Paper Example: Enhancing Communication Skills for Academic and Professional Success Essay

Introduction

Communication is an essential process that makes it easy for individuals to pass ideas from one person to another. Both academic and professional development rely significantly on our ability to communicate our views to one another. Students get different grades in the same paper because they have different abilities to deliver the points to the examiners. When employers interview candidates for a particular position, they mainly look at how effectively the applicants can communicate. Those who can communicate most effectively have a high chance of improving in their fields.

Whether the communication is in verbal, non-verbal, or written form, its effectiveness is crucial. Excellent communication skills bring about the traits that most employers look at when recruiting workers. An excellent communicator will always be able to socialize well with other workers, and therefore it is easy for them to embrace teamwork. Additionally, people who can communicate effectively are also excellent problem solvers. In our workplace, communication makes it easy to solve issues that may arise between other employees and us. Therefore, when one is an excellent communicator, they have a high chance of growing in academics and professions. Through communication class, I have learned some useful elements of organizational communication. My most appealing insights from the study are the importance of effective corporate communication, face-to-face communication, and excellent listening skills.

Communication in the Workplace

Organizational communication effectiveness has remained essential even in the modern world where there are fast means of sending messages. For effective internal communication, there is a need to avoid all issues that might lead to unclear communication between the employees and the management. Where communication in the organization is useful, it is easy for the organization to succeed. An effective communication system in an organization makes workers remain happy (Chmielecki, 2015). acquiring knowledge of important internal communication has caused me to grow in my profession since I can now secure jobs with ease. I am now ready to prove my professionalism when seeking employment.

Chmielecki further added that effective internal communication is an essential element of management. It is an internal communication that makes it easy for employees to understand the organization's goals and objectives and, therefore, makes them more productive (Chmielecki, 2015). Employees who can get information from their employers are practically motivated and generate the best results. Learning the importance of effective internal communication for effective human resource management has improved my communication skills.
