Residency Review Committee European Board Of Ophthalmology:

Exploring the Role of Accreditation in Enhancing Quality and Innovation in Health Professions Education

National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Global Health, Global Forum on Innovation in Health Professional Education, 2017-04-07 The purpose of accreditation is to build a competent health workforce by ensuring the quality of training taking place within those institutions that have met certain criteria It is the combination of institution or program accreditation with individual licensure for confirming practitioner competence that governments and professions use to reassure the public of the capability of its health workforce Accreditation offers educational quality assurance to students governments ministries and society Given the rapid changes in society health and health care the National Academies of Sciences Engineering and Medicine hosted a workshop in April 2016 aimed to explore global shifts in society health health care and education and their potential effects on general principles of program accreditation across the continuum of health professional education Participants explored the effect of societal shifts on new and evolving health professional learning opportunities to best ensure quality education is offered by institutions regardless of the program or delivery platform This publication summarizes the presentations and discussions from the workshop

Index Medicus, 2004 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings **Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)** Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events

Encyclopedia of Health Care Management Michael J. Stahl, 2003-10-21 The most comprehensive one volume reference work on health care management published in the last 10 years this work brings together much useful information and will appeal to a broad audience Health science libraries college libraries and large public libraries will want to invest in this title BOOKLIST This volume should be considered by academic and public libraries with large healthcare management or business collections as the only current reference on this topic LIBRARY JOURNAL The Encyclopedia of Health Care Management would be useful for those involved in any aspect of health care whether as a student instructor practitioner researcher or administrator This book would be of great use in reference collections at public university hospital and corporate libraries E STREAMS Health care is one of today's most discussed and debated topics From issues such as accessibility to costs to quality the debates range widely among doctors patients employers and insurers A popular topic in political campaigns and the media health care and health care management is also a quiet and unremitting concern in the private and personal lives of individuals who worry about someday having to choose between food and prescription drugs For this reason in today's health care industry good business practices may be as important as the practice of medicine in assuring the continued health of the industry The Encyclopedia of Health Care Management will prove invaluable to libraries serving students and professionals in health and business It will also be an essential reference for physicians providers and

their employees and students and professors in health and management for responsible and successful practice and administration in the health care industry This encyclopedia is the most comprehensive reference work on the business of health care with up to date information across a broad range of issues affecting every aspect of the industry and the people it serves employs and influences Key Features The most comprehensive reference work on health care management Broad range of timely topics spanning academic corporate and governmental arenas Over 600 entries More than 160 expert contributors in the fields of medicine public health and business Tables on Health Care Acronyms Medical Degrees Medical Legislation Medical Organizations Medical Specialties About the Editor Michael J Stahl Ph D is Director of the Physician Executive MBA Program and Distinguished Professor of Management in the College of Business at the University of Tennessee Knoxville Dr Stahl received his B S in Electrical Engineering from the State University of NY at Buffalo and his Ph D in Management from Rensselaer Polytechnic Institute From 1982 1989 Stahl was Head of the Management Department at Clemson University He was Associate Dean in the College of Business at the University of Tennessee from 1989 1997 Dr Stahl has published over 50 journal articles in a variety of areas including Strategic Management TQ and healthcare as well as twelve books including Strategic Management Perspectives in TQ and The Physician s Essential MBA He teaches strategy and business planning in the Physician EMBA Taiwan EMBA and MBA Programs Recommended Libraries Academic Public Special Private Corporate

Clinical Practice in Small Incision Cataract Surgery Luther L. Fry,Ashok Garg,Francisco Guitérrez-Camona,Suresh K. Retaining Women in Engineering Robert Stavig,Alissa Stavig,2022-11-22 Diversity drives better business results however despite decades of effort women make up only 15% of engineers Retaining Women in Engineering The Empowerment of Lean Development approaches the problem of women leaving engineering from a systems level perspective to change the way engineering is done and level the playing field between men and women This book utilizes the six principles of Lean Development and draws from the learnings of the field of medicine recognizing that access to a vast amount of written knowledge is an important part of a physician s learning process Using these principles the book provides leaders with concrete strategies and methods to change the way engineering is done and learning occurs Integrated within the book are gray box stories which describe two different worlds that engineers work in that of traditional development and that of Lean Development These stories underscore the way that the gender confidence gap bias and stereotypes affect a female engineer s career Additionally the book highlights how the methods of Lean Development strengthen an individual s ability to control their learning and career and a leader s ability to coach others more effectively Ultimately this results in more capable teams Furthermore not unlike the marine chronometer a clock which solved the centuries old challenge of establishing the longitudinal location for a ship at sea this book finds the clock that levels the playing field between men and women This book will help leaders at every level within an engineering firm as well as women engineers and managers who want to grow to their full potential and others who care about gender equity

Teaching and Learning in Medical and Surgical Education Linda H. Distlehorst,Gary L. Dunnington,J. Roland Folse,2000-04-01 The idea for this book was originally conceived by Terrill Mast in conversations with Roland Folse Dr Mast was dedicated to the belief that all medical teachers should be generalists with

skills and knowledge in all aspects of the field Before his untimely death he recruited most of the prestigious contributors to this important new book This comprehensive volume features a review of the major topics in medical and surgical education by today s leading authorities in the field The assembled authors represent a Who s Who in medical education around the world Each chapter provides a state of the art overview of the topic along with the projected changes most likely to occur over the next decade A must have for anyone responsible for educating students residents and physicians in the medical and surgical fields this new book addresses the critical medical educational issues of the next millennium in one comprehensive volume
