Dalal, Lois E. Tetrick, Julie A. Steinke, 2016-09-19 This new volume edited by industrial and organizational psychologists will look at the important topic of cyber security work in the US and around the world With contributions from experts in the fields of industrial and organizational psychology human factors computer science economics and applied anthropology the book takes the position that employees in cyber security professions must maintain attention over long periods of time must make decisions with imperfect information with the potential to exceed their cognitive capacity may often need to contend with stress and fatigue and must frequently interact with others in team settings and multiteam systems Consequently psychosocial dynamics become a critical driver of cyber security effectiveness Chapters in the book reflect a multilevel perspective individuals teams multiteam systems and describe cognitive affective and behavioral inputs processes and outcomes that operate at each level The book chapters also include contributions from both research scientists and cyber security policy makers professionals to promote a strong scientist practitioner dynamic The intent of the book editors is to inform both theory and practice regarding the psychosocial dynamics of cyber security work Performance Management Transformation Elaine D. Pulakos, Mariangela Battista, 2020-02-28 No other business process has endured such great debate as performance management Viewed as a critical cornerstone for organizational alignment it is often met with anxiety and confusion by both managers and employees For over 50 years strategies such as cascading goals and employee ranking have tried to add value to performance management with little success But in recent years new ideas have transformed the field into a less formal process designed to encourage employee behaviors that actually drive performance Performance Management Transformation takes a

practical approach to the current and future state of performance management across the organizational landscape Case studies from Toyota Patagonia Medtronic GoGo Inflight and AbbVie alongside research and commentary by thought leaders in the field showcase how organizations are taking control and redesigning their performance management processes to address their specific organizational goals strategies needs and preferences Developing Adaptive Training in the Classroom ,2009 *High-Impact Human Capital Strategy* Jack Phillips,Patricia Phillips,2015-08-26 Human Resources used to be about recruiting good people preparing them for assignments motivating them to perform and retaining them Do these things well and your well oiled machine will operate as planned But in today s turbulent and increasingly broadening economy HR must go beyond its traditional focus if a company is to also expand and become as far reaching as the times are trying to take it While the core plan of recruit prepare motivate and retain is still essential High Impact Human Capital Strategy examines 12 critical forces that must also be evaluated and maximized if a company is to continue its success including globalization changes in workforce demographics skill shortages and mismatches in labor markets environmental matters and more Readers will learn how to design human capital programs that Incorporate each of the 12 critical forces into an effective overall plan Connect with business measures Achieve positive ROI Ensure critical talent is in place Boost engagement Address work life balance and other social issues Reduce the need to outsourceComplete with case studies and step by step guidelines to help you move beyond the traditional focus of Human Resources the indispensable plans of attack found in High Impact Human Capital deliver measurable value in the face of ongoing challenges that are not going away

Introduction to Positive Psychology Dr. Asha Rani,2021-09-11 Positive Psychology emerged at the beginning of the new millennium as a movement within psychology aimed at enhancing human strengths such as creativity joy flow responsibility and optimal performance and achievement Most study of human behaviour has focused mainly on what goes wrong in human affairs aggression mental disease failure and so on While it is essential to study and contain such pathologies it is equally important to understand those aspects of human experience that make life worth living Positive psychologists seek to find and nurture genius and talent and to make normal life more fulfilling rather than merely treating mental illness Positive psychology is primarily concerned with using psychological theory research and intervention techniques to understand the positive adaptive creative and emotionally fulfilling aspects of human behaviour The positive branch complements with no intention to replace or ignore the traditional areas of psychology By adding an important emphasis to use the scientific method to study and determine positive human development this area of psychology fits well with the investigation of how human development can falter Using strategies from positive psychology teachers coaches therapists and employers can motivate others and help individuals understand and develop their personal strengths It is expected that the book will provide a fund of rich experiences to the students and teachers Contents Cognitive Strategies Algorhythms and Heuristics Decision Making Creative Thinking and Problem Solving Language and Thought Historical
