9-40 (Objectives 9-6, 9-7) In Part I of the case, you performed preliminary analytical procedures for Pinnacle ([here](#)). The purpose of Part II is to identify factors influencing risks and the relationship of risks to audit evidence.

During the planning phase of the audit, you meet with Pinnacle's management team and perform other planning activities. You encounter the following situations that you believe may be relevant to the audit:

A second article is titled, "Stick to Diesel, Pinnacle!" The article claims that although Pinnacle has proven itself within the diesel engine industry, they lack the knowledge and people necessary to perform well in the solar-powered engine industry.
2. While reading the footnotes of the previous year's financial statements, you note that one supplier, Auto-Electro, provides over 20 percent of the raw materials used by Pinnacle. You investigate Auto-Electro and discovered that the company is considering entering Chapter 11 bankruptcy proceedings due to continuing cash flow difficulties.
3. While reviewing Pinnacle's long-term debt agreements, you identify several restrictive covenants. Two requirements are to keep the current ratio above 2.0
