Camp Colman Hogan,Marta Marin-Dòmine,2021-02-03 The camp is nothing if not diverse in kind scope and particularity in sociological and juridical configuration in texture iconography and political import Adjectives of camp specificity embrace a spectrum from extermination and concentration to detention migration deportation and refugee camps And while the geographic range covered by contributors is hardly global it is broad Chile Rwanda Canada the US Central Europe Morocco Algeria South Africa France and Spain And yet is to so characterize the camp to run the risk of diffusing what in origin is a concentration into a paratactical series of identity particularisms While The Camp does not seek to antithetically promulgate a universalist vision it does aim to explore the imbrication of the particular and the universal to analyze the structure of a camp or camps and to call attention the role of the listener in the construction of the testimony For by naming what cannot be said is not every narrative of internment and exclusion a potential site of agency articulating the inner splitting of language that Giorgio Agamben defines as the locus of testimony to bear witness is to place oneself in one s own language in the position of those who have lost it to establish oneself in a living language as if it were dead or in a dead language as if it were living New Microhistorical Approaches to an Integrated History of the Holocaust Frédéric Bonnesoeur,Hannah Wilson,Christin Zühlke,2023-11-06 In 1997 Saul Friedländer emphasized the need for an integrated history of the Holocaust His suggestion to connect the policies of the perpetrators the attitudes of surrounding society and the world of the victims provides the inspiration for this volume Following in these footsteps this innovative study approaches Holocaust history through a combination of macro analysis with micro studies Featuring a range of contemporary research from emerging scholars in the field this peer reviewed volume provides detailed engagement with a variety of historical sources such as documents artifacts photos or text passages The contributors investigate particular aspects of sound materiality space and social perceptions to provide a deeper understanding of the Holocaust which have often been overlooked or generalised in previous historical research Yet as we approach an era of no first hand witnesses this multidisciplinary micro historical

approach remains a fundamental aspect of Holocaust research and can provide a theoretical framework for future studies

President, 1981 Containing the public messages speeches and statements of the President 1956 1992 *Conceptualizing Mass Violence* Navras J. Aafreedi, Priya Singh, 2021-05-13 *Conceptualizing Mass Violence* draws attention to the conspicuous inability to inhibit mass violence in myriads forms and considers the plausible reasons for doing so Focusing on a postcolonial perspective the volume seeks to popularize and institutionalize the study of mass violence in South Asia The essays explore and deliberate upon the varied aspects of mass violence namely revisionism reconstruction atrocities trauma memorialization and literature the need for Holocaust education and the criticality of dialogue and reconciliation The language content and characteristics of mass violence genocide explicitly reinforce its aggressive transmuting and multifaceted character and the consequent necessity to understand the same in a nuanced manner The book is an attempt to do so as it takes episodes of mass violence for case study from all inhabited continents from the twentieth century to the present The volume studies consciously enforced mass violence through an interdisciplinary approach and suggests that dialogue aimed at reconciliation is perhaps the singular agency via which a solution could be achieved from mass violence in the global context The volume is essential reading for postgraduate students and scholars from the interdisciplinary fields of Holocaust and Genocide Studies History Political Science Sociology World History Human Rights and Global Studies **Encyclopedia of Case Study Research** Albert J. Mills, Gabrielle Durepos, Elden Wiebe, 2009-10-21 Case study research has a long history within the natural sciences social sciences and humanities dating back to the early 1920 s At first it was a useful way for researchers to make valid inferences from events outside the laboratory in ways consistent with the rigorous practices of investigation inside the lab Over time case study approaches garnered interest in multiple disciplines as scholars studied phenomena in context Despite widespread use case study research has received little attention among the literature on research strategies The *Encyclopedia of Case Study Research* provides a compendium on the important methodological issues in conducting case study research and explores both the strengths and weaknesses of different paradigmatic approaches These two volumes focus on the distinctive characteristics of case study research and its place within and alongside other research methodologies Key Features Presents a definition of case study research that can be used in different fields of study Describes case study as a research strategy rather than as a single tool for decision making and inquiry Guides rather than dictates readers understanding and applications of case study research Includes a critical summary in each entry which raises additional matters for reflection Makes case study relevant to researchers at various stages of their careers across philosophic divides and throughout diverse disciplines Key Themes Academic Disciplines Case Study Research Design Conceptual Issues Data Analysis Data Collection Methodological Approaches Theoretical Traditions Theory Development and Contributions From Case Study Research Types of Case Study Research *Literate Lives in the Information Age* Cynthia L.

Selfe, Gail E. Hawisher, 2004-07-21 This book chronicles the development of electronic literacies through the stories of individuals with varying backgrounds and skills. Authors Cynthia L. Selfe and Gail E. Hawisher employ these stories to begin tracing technological literacy as it has emerged over the last few decades within the United States. They selected 20 case studies from the corpus of more than 350 people who participated in interviews or completed a technological literacy questionnaire during six years of their study. The book is organized into seven chapters that follow the 20 participants in their efforts to acquire varying degrees of technological literacy. Each chapter situates the participant's life history accounts in the cultural ecology of the time, tracing major political, economic, social, and educational events, factors, and trends that may have influenced and been influenced by literacy practices and values. These literacy histories are richly sown with information that can help those in composition and writing studies situate the processes of acquiring the literacies of technology in specific cultural, material, educational, and familial contexts. These case studies provide initial clues about combinations of factors that affect and are affected by technological literacy acquisition and development. The first-hand accounts presented here offer in abundant detail everyday literacy experiences that can help educators, parents, policymakers, and writing teachers respond to today's students in more informed ways.

The Memorialization of Genocide Simone Gigliotti, 2017-10-02 Divided societies, tormented pasts, and unrepentant perpetrators. Why are some countries more intent on vanquishing uncomfortable pasts than others? How do public and often unsightly attempts at memorialisation both fail the victims and valorize their oppressors? This book offers fresh and original perspectives on dictatorship, fascism, and victimization from the bloodiest decades in Europe's, Australia's, and Central America's colonial and modern history. Chapters include analyses of Francoist memorials in Spain, assessments of the El Mozote massacre in El Salvador, the forgetting of frontier colonial violence in Tasmania, Romania's treatment of its Roma populations in the midst of Holocaust memorialisation in Bucharest's urban development, and whether or not the Holocaust continues to serve as an instructional model or impossible aspiration for cross-cultural genocide memorialisation strategies. In an era of ongoing political, ethnic, and religious conflict and unrepentant insurgent activity around the world, this collection reminds readers that genocidal actions, wherever and whenever they occurred, must be held to account by more than rhetoric and concrete memory. This book was originally published as a special issue of the *Journal of Genocide Research*.
