Advanced Information Systems Engineering Haris Mouratidis, Colette Rolland, 2011-06-29 This book constitutes the refereed proceedings of the 23rd International Conference on Advanced Information Systems Engineering CAiSE 2011 held in London, UK, in June 2011. The 42 revised full papers and 5 revised short papers presented were carefully reviewed and selected from 320 submissions. In addition, the book contains the abstracts of 2 keynote speeches. The contributions are organized in topical sections on requirements adaptation and evolution, model transformation, conceptual design, domain specific languages, case studies, and experiences, mining and matching, business process modelling, validation and quality, and service and management.

Determining Project Requirements Hans Jonasson, 2007-10-04 Organizations waste millions of dollars every year on failed projects. Failure is practically guaranteed by poor or incomplete requirements that do not properly define projects in their initial stages. Business analysis is the critical process ensuring projects start on the path toward success. To accurately determine project requirements, business analysis is essential.
