Visual Tools for Transforming Information Into Knowledge David Hyerle, 2008-09-05. Helps teachers think about what they are doing in the classroom with graphic organizers and how they can use them more effectively. Mark Johnson, Principal, Glenwood Elementary School, Kearney, NE. With an emphasis on transforming information into knowledge, everyone who considers themselves a learner or a facilitator of someone else's learning would benefit from the author's message and ideas. Judith A. Rogers, Professional Learning Specialist, Tucson Unified School District, AZ. Develop students' thinking, note taking, and study skills with powerful visual tools. Visual tools have the unique capacity to communicate rich patterns of thinking and help students take control of their own learning. This second edition of *A Field Guide to Using Visual Tools* shows teachers of all grades and disciplines how to use these tools to improve instruction and generate significant positive changes in students' cognitive development and classroom performance. Expert David Hyerle describes three basic types of visual tools: brainstorming webs that nurture creativity, graphic organizers that build analytical skills and help process specific content, and concept maps that promote cognitive development and critical thinking. Updated with new research and applications for three kinds of Thinking Maps, this essential resource expands teacher skills with practical guides for using each type of tool. Presents recent research on effective instructional strategies, reading comprehension, and how the brain works. Includes templates, examples, and more than 70 figures that show classroom applications. By utilizing these powerful brain-compatible learning aids, teachers can help students strengthen higher-order thinking skills, master content, and conceptual knowledge.
