

Banned Books Research Paper and Presentation-10 Honors

Task:

Choose a novel that our class has not or will not read this school year. This novel should be on the ALA's Top 100 Banned Books list that the class has gone over. Each student is required to read a novel on the list, research why it is banned, and in essay form, report his/her findings. **This essay must be research-based. *The book must be in one of the Howard County Public Schools' libraries for it to be approved*.**

Nuts/Bolts:

- 5-6 pages in length
- Double-spaced
- 12 point font
- Times New Roman
- Adhere to MLA Handbook for Writers of Research Papers (latest Edition)

Research Guidelines for HONORS:

SOURCES:

At least:

- 1 Book in addition to your novel
- 2 Periodicals (journals, magazines, publications – can be found online)
- 3 Websites (no wikipedia, no blogs)
- Include a minimum of two citations per typed page. In addition, include very detailed, controversial quotations from the novel, in the essay.

This is an argument essay. You will make a claim. Your claim might be *Censorship is unconstitutional, and is never justified.* Or perhaps, your claim may be that *Censorship, in some situations, is justified.* Your research paper will present evidence supporting your claim, as well as counterclaims that you should be prepared to disprove. Each student must adequately present both sides of the issue. The novel you select to read will serve as your primary example on which you should base your claim. For example: Please do not tell me why you believe *The Catcher in the Rye* should or should not be banned. You should research why/where it is banned, as well as why it is considered a valuable piece of literature that continues to appear on school reading lists. **Each student must not show his/her own opinion in the paper. Remember, you will present evidence in the form of facts. You are not to use personal pronouns in this paper.**

Works Cited:

A detailed works cited page is required. You will be required to complete this on easybib.com, noodletools.com, or any other reliable online site. I encourage you to take advantage of the technology that exists. **Be aware that a Works Cited page is more than just copying down the URL.**

- No footnotes
- No endnotes
- A sample works cited page will be provided for guidance

Ban Chiang, Northeast Thailand,
Volume 2B Joyce C. White, Elizabeth G. Hamilton, 2019-01-24 The foundation of archaeometallurgy is the study of excavated assemblages of metals and related remains This volume presents in detail how the metals and such remains as crucibles excavated from four sites in northeast Thailand have been studied to understand the place of metal objects and technology in the ancient past of this region In addition to typological examination hundreds of technical analyses reveal the technological capabilities preferences and styles of metal artifact manufacturers in this part of Thailand Detailed examination of contexts of recovery of metal remains employing a life history approach indicates that metal objects in those societies were used primarily in daily life and only occasionally as grave goods The most surprising find is that casting of copper base artifacts to final form took place at all these village sites during the metal age period indicating a decentralized final production stage that may prove to be unusual for metal age societies These insights are made possible by applying the methods and theories introduced in the first volume of the suite of volumes that study the metal remains from Ban Chiang in regional context Thai Archaeology Monograph Series 2B University Museum Monograph 150 *Technical Problems and the Geneva Test Ban Negotiations* United States.
