

Research Paper Proposal Sample

A research proposal considers your overall topic ideas, your research question, your research process, and your sources and scaffolds what the next steps will be for the project. Many disciplines require written proposals before an experiment can be run, before a presentation can be made, before a seminar paper can be written. Research proposals can vary in length depending on the scale and scope of the project at hand. However, in general, all share certain conventions: framing of the project or contextualization or putting the project in context or conversation with other research; a tentative thesis or claim or hypothesis; an approach or methodology; target audience; tentative sources or references. Depending on the academic discipline, a research proposal may include other required features.

For example, the following is a one-page seminar paper proposal for a literature class:

Paper Proposal: 'You Looks Like Youse Yo' Own Daughter': Figuring (In)fertility and Maternity in *Their Eyes Were Watching God*

Although critical responses to Hurston's *Their Eyes Were Watching God* have focused extensively on both sexuality and images of fecundity in the text, analyses that fully address fertility and maternity in the novel are as strangely absent from the critical literature as the presumable fact of Janie's reproductive capacity is from the text itself. Unlike Nella Larsen's roughly contemporary novel *Quicksand*, Hurston not only seems to deny the notion that marriage is death for women, she also disrupts the traditional association of marriage with pregnancy/childbirth (McDowell xxi). It is unclear whether Hurston took this non-approach to Janie's fertility in the novel as a means of disequating marriage and childbirth, or simply because pregnancy and maternity did not figure in the story she wanted to tell. However, the novel's emphasis on fertility in nature and sexuality renders this textual absence particularly problematic.

The proposed paper will begin with an examination of the ample fertility imagery in the novel. Janie's early conflation of fertility in nature, sexual desire, and marriage will be discussed, followed by the role that sexuality plays in each of her marriages. Then, the textual absence of Janie's reproductive fertility will be addressed, as well as a discussion of whether this textual absence is evidence of the novel's failed realism, as some critics have suggested, or a byproduct of the idealization of the world of the novel. A short discussion of the trope of textual absence or elision of conception and pregnancy in the works of several African American women writers will also be included.

Although I have not yet fully formulated the theoretical framework I will use to account for the problematic treatment of Janie's fertility in the novel, the textual elements that I am planning to discuss will be the extended mule metaphor/imagery (with its implications of sterility) and the depiction of other maternal relationships in the novel (particularly those of Nanny and Leafy to both each other and to Janie). Finally, I will relate the treatment of maternity and fertility in the novel with the overarching theme of Janie's quest for fulfillment/selfhood/voice/independence/embodiment.

Several extensive searches of the critical literature addressing *Their Eyes* have failed to reveal any full-length articles addressing the textual absence of Janie's fertility. The articles listed below address various aspects of sexuality and sexual autonomy, marriage, and fertility imagery in the novel.

How to Write a Research Paper: A Guide Book for Neophyte Students Dr. Rashmee Yadav, 2023-02-14

ABOUT THE BOOK The book *How to write a Research Paper Guide* book for neophyte students composed by three youngsters Dr Rashmee Yadav, Dr Brij Vikash Singh and Dr Mithesh Verma is a fantastic effort in this direction. They have covered almost all the areas of research paper writing process and how to write a research paper etc. The book is based on the research paper writing process. The author's main focus on this book is *How to write a Research Paper Guide Book for the neophyte students*. This book is helpful to students writing research paper in proper way because plenty of research papers are written every year. But in many of them, research methodology aspect is not given a considerable attention and because of which the research papers end up in just being endless words containing stories leading to less or no sense. It should be noted that the quality in research articles comes from the extensive planning and in-depth research before starting writing them actually. This is true even for management research papers. Writing a research paper analyzes a perspective or argues a point. Regardless of the type of research paper the researcher is writing, the researcher should present his own thinking backed up by others' ideas and information. Research paper as a result of the research in the teaching of writing discussions with colleagues and own experiences, we have developed a detailed approach to writing research papers and the approach is presented here. Instead of focusing on one research paper, we have focused on the process of research writing through a series of shorter writing exercises. Students begin by having to carefully think about a topic of research and by developing a working idea. They then write a series of shorter essays that explore that topic. All along the way, students are continuing to research and revise their working proposal so that by the end of the term, their thinking about their original topic of research has evolved. This book is part of *The International Student's Guide to Writing a Research Paper* by Janine Carlock, Maeve Eberhardt, Jaime Horst, Peter Kolenich, 2017-06-13.
