ABSTRACT

The purpose of this study was to determine the effectiveness of various teaching methods used for teaching students at graduate level. Reasons included; teacher provides all knowledge related to topic, time saving, students attentively listen lecture and take notes etc. The group discussion was rated as the second best method of teaching because of, more participation of students, the learning is more effective, the students don't have to rely on rote learning, and this method develops creativity among students etc. Students' perception and ratings about the interesting and effective teaching methods is a way to suggest improvements in teaching/ learning process.

This same criterion was also put forth by Thomas Angelo, when he said, "teaching in the absence of learning is just talking." Doyle.T. (n.d.). A teacher's effectiveness is again about student learning.

The literature on teaching is crammed full of well researched ways that teachers can present content and skills that will enhance the opportunities for students to learn. It is equally filled with suggestions of what not to do in the classroom. However, there is no rule book on which teaching methods match up best to which skills and/or content that is
