Topic: Literature | Words: 959 | Pages: 3

The novel *Pride and Prejudice* written by Jane Austen are considered to be a significant contributor to the world of literature made in 1813. It is important to stress that Jane Austen finished her work in 1797 when she was only twenty-one. The novel has rich historical value because it underwent two attempts of entering the literature world being named *First Impressions*. **The themes of human social standing and morality being closely interacted with historical factors are the principal elements of the novel; though it was published at the beginning of the 19th century, the novel managed to reflect the influence of 18th-century history and national culture of this period.**

The novel *Pride and Prejudice* is a reflection of time. It touched on the basic problem concepts of morality such as pride, misunderstanding, or misinterpretation. It should be noted that British society of that period faced the impact of proper etiquette formation and social standing. The author could not but reflected these elements in the novel; it is difficult to describe the possible flow of events and characters' behavior in case the novel was written several years earlier. The features of the 18th century when British society, to be more exact its upper classes faced the process of socializing, were clearly defined in the novel.

Jane Austen tried to show the basic characteristics of the epoch she lived in. The novel states that the upper classes' way of life was merely focused on the socialization opportunities rather than just working to provide a good level of life for the families. Understanding Pride and Prejudice Debra Teachman, 1997-11-13 This is the only book about Pride and Prejudice to combine both analysis of the novel and excerpts from significant primary documents of Austen's own time. These materials will help the reader to understand the complexities of both the novel and English society at the beginning of the 19th century and to compare those issues to contemporary society. Teachman provides commentary and primary materials on inheritance, marriage, and women's roles in society at the time of Austen's life. Excerpts from 18th and 19th century etiquette books, moral treatises, histories of women, legal documents, and commentary, newspapers, magazines, and collections of letters provide evidence of the social and legal differences between Austen's time and our own, enabling the reader to understand the legal, historical, social, and cultural context of the novel. Each section of this casebook contains study questions, topics for research papers, and class discussions, and lists of further reading for examining the issues raised by the novel. The plot of Pride and Prejudice turns on three aspects of early 19th century English society: marriage as a social institution, inheritance laws, and customs, and acceptable roles for women. Following a literary analysis of the novel, the casebook contains documents and commentary on the following topics: inheritance and marriage laws and customs; 18th century views on marriage; the status of unmarried women; women's education and moral training; and issues in the 1880s and 1890s that can be contrasted with those in the novel. These documents illustrate the social and legal differences between Austen's time and our own that enable the reader to fully understand the archaic details of the novel. They also indicate the continuities between Austen's time and ours in their emphases on love, marriage, the importance of property, and arguments about the role of women. Among the documents are excerpts from Samuel Johnson, Daniel Defoe, William Godwin, Mary Wollstonecraft's advice from a mother to her absent daughters, and a number of letters on the proper role of women, their education, and moral training. The final chapter of this book brings into focus the relevancies of Austen's fiction to present day readers and provides discussion of many of the issues of the novel as they are handled by law and the media at the end of the 20th century. This is an ideal companion for teacher use and student research in interdisciplinary English history and English literature courses.
