Strengthening rehabilitation in health emergency preparedness, readiness, response and resilience: policy brief World Health Organization,2023-07-07 This policy brief describes the need to integrate rehabilitation into all hazard health emergency preparedness readiness response and resilience It provides a summary of the current situation outlines existing evidence describes how existing global guidelines and resolutions support the integration of rehabilitation and proposes the steps needed to integrate rehabilitation The objective of this publication is to raise awareness of key policy and decision makers of the importance of integrating rehabilitation into emergency preparedness readiness response and resilience and to provide them with an outline of the practical steps needed in to support decision making with a strong emphasis on preparedness The

intended audience is policy makers and service leads working in the area of health emergency preparedness readiness response and resilience and service leads working in the area of rehabilitation Sustainable Cities and Resilience Indrajit Pal, Sreevalsa Kolathayar, 2021-10-25 This book presents the select proceedings of the Virtual Conference on Disaster Risk Reduction VCDRR 2021 It provides insights on urban resilience and sustainable infrastructure All the chapters in this volume are segregated into five clusters e g Resilient infrastructure in construction Innovative construction interventions Waste Management and Disaster Risk Reduction Urban Development and Sustainability and Cross cutting issues Various topics covered in this book are risk assessment prevention mitigation preparedness and response renewable energy waste management resilient cities and environmental management This book is a comprehensive volume on disaster risk reduction DRR and its management for a sustainable built environment This book will be useful for the students researchers policy makers and professionals working in the area of civil engineering especially disaster management Resilience Sandrine Robert, 2022-01-26 The articulation between persistence and change is relevant to a great number of different disciplines It is particularly central to the study of urban and rural forms in many different fields of research in geography archaeology architecture and history Resilience puts forward the idea that we can no longer be truly satisfied with the common approaches used to study the dynamics of landscapes such as the palimpsest approach the regressive method and the semiological analysis amongst others because they are based on the separation between the past and the present which itself stems from the differentiation between nature and society This book combines spatio temporalities as described in archeogeography with concepts that have been developed in the field of ecological resilience such as panarchy and the adaptive cycle Thus revived the morphological analysis in this work considers landscapes as complex resilient adaptive systems The permanence observed in landscapes is no longer presented as the endurance of inherited forms but as the result of a dynamic that is fed by this constant dialogue between persistence and change Thus resilience is here decisively on the side of dynamics rather than that of resistance **Guidelines to increase the resilience of agricultural supply chains** Food and Agriculture Organization of the United Nations, 2023-05-05 The effects of the COVID 19 pandemic on food and agriculture have been felt all over the world As the pandemic unfolded considerable attention began to be paid to the resilience of agricultural supply chains to COVID 19 related shocks as well as to natural and human induced shocks more generally These Guidelines to increase the resilience of agricultural supply chains are intended for policymakers and other stakeholders who need a broad grasp of the concepts issues and possible approaches involved Efforts to strengthen resilience to risks need to be based on a thorough analysis of the exposure and vulnerability of supply chains to them and on a cost benefit assessment of damages versus interventions In addition not all decisions can be based on commercial and economic considerations as political priorities will also play a role Governments may take the lead in setting policy priorities based on assessments of risk and resilience capacities but it is actors throughout the supply chain who are directly affected

and who need to consider business strategies and interventions to be able to adapt and transform for the future Governments play an essential role by supporting the efforts of supply chain businesses and by building general resilience through establishing an appropriate policy and institutional environment and through the investments they make in physical infrastructure in putting social protection in place and in facilitating and promoting collaboration and cooperation Enhancing general resilience against future risks is important as new risks emerge and the frequency and intensity of known risks grow with climate change and increasing pressure on natural resources

Disaster, Displacement and Resilient Livelihoods M. Financial Innovation and Resilience Lilia Costabile, Larry Neal, 2018-09-28 As Ignazio Visco Governor of the Bank of Italy says in his Foreword all economic policy makers today need to re examine our history to help them confront the challenges of today This edited volume focuses specifically on the theme of financial innovation and how financial resiliency was achieved in Naples To highlight both the achievements of the public banks of Naples and their lessons for financial resiliency the book focuses on financial crises and how they were overcome in Naples in contrast to other European financial systems The first section focuses on the development of the public banks unique to Naples The second section compares those with other banking systems and how they responded to the same shock in 1622 caused by the full mobilization of European belligerents to finance their efforts in the Thirty Years War The next section compares lessons learned in the rest of Europe over the next century and a half The final section comes back to original start of the narrative arc to suggest ways that today s policymakers and thinkers could use the historical experience of the public banks of Naples to deal better with the ongoing problems stemming from the financial crisis of 2007 08

