While most his age were concerned with high school romances and the Friday night sock hops young Ben Stark was grieving the loss of both parents and coping with the adult sized problem of running a huge ranching operation Facing such realities it is no surprise that his early life is a mixture of depression anxiety and despair A devoted Christian Ben s faith is tested that a loving God would allow such turmoil in a life so dedicated This is the story of how he coped the people who helped him along the way and his growth despite the many unexpected and unfortunate circumstances that clouded his life The book is about stumbling falling and getting up again In these pages Ben shares the mindset that kept him going and ultimately led to successes in his community and beyond Late in life when he least expected it Ben discovered romance He met and married Donna who added dimension to his life She was the catalyst in bringing to the surface ambitions long lost and almost forgotten The Woman He's Been Waiting For Jennifer Taylor,2016-10-17 From playboy doctor to her ideal husband

**Food for War** Alan F. Wilt, 2001-09-20 Food for War is a ground breaking study of Britain s food and agricultural preparations in the 1930s as the nation once again made ready for war Historians writing about 1930s Britain have usually focused on the Depression appeasement or political military and industrial concerns None have dealt adequately with another significant topic food and agriculture as the nation moved albeit reluctantly from peace to war In this new account Alan F Wilt makes right this omission by examining in depth the relationship between food agriculture and the nation s preparations for war He reveals how food and agriculture became closely linked to rearmament as early as 1936 that the government s preparations in this sector as contrasted with other areas of the economy were relatively well developed when war broke out in 1936 and that rural and farm interests well understood the effect that war would have on their way of life He argues that food and agriculture need to be integrated into the more general historical discourse for what happened in Britain in the 1930s not only set the stage for World War II but also contributed to a more robust agriculture in the decades that followed
