

African American Resiliency Before and After the American Civil War

Throughout the history of the United States, African Americans have demonstrated tremendous resiliency in the face of oppression and racism. *The Underground Railroad*, *Never Caught*, and “12 Years a Slave” exemplify this resiliency in the antebellum era, whereas *To Joy My Freedom*, *The Color Purple*, and “Slavery by Another Name” illustrate this resiliency after the American Civil War. Solomon Northup and Oney Judge demonstrated resiliency in the Antebellum era by staying emotionally strong and hopeful as enslaved people. Similarly, the slaves on the Randall plantation in *The Underground Railroad* connected with one another through dance while facing the inhumane conditions of slavery. After the American Civil War, *To Joy My Freedom* illustrated that African Americans expressed themselves despite an oppressive and racist society by continuing to value black culture. “Slavery by Another Name” showed that African Americans unionized to further the progress of equality of African Americans, and Sofia from *The Color Purple* demonstrated resiliency following her wrongful prison sentence. African Americans continued to endure racism and oppression after the Civil War and demonstrated tremendous resiliency by staying hopeful, valuing culture, and rebounding quickly from struggles throughout American history.

Slavery in the southern United States was common in the Antebellum era and forced hundreds of thousands of African Americans into involuntary labor. The early chapters of *The Underground Railroad* depict the “typical” experience of a plantation slave and illustrate the daily suffering that they endured. Men, women, and children on the Randall plantation were subjected to unsanitary living conditions, poor diets, inhumane working conditions, beatings, sexual assault, and more in the system of slavery. Despite these conditions, the slaves on the

It combines a historical overview of key personalities and movements with essays on specific facets of the African American experience, a chronology of events, and a guide to further study. From publisher description. *What is African American History?* Pero Gaglo Dagbovie, 2015-06-04 Scholarship on African American history has changed dramatically since the publication of George Washington Williams' pioneering *A History of the Negro Race in America* in 1882. Organized chronologically and thematically, *What is African American History* offers a concise and compelling introduction to the field of African American history as well as the black historical enterprise past, present, and future. Pero Gaglo Dagbovie discusses many of the discipline's important turning points, subspecialties, defining characteristics, debates, texts, and scholars. The author explores the growth and maturation of scholarship on African American history from late nineteenth and early twentieth centuries until the field achieved significant recognition from the mainstream U.S. historical profession in the 1970s. Subsequent decades witnessed the emergence and development of key theoretical approaches, controversies, and dynamic areas of concentration in black history: the vibrant field of black women's history; the intriguing relationship between African American history and Black Studies; and the imaginable future directions of African American history in the twenty-first century. *What is African American History* will be a practical introduction for all students of African American history and Black Studies. *African American History Reconsidered* Pero Gaglo Dagbovie, 2010 This volume establishes new perspectives on African American history. The author discusses a wide range of issues and themes for understanding and analyzing African American history: the 20th century African American historical enterprise and the teaching of African American history for the 21st century.

Encyclopedia of African American History Leslie M. Alexander, Walter C. Rucker, 2010-02-09 A fresh compilation of essays and entries based on the latest research, this work documents African American culture and political activism from the slavery era through the 20th century. Encyclopedia of African American History introduces readers to the significant people, events, sociopolitical movements, and ideas that have shaped African American life from earliest contact between African peoples and Europeans through the late 20th century. This encyclopedia places the African American experience in the context of the entire African diaspora, with entries organized in sections on African-European contact and enslavement, culture, resistance, and identity during enslavement, political activism from the Revolutionary War to Southern emancipation, political activism from Reconstruction to the modern Civil Rights movement, black nationalism and urbanization, and Pan-Africanism and contemporary black America. Based on the latest scholarship and engagingly written, there is no better go-to reference for exploring the history of African Americans and their distinctive impact on American society, politics, business, literature, art, food, clothing, music, language, and technology.

Interpreting African American History and Culture at Museums and Historic Sites Max A. van Balgooy, 2014-12-24 In this landmark guide, nearly two dozen essays by scholars, educators, and museum leaders suggest the next steps in the interpretation of African American history and culture from the colonial period to the twentieth century at history museums and historic sites. This diverse anthology addresses both historical research and interpretive methodologies, including investigating church and legal records, using social media, navigating sensitive or difficult topics, preserving historic places, engaging students and communities, and strengthening connections between local and national history. Case studies of exhibitions, tours, and school programs from around the country provide practical inspiration, including photographs of projects and examples of exhibit label text. Highlights include Amanda Seymour discussing the prevalence of false nostalgia at the homes of the first five presidents and offering practical solutions to create a more inclusive, nuanced history; Dr. Bernard Powers revealing that African American church records are a rich but often overlooked source for developing a more complete portrayal of individuals and communities; Dr. David Young, executive director of Cliveden, using his experience in reinterpreting this National Historic Landmark to identify four ways that people respond to a history that has been too often untold, ignored, or appropriated, and how museums and historic sites can constructively respond; Dr. Matthew Pinsker explaining that historic sites may be missing a huge opportunity in telling the story of freedom and emancipation by focusing on the underground railroad rather than its much bigger upper ground counterpart; Martha Katz Hyman tackling the challenges of interpreting the material culture of both enslaved and free African Americans in the years before the Civil War by discussing the furnishing of period rooms; Dr. Benjamin Filene describing three micro public history projects that lead to new ways of understanding the past, handling source limitations, building

partnerships and reaching audiences Andrea Jones shares her approach for engaging students through historical simulations based on the Fight for Your Rights school program at the Atlanta History Center A exhibit on African American Vietnam War veterans at the Heinz History Center not only linked local and international events but became an award winning model of civic engagement A collaboration between a university and museum that began as a local history project interpreting the Scottsboro Boys Trial as a website and brochure ended up changing Alabama law A list of national organizations and an extensive bibliography on the interpretation of African American history provide convenient gateways to additional resources
