Multilingual Learners and Academic Literacies Daniella Molle,Edynn Sato,Timothy Boals,Carol A.
 Hedgpeth,2015-03-05 Shifting the discourse from a focus on academic language to the more dynamic but less researched
 construct of academic literacies this volume addresses three key questions What constitutes academic literacy What does
 academic literacy development in adolescent multilingual students look like and how can this development be assessed What
 classroom contexts foster the development of academic literacies in multilingual adolescents The contributing authors
 provide divergent definitions of academic literacies and use dissimilar theoretical and methodological approaches to study
 literacy development Nevertheless all chapters reflect a shared conceptual framework for examining academic literacies as
 situated overlapping meaning making practices This framework foregrounds students participation in valued disciplinary
 literacy practices Emphasized in the new college and career readiness standards the notion of disciplinary practices allows
 the contributing authors to bridge the language content dichotomy and take a more holistic as well as nuanced view of the
 demands that multilingual students face in general education classrooms The volume also explores the implications of the
 emphasis on academic literacy practices for classroom instruction research and policy *The Big Book of Tasks for English
 Language Development, Grades K-8* Nancy Akhavan,2024-02-29 This title examines how teaching multilingual learners
