the fight after the Japanese attack on Pearl Harbor American journalists supported the struggle against the Axis powers but this volume will show that reporters even when members of the army sponsored newspaper Stars and Stripes were not mere ciphers of the official line African American reporters Roi Ottley and Ollie Stewart worked to bolster the morale of Black GIs and undermined the institutional racism endemic to the American war effort Women front line reporters are given their due in this volume examining the struggles to overcome gender bias by describing triumphs of Th r se Mabel Bonney Iris Carpenter Lee Carson and Anne Stringer The line between public relations and journalism could be a fine one as reflected by the U S Marine Corps creating its own network of Marine correspondents who reported on the Pacific island campaigns and had their work published by American media outlets Despite the pressures of censorship the best American reporters strove for accuracy in reporting the facts even when dependent on official communiqu s issued by the military Many wartime reporters even when covering major turning points sought to embrace a reporting style that recorded the experiences of average soldiers Often associated with Ernie Pyle and Bill Mauldin the embrace of the human interest story served as one of the enduring legacies of the conflict Despite the importance of American war reporting in shaping perceptions of the war on the home front as well as shaping the historical narrative of the conflict this work underscores how there is more to learn Readers will gain from this work a new appreciation of the contribution of American journalists in writing the first version of history of the global struggle against Nazi Germany imperial Japan and fascist Italy
