A Research Guide to the Ancient World John M. Weeks, Jason de Medeiros, 2014-11-25 The archaeological study of the ancient world has become increasingly popular in recent years A Research Guide to the Ancient World Print and Electronic Sources is a partially annotated bibliography The study of the ancient world is usually although not exclusively considered a branch of the humanities including archaeology art history languages literature philosophy and related cultural disciplines which consider the ancient cultures of the Mediterranean world and adjacent Egypt and southwestern Asia Chronologically the ancient world would extend from the beginning of the Bronze Age of ancient Greece ca 1000 BCE to the fall of the Western Roman Empire ca 500 CE This book will close the traditional subject gap between the humanities Classical World Egyptology and the social sciences anthropological archaeology Near East in the study of the ancient world This book is uniquely the only bibliographic resource available for such holistic coverage The volume consists of 17 chapters and seven appendixes arranged according to the traditional types of library research materials bibliographies dictionaries atlases etc The appendixes are mostly subject specific including graduate programs in ancient studies reports from significant archaeological sites numismatics and paleography and writing systems These extensive author and subject indexes help facilitate ease of use

The History of Visual Magic in Computers Jon Peddie, 2013-06-13 If you have ever looked at a fantastic adventure or science fiction movie or an amazingly complex and rich computer game or a TV commercial where cars or gas pumps or biscuits behaved liked people and wondered How do they do that then you ve experienced the magic of 3D worlds generated by a computer 3D in computers began as a way to represent automotive designs and illustrate the construction of molecules 3D graphics use evolved to visualizations of simulated data and artistic representations of imaginary worlds In order to overcome the processing limitations of the computer graphics had to exploit the characteristics of the eye and brain and develop visual tricks to simulate realism The goal is to create graphics images that will overcome the visual cues that cause disbelief and tell the viewer this is not real Thousands of people over thousands of years have developed the building blocks and made the discoveries in mathematics and science to make such 3D magic possible and The History of Visual Magic in Computers is dedicated to all of them and tells a little of their story It traces the earliest understanding of 3D and then foundational mathematics to explain and construct 3D from mechanical computers up to today s tablets Several of the amazing computer graphics algorithms and tricks came of periods where eruptions of new ideas and techniques seem to occur all at once Applications emerged as the fundamentals of how to draw lines and create realistic images were better understood leading to hardware 3D controllers that drive the display all the way to stereovision and virtual reality

Assistance Dogs for People With Disabilities Emily Patterson-Kane, Lynette Arnason Hart, Mariko Yamamoto, 2020-08-21

BLM Mike Gonzalez, 2021-09-07 The George Floyd riots that have precipitated great changes throughout American society were not spontaneous events Americans did not suddenly rise up in righteous anger take to the

streets and demand not just that police departments be defunded but that all the structures institutions and systems of the United States all supposedly racist be overhauled The 12 000 or so demonstrations and 633 related riots that followed Floyd's death took organizational muscle The movement's grip on institutions from the classroom to the ballpark required ideological commitment That muscle and commitment were provided by the various Black Lives Matter organizations This book examines who the BLM leaders are delving into their backgrounds and exposing their agendas something the media has so far refused to do These people are shown to be avowed Marxists who say they want to dismantle our way of life Along with their fellow activists they make savvy use of social media to spread their message and organize marches sit ins statue tumbings and riots In 2020 they seized upon the video showing George Floyd's suffering as a pretext to unleash a nationwide insurgency Certainly no person of good will could object to the proposition that black lives matter as much as any other human life But Americans need to understand how their laudable moral concern is being exploited for purposes that a great many of them would not approve *Pindar: Oxford Bibliographies Online Research Guide* Mary R. Lefkowitz, 2010-05 This ebook is a selective guide designed to help scholars and students of the ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In classics as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is just one of many articles from Oxford Bibliographies Online Classics a continuously updated and growing online resource designed to provide authoritative guidance through the scholarship and other materials relevant to the study of classics Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com *Open Innovation* Anne-Laure Mention, 2016 Open Innovation A Multifaceted Perspective unveils research on open innovation from multidisciplinary perspectives and with practical insights from leaders and policy makers The first section addresses the links between open innovation and various disciplines methods concepts and policy instruments The second section reviews selectively the literature focusing essentially on open service innovation and innovation in financial services industries It also explores different forms and types of practices reflecting the adoption and implementation of open innovation The third section focuses on the management of open innovation paying specific attention to the individual intra and inter organizational levels Provided by publisher *A Practical Guide to the Science and Practice of Afterschool Programming* Joseph L. Mahoney, Gina Warner, 2015-01-12 Closing the gap between scientific

research on afterschool programming and the practices occurring in these settings is the goal of this volume Both sources of knowledge are critical to developing the afterschool workforce's ability to provide high quality programming On the one hand this means afterschool staff should not work with young people until they have been adequately prepared which includes training in evidence based practices and properly supervised On the other hand it requires that scientists understand and study those aspects of afterschool programming most relevant to the needs of practitioners This volume includes perspectives from the afterschool workforce scientists who discuss the current research and the practitioners who know how afterschool programs operate in practice This is the 144th volume of New Directions for Youth Development the Jossey Bass quarterly report series dedicated to bringing together everyone concerned with helping young people including scholars practitioners and people from different disciplines and professions

Creating Our Identities in Service-Learning and Community Engagement Shelley H. Billig, Barbara A. Holland, Barbara E. Moely, 2009-11-01 In this volume in the IAP series on Advances in Service Learning Research top researchers present recent work studying aspects of program development student and community outcomes and future research directions in the field of service learning and community engagement These chapters selected through a rigorous peer review process are based on presentations made at the annual meeting of the International Research Conference on Service Learning and Community Engagement held in October 2008 in New Orleans This volume features efforts in research and practice to support and expand service learning and engaged scholarship in both K 12 and higher education Models of effective partnerships between institutions of higher education and their community partners are developed in chapters looking at relationships between campus and community in terms of partnership identity or in terms of shared understanding by campus and community partners Outcomes for K 12 and college students engaged in service learning are the focus of several studies The impact of high quality service learning on K 12 student achievement and school related behaviors is described Racial identity theory provides a useful frame for understanding developing student conceptualizations while another chapter emphasizes aspects of self exploration and relationship building as bases for gains in student attitudes and skills In a final section chapters deal with service learning and community engagement as a coherent research field with a distinct identity reviewing current work and proposing directions for future research