Communities of Resistance and Resilience in the Post-Industrial City Daniel Holland, 2024-08-01 This book is about the grassroots community revitalization movement in Pittsburgh Pennsylvania and Lyon France between 1980 and 2010 an extension of the post WWII civil rights campaign that is rarely considered It tells the story of residents attempts to improve their communities through social capital or people power In positive ways citizens created vibrant attractive neighborhoods But their actions also generated unintended consequences such as high real estate prices and minority displacement that threatened to unravel their hard work Communities of Resistance and Resilience is an ethnographic survey that relies on oral histories archival research on the ground site surveys and the author s personal experience as a neighborhood reinvestment practitioner for more than 30 years It brings to life stories that would otherwise remain obscured such as the lingering impact of the March for Equality and Against Racism organized in Lyon in 1983 and the formation of the Pittsburgh Community Reinvestment Group in Pittsburgh in 1988 both of which launched national movements This is of great use to scholars of transatlantic history as well as a general audience

interested in modern social movements in the United States and France *Resilience and the EU's Eastern Neighbourhood Countries* Gilles Rouet, Gabriela Carmen Pascariu, 2019-11-21 Resilience has emerged as a key concept in EU foreign policy The policy debate around this concept has been vigorous but theoretical attempts to develop the concept are few Covering fields of strategical importance such as economic governance growth and sustainable development energy environment and climate action education the labour market and foreign affairs this book is one of the first attempts to profoundly theorise the concept of resilience in international relations by looking at several policy areas and countries Faced with multiple crises the economic crisis the Brexit referendum the refugee crisis terrorist attacks geopolitics such as events in the Ukraine and challenges with its integration process the European Union needs to become not only more intelligent more inclusive and more sustainable but also more resilient and more capable of reacting to different internal and external shocks This book integrates a systemic assessment of the regions specific shocks and risks in relation to internal vulnerabilities i e structural economic social institutional and political fragility and to their long and medium term impact on the stability security and sustainable development in the region WHO guidance for climate-resilient and environmentally sustainable health care facilities World Health Organization, 2020-10-31 The aim of this guidance is to enhance the capacity of health care facilities to protect and improve the health of their target communities in an unstable and changing climate and to empower health care facilities to be environmentally sustainable by optimizing the use of resources and minimizing the release of waste into the environment This document aims to Guide professionals working in health care settings to understand and effectively prepare for the additional health risks posed by climate change Strengthen capacity to effectively conduct surveillance of climate related diseases and monitor anticipate manage and adapt to the health risks associated with climate change Guide health care facility officials to work with health determining sectors including water and sanitation energy transportation food urban planning environment Provide tools to assist health care facility officials assess their resilience to climate change threats etc Promote actions to ensure that health care facilities are constantly and increasingly strengthened and continue to be efficient and responsive to improve health and contribute to reducing inequities and vulnerability within their local settings The targeted audience is health care facilities and health care and public health agents **Childhood Well-being and Resilience** Zeta Williams-Brown, Sarah Mander, 2020-10-29 This book examines the ways in which well being affects educational outcomes Using an ecological approach the book defines what we mean by well being and resilience in education and how this relates to policy and children and young people s rights The book considers strategies utilised by the education health voluntary and private sectors which promote well being and resilience for children and young people from the early years to adulthood This book also explores societal factors such as poverty and family well being Childhood Well being and Resilience goes on to provide examples of practice interventions inside and outside the classroom It represents a sea change in professional approaches to well being and resilience as protective factors against poor mental health It includes chapters

on key topics such as The concept of child well being resilience and the rights of the child Peer interaction and well being Social media and mental health Well being and outdoor learning Mindfulness for young children International policy and child well being This book supports professionals to increase their knowledge establish a skill set and build their confidence which can enable children and young people to develop good levels of well being and to improve their resilience Including reflective questions and case studies Childhood Well being and Resilience is essential reading for undergraduate students studying Early Childhood Studies Education Studies Teaching Awards and Family and Community Studies

Handbook of Health System Resilience Steve Thomas,Padraic Fleming,2024-09-06 In this Handbook Steve Thomas and Padraic Fleming compile invaluable and original insights on the resilience of health systems in the face of shocks and crises from economic and climate emergencies to conflicts and pandemics They examine how health system resilience has been conceptualised by scholars and applied in specific contexts assessing different theoretical models for measuring and evaluating resilience as well as highlighting the growing challenges facing health systems now and in the future

Resilient Religion, Resilience and Heartbreaking Adversity LIT Verlag,2023-01-05 A resilience theory on religion needs to answer four questions What defines the kind of adversity which is addressed in religion What is characteristic for processes of resilience in religion What defines resilient religion as outcome Which logic of inference epistemology based on our beliefs and experiences about reality binds these three elements together The book starts with mapping the field of resilience theory on religion by addressing all four questions The need for thinking about Christian resilience and the God symbol is addressed and the need to be explicitly contextual with regard to resilience in South Africa Next three types practices of religious acting are related to experiences of resilience namely preaching narrating and discerning In the last chapters the focus is on the way stories help to express feelings of experiences of crises tragedy and trauma But also how stories can help heal the broken heart Prof Chris A M Hermans is extraordinary professor in practical theology and missiology at the University of the Free State South Africa He is emeritus professor in pastoral theology at Radboud University the Netherlands and emeritus professor in empirical study of religion as Radboud University the Netherlands Prof Kobus W J Schoeman is professor of practical theology at the University of the Free State South Africa
